How to Use This Manual

This manual is organized by user role. Follow only the procedures assigned to your account. Button names and navigation labels are written exactly as displayed in the verified November 2026 system build.

- Screenshots use anonymized documentation data captured from an isolated local copy of the latest source code.
- Actions that send notifications, publish content, archive records, or permanently delete data require authorization and careful confirmation.
- The Administrator and MIS Staff are separate roles in the current system.
- The current Registrar interface has no row-level Edit or View Details actions and no restore command.

1 Introduction

GradTrack is a web-based graduate tracer and alumni job-support system for Norzagaray College. It combines graduate identity verification, tracer surveys, role-based monitoring and analytics, alumni community features, and approved job opportunities.

1.1 Purpose of the Manual

This manual provides current, step-by-step instructions for public visitors, graduates, Research Coordinators, Deans, the Registrar, the Alumni President, the Administrator, and MIS Staff.

1.2 Source of Truth

The procedures and figures in this edition were verified against the latest application routes, role configuration, source code, and a running local environment. The previous 61-page manual was used only as a structural and academic-style reference.

1.3 Safety and Data Privacy

Use authorized accounts only. Do not share passwords, expose graduate personal data, send reminders without confirming recipients, or perform archive, delete, publish, approval, or backup actions outside institutional policy.

2 Software Requirements

2.1 End-User Requirements

- A desktop or laptop computer with a current version of Microsoft Edge, Google Chrome, or Mozilla Firefox.
- A stable network connection to the authorized GradTrack environment.
- A screen resolution of at least 1366 × 768; 1440 × 900 or higher is recommended.
- An authorized personnel account or an approved Graduate Portal account for restricted modules.
- A PDF reader and Microsoft Word or a compatible office application for exported reports and this manual.

2.2 Deployment Components

The current project uses a React/Vite frontend, PHP API, MySQL or MariaDB data storage, and a real-time messaging service. These components are maintained by authorized technical staff and are not required for ordinary end-user procedures.

3 User Roles and Access

The current source code defines the following separate roles and access scopes.

Role	Verified Current Access
Graduate / Alumni	Community Forum, announcements, messaging, jobs, job submissions, saved jobs, profile, credentials, settings, notifications
Research Coordinator	Institution dashboard, graduate participation, survey management, responses, reports and analytics, job postings, AI Assistant
Dean	Department-scoped dashboard, survey participation, reports and analytics, job postings, profile, AI Assistant
Registrar	Graduate search and filters, add, Excel/CSV import, bulk archive, Registrar Archive, profile; no row-level edit/view/restore actions
Alumni President	Graduate account approvals, registered alumni, membership content, announcements, forum moderation, job postings and approvals
Administrator	Personnel users, automated reminders, audit trail, database backup, system settings, branding, profile, AI Assistant
MIS Staff	Institution dashboard and own profile only in the current navigation

4 Public Site, Survey, and Account Access

4.1 Public Home Page

Purpose: Introduce GradTrack and provide entry points to the survey, Graduate Portal, public information, and personnel system.

Procedure

Step 1. Open the GradTrack web address in a supported browser.

Step 2. Use the top navigation to open Home, About, FAQ, Alumni Membership, or Privacy.

Step 3. Select Take Survey, Graduate Portal, or System for the required task.

Expected Result: The selected public page or access portal opens.

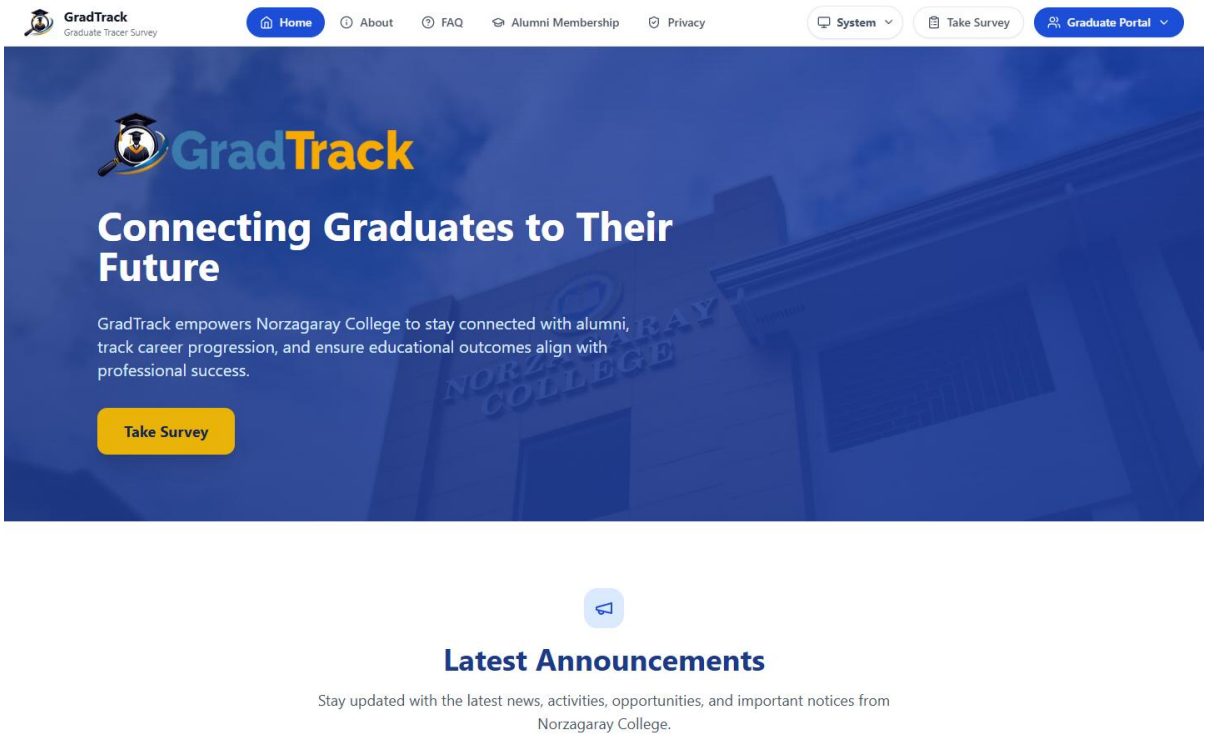

Figure 1. GradTrack Public Home Page

Figure description: The current public landing page displays the latest GradTrack branding and navigation.

4.2 Public Announcements

Purpose: Allow visitors to read published college and alumni announcements without signing in.

Procedure

Step 1. From the public site, open Announcements when it is presented from the home page or portal.

Step 2. Review the announcement cards.

Step 3. Select Read More to open the complete announcement.

Expected Result: The chosen published announcement is displayed.

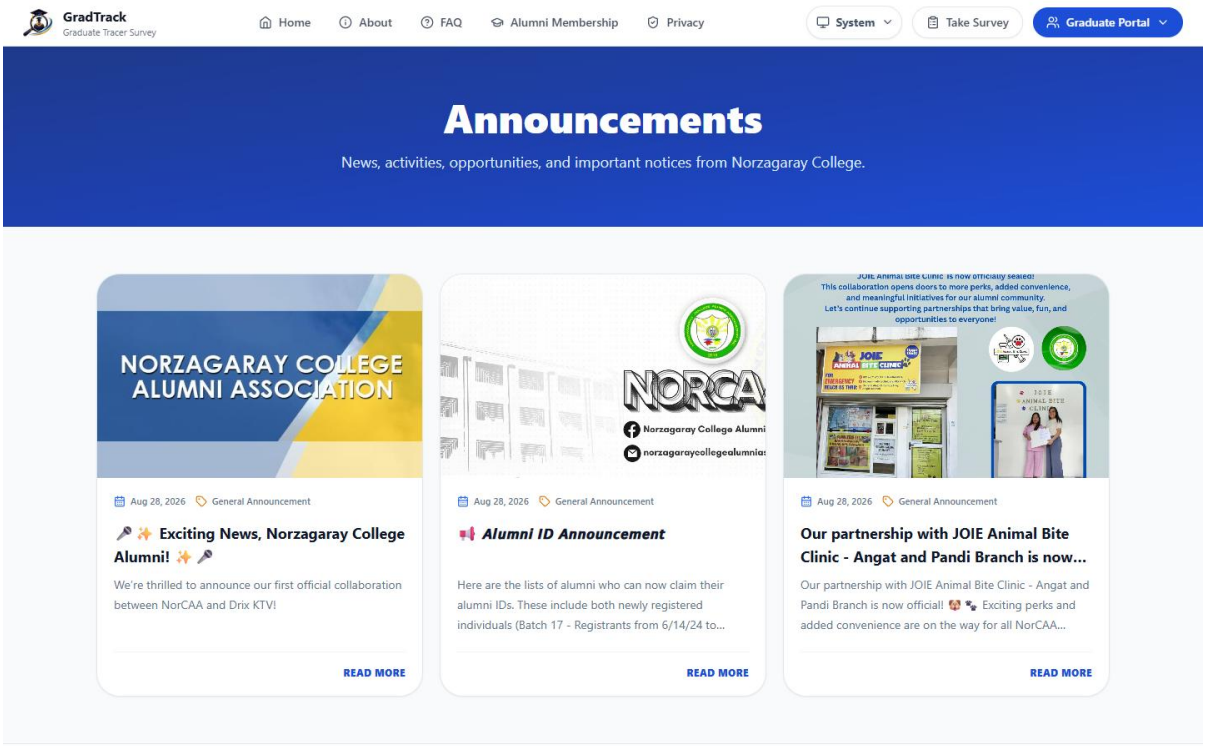

Figure 2. Public Announcements Page

Figure description: Published announcements appear as image cards with their dates, categories, and summaries.

4.3 About GradTrack

Purpose: Explain the system mission and the graduate-tracing problem addressed by GradTrack.

Procedure

Step 1. Select About on the public navigation bar.

Step 2. Read the mission and system overview.

Step 3. Scroll to review the remaining informational sections.

Expected Result: The About page presents the current system description.

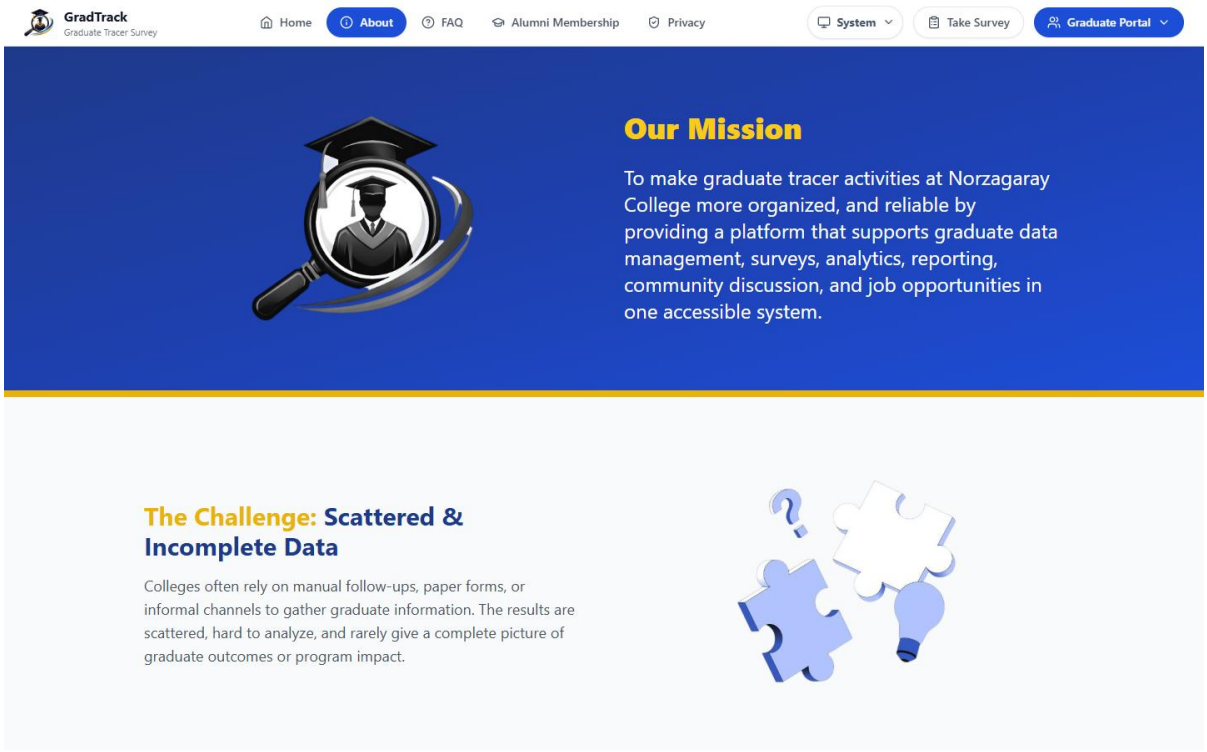

Figure 3. About GradTrack Page

Figure description: The About page describes GradTrack's purpose using current system branding.

4.4 Frequently Asked Questions

Purpose: Provide quick answers about surveys, access, accounts, and common system concerns.

Procedure

Step 1. Select FAQ on the public navigation bar.

Step 2. Locate the relevant category.

Step 3. Select a question to expand its answer.

Expected Result: The selected answer expands on the same page.

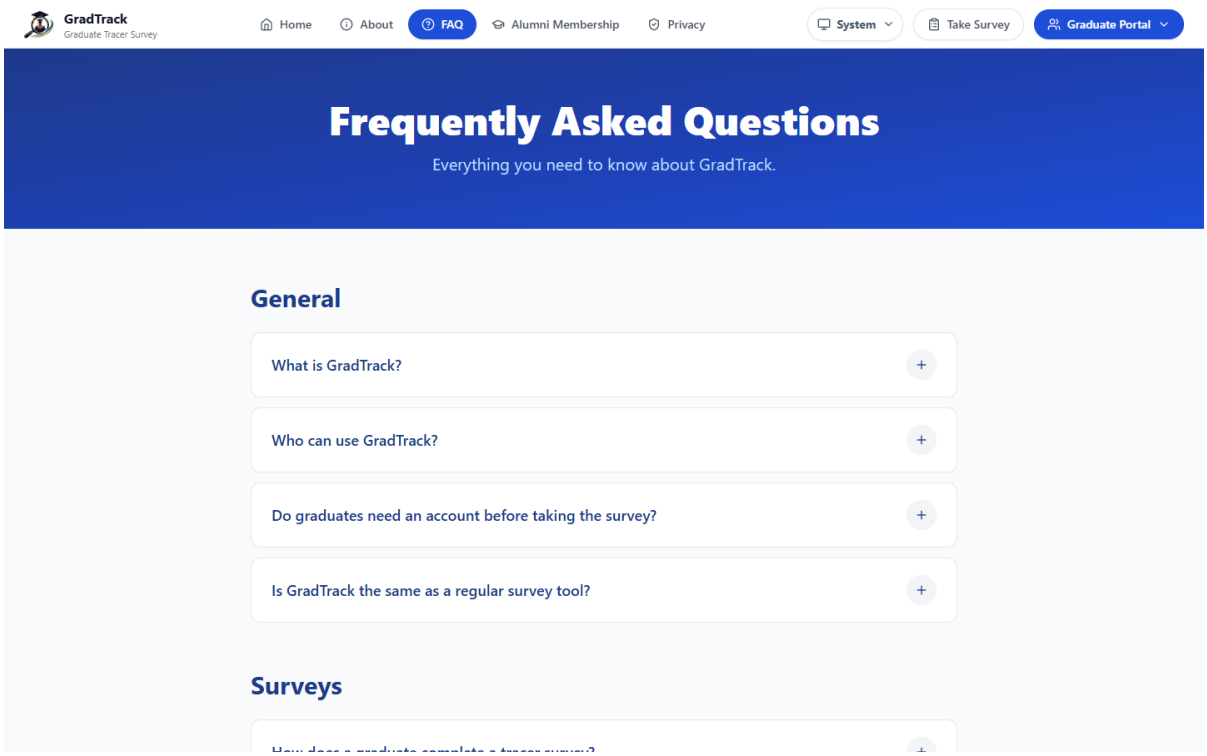

Figure 4. Frequently Asked Questions

Figure description: The FAQ page organizes common questions into expandable items.

4.5 Privacy Policy

Purpose: Inform users how GradTrack collects, uses, and protects personal information.

Procedure

Step 1. Select Privacy on the public navigation bar.
Step 2. Read the policy before supplying personal or survey information.
Step 3. Scroll to review the information categories and user responsibilities.
Expected Result: The current privacy policy is displayed.

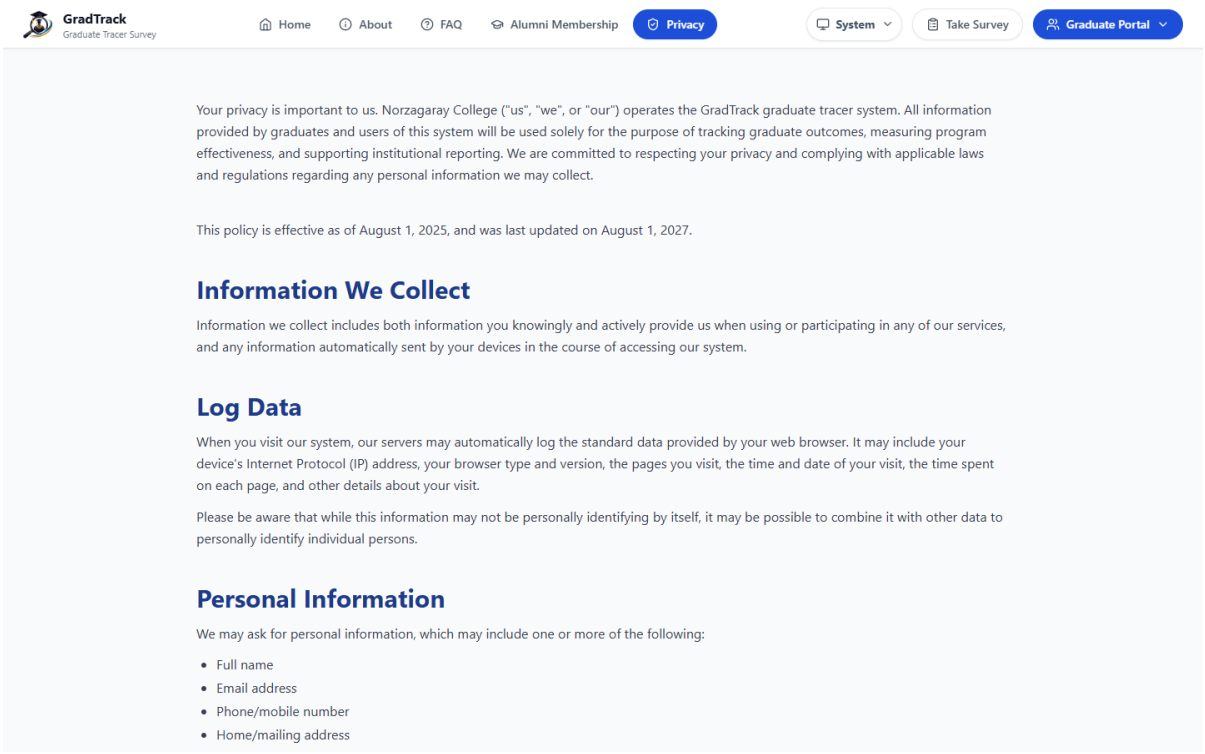

Figure 5. GradTrack Privacy Policy

Figure description: The public privacy page presents the current notice and categories of collected information.

4.6 Alumni Membership Information

Purpose: Present the current Norzagaray College Alumni Association benefits, fees, and identification-card information.

Procedure

Step 1. Select Alumni Membership on the public navigation bar.

Step 2. Review the membership benefits and fee breakdown.

Step 3. Review the sample alumni identification card and important membership information.

Expected Result: The visitor can review the published membership information before proceeding.

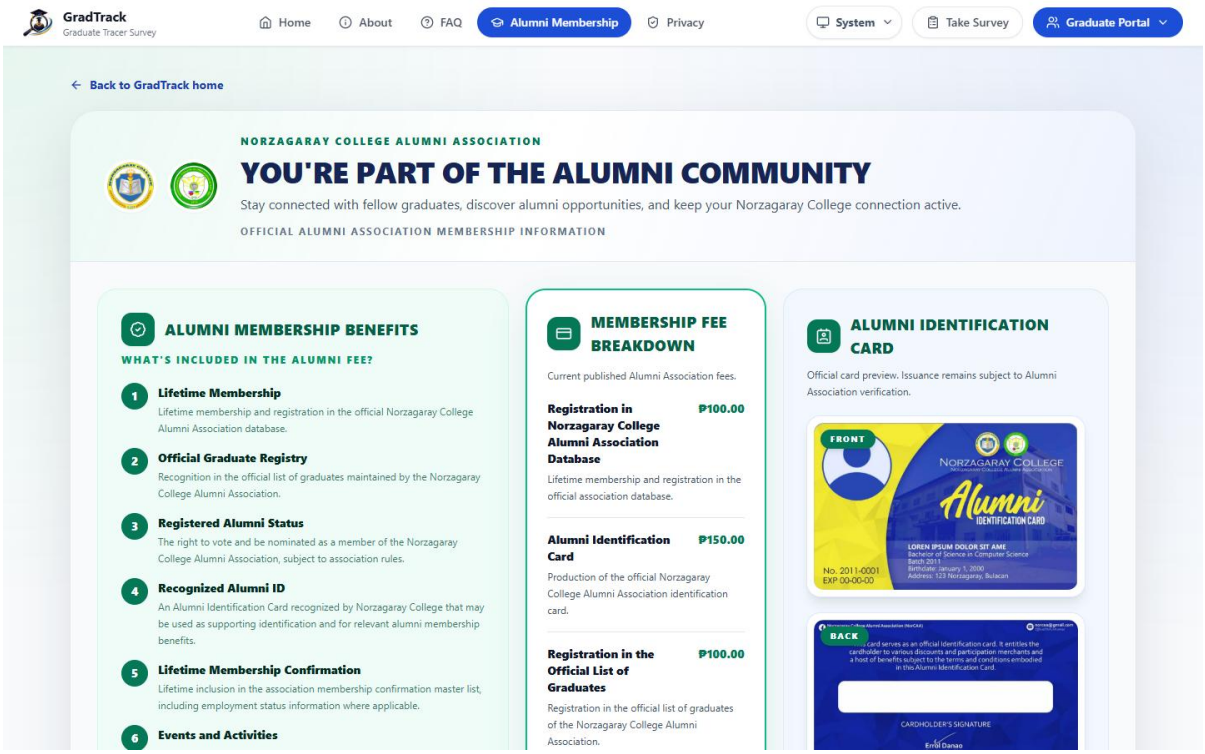

Figure 6. Alumni Membership Information

Figure description: The membership page shows the current college and Alumni Association logos, benefits, fees, and ID-card preview.

4.7 Proceed to Alumni Registration

Purpose: Direct qualified graduates to the official Alumni Association registration process.

Procedure

Step 1. Open Alumni Membership from the public site.

Step 2. Scroll to Official Registration — How to Proceed.

Step 3. Read the eligibility and payment notes.

Step 4. Select Proceed to Alumni Registration; the official form opens in a new browser tab when enabled.

Expected Result: The official Alumni Association registration page opens separately from GradTrack.

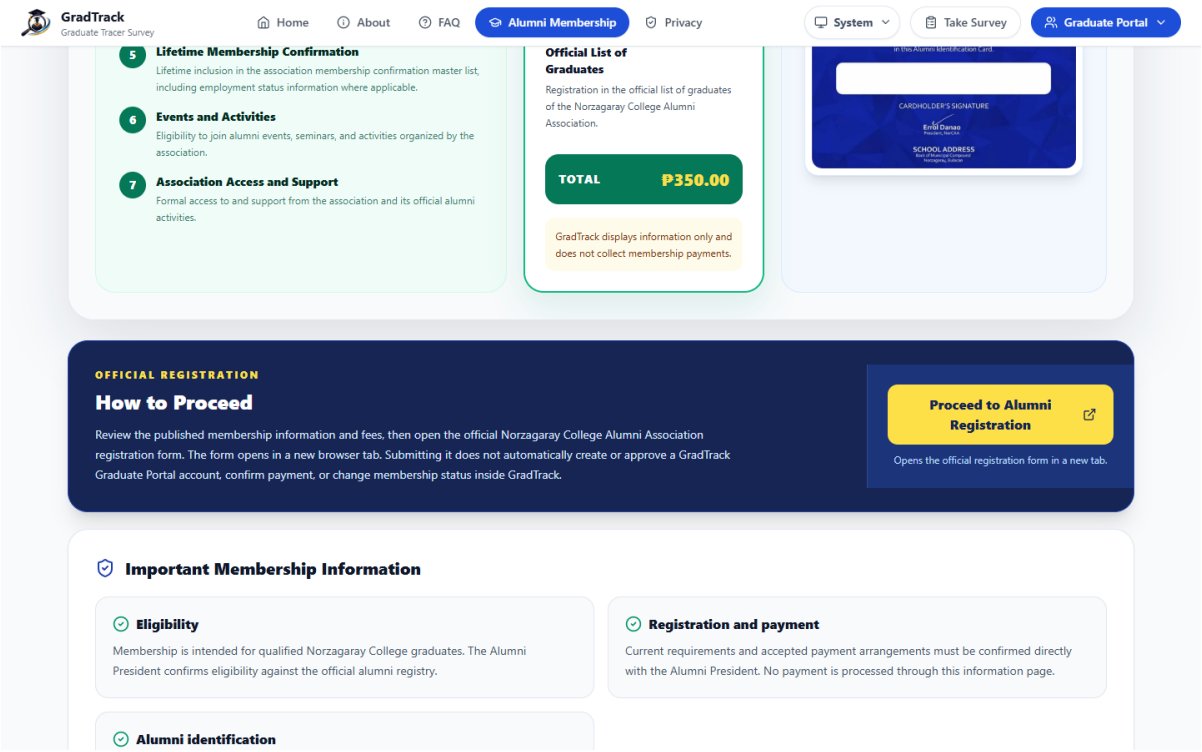

Figure 7. Alumni Membership Registration Link

Figure description: The registration call-to-action explains that GradTrack displays information only and does not collect membership payments.

4.8 Personnel Sign In

Purpose: Authenticate authorized college personnel according to their assigned role.

Procedure

Step 1. From the public site, select System, or open the personnel sign-in page.

Step 2. Enter the authorized email address and password.

Step 3. Select Sign In.

Expected Result: GradTrack opens the modules allowed for the authenticated personnel role.

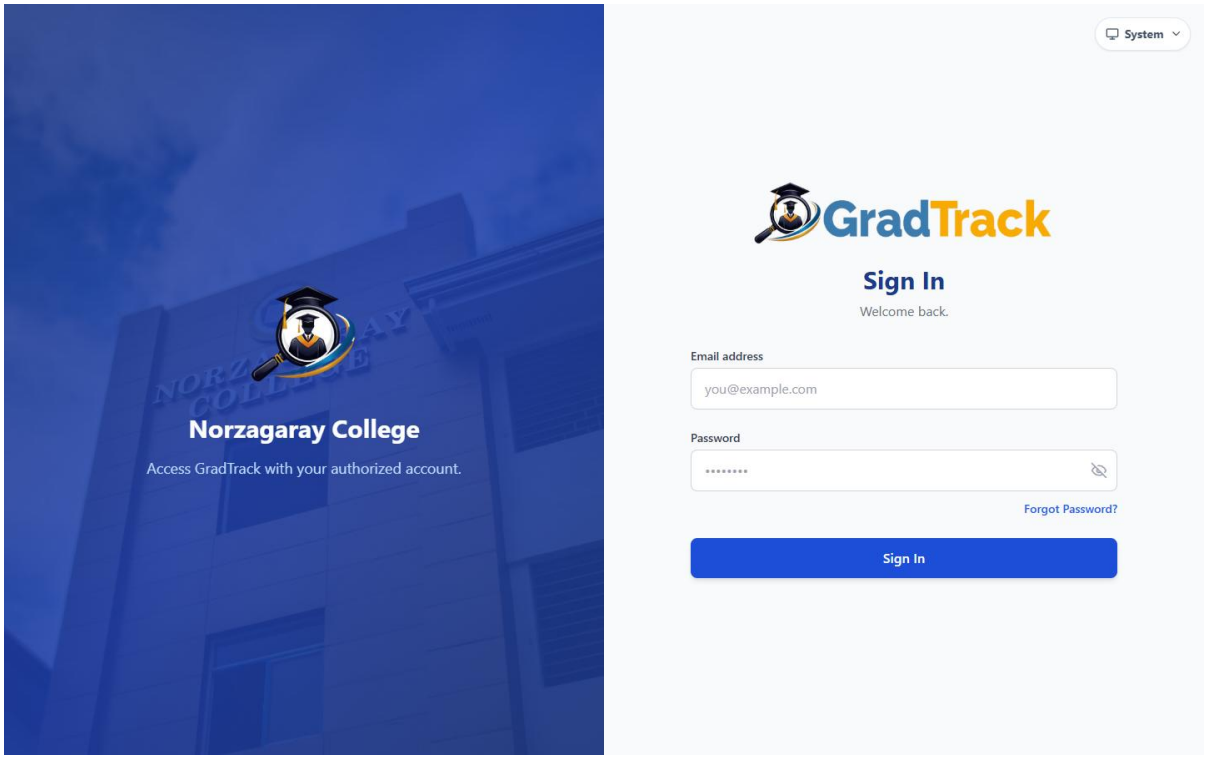

Figure 8. Personnel Sign In Page

Figure description: The personnel sign-in page uses the current GradTrack and Norzagaray College branding.

4.9 Graduate Portal Login

Purpose: Allow approved graduates to access community, job, profile, and messaging features.

Procedure

Step 1. Open Graduate Portal from the public navigation.
Step 2. Enter the registered email address and password.
Step 3. Select Log In.

Expected Result: An approved and active account opens the Graduate Community portal.

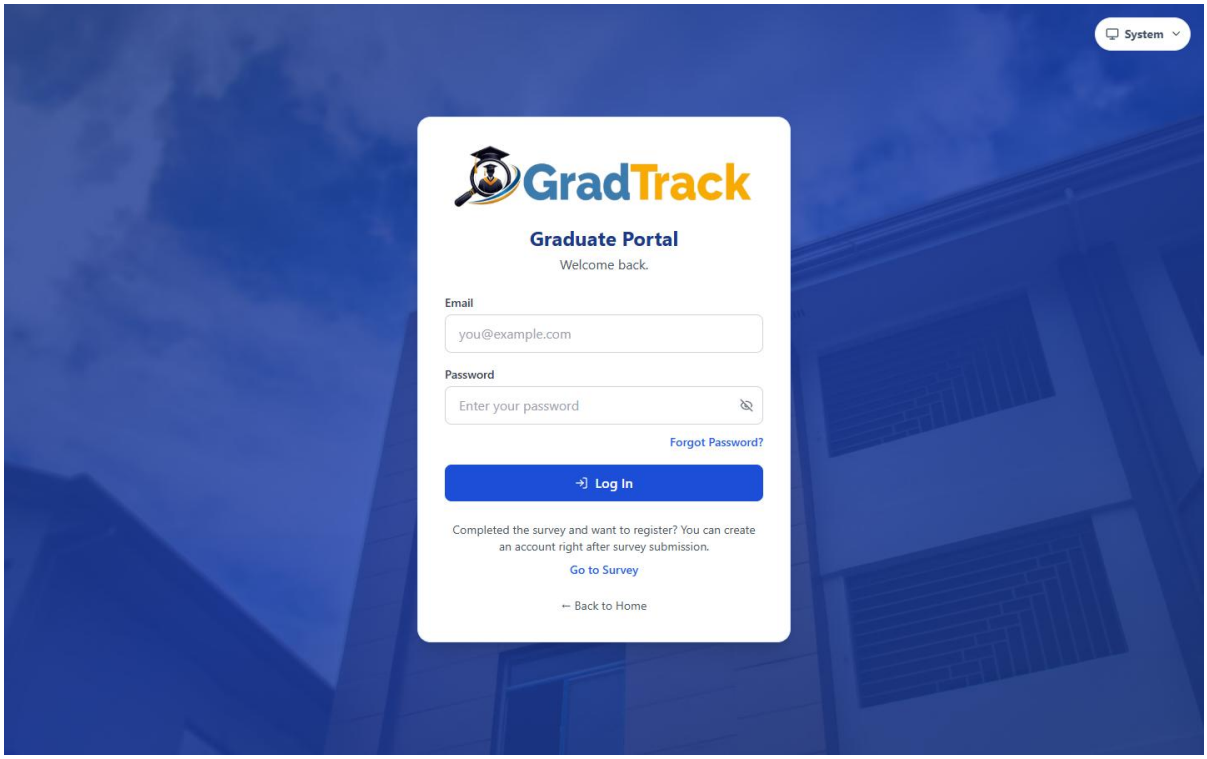

Figure 9. Graduate Portal Login

Figure description: The Graduate Portal login page includes links for password recovery and survey access.

4.10 Graduate Identity Verification

Purpose: Match a graduate to the official registrar record before survey access or account creation.

Procedure

Step 1. Select Take Survey or Go to Survey.
Step 2. Choose Student Number or Email as the verification method.
Step 3. Enter the requested identifier, last name, and program exactly as recorded.
Step 4. Select Verify & Continue.

Expected Result: A verified graduate proceeds to the assigned survey or eligible account-creation flow.

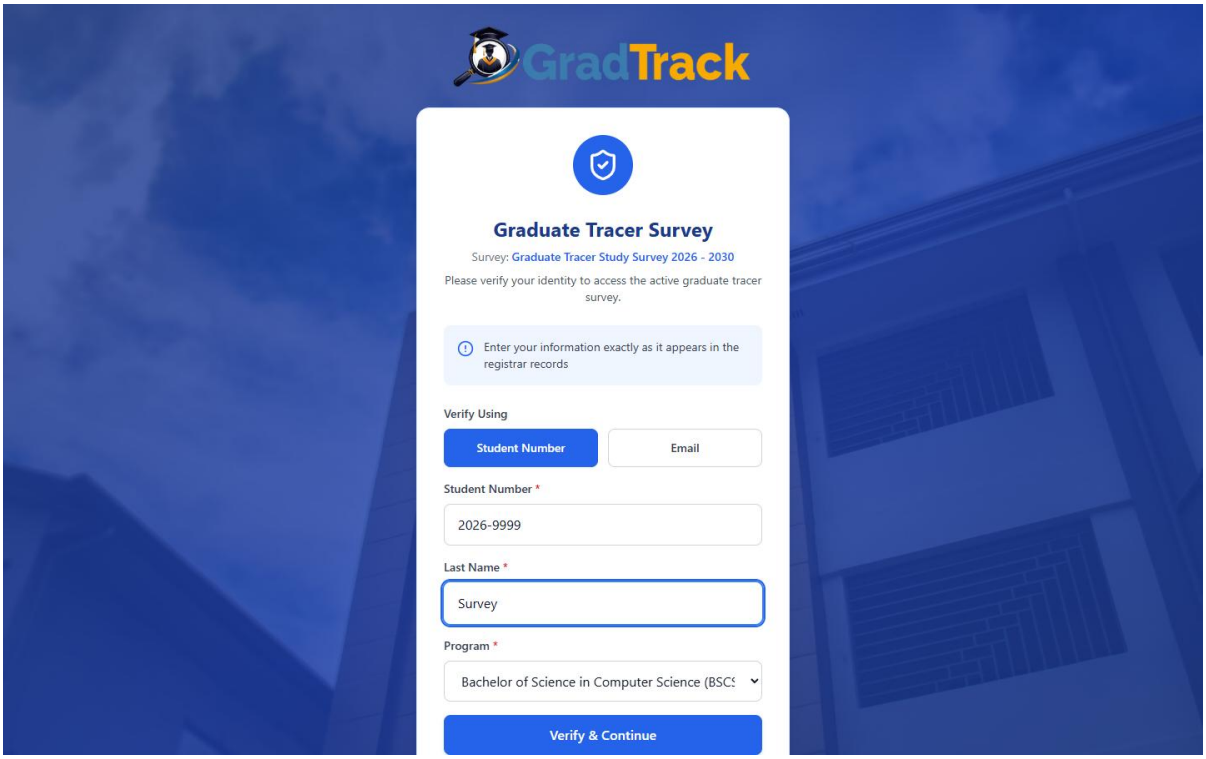

Figure 10. Graduate Identity Verification

Figure description: The verification form validates identity against the registrar's graduate records.

4.11 Data Privacy Consent

Purpose: Obtain informed consent before collecting tracer-survey responses.

Procedure

Step 1. Read the complete Data Privacy Notice & Informed Consent.

Step 2. Select the acknowledgement checkbox when you agree.

Step 3. Select I Agree & Proceed; select Decline & Go Back if you do not consent.

Expected Result: Consent opens the survey; declining returns the user without submitting responses.

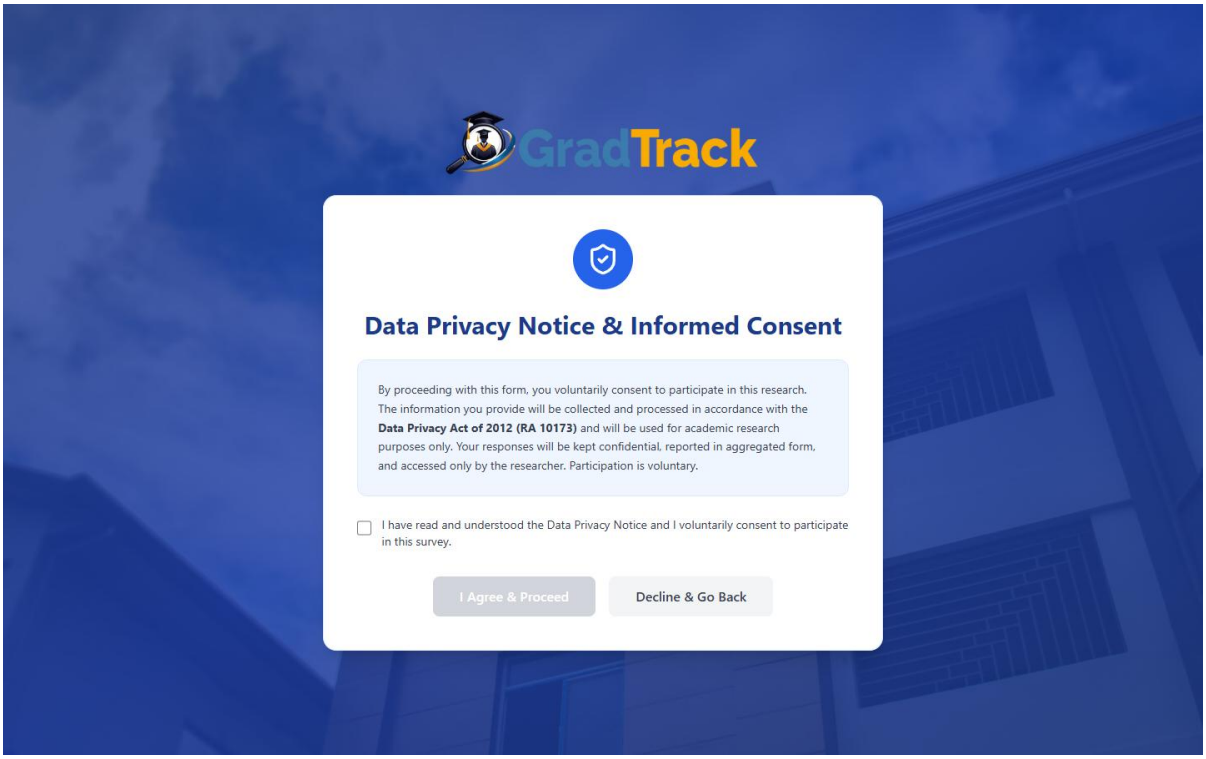

Figure 11. Data Privacy Notice and Informed Consent

Figure description: The consent screen must be acknowledged before the survey form becomes available.

4.12 Complete the Graduate Tracer Survey

Purpose: Collect the graduate's personal, educational, training, further-study, and employment information.

Procedure

Step 1. Complete every field marked with an asterisk.

Step 2. Use the address selectors and choose answers that accurately describe the graduate.

Step 3. Select Next to continue through each section; use Previous to revise an earlier section.

Step 4. Observe the Draft saved indicator before leaving the page.

Expected Result: Valid answers are saved as a draft and the next survey section opens.

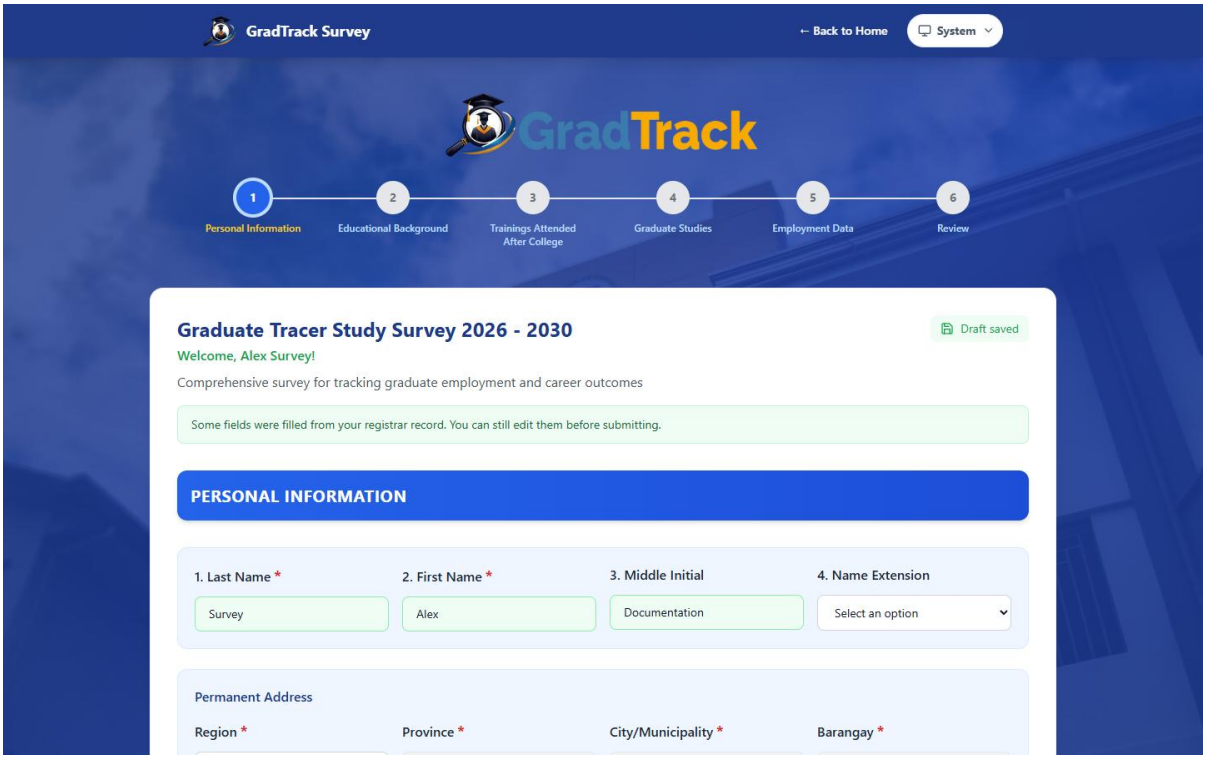

Figure 12. Graduate Tracer Survey Form

Figure description: The multi-section tracer survey shows progress, required fields, and draft status.

4.13 Review Survey Answers

Purpose: Let the graduate verify all answers before final submission.

Procedure

Step 1. On the last survey section, select Review Answers.

Step 2. Review each answer by section.

Step 3. Select Edit this section when a correction is required.

Step 4. Return to Review and select Confirm & Submit Survey only when the information is accurate.

Expected Result: The survey is ready for a single final submission.

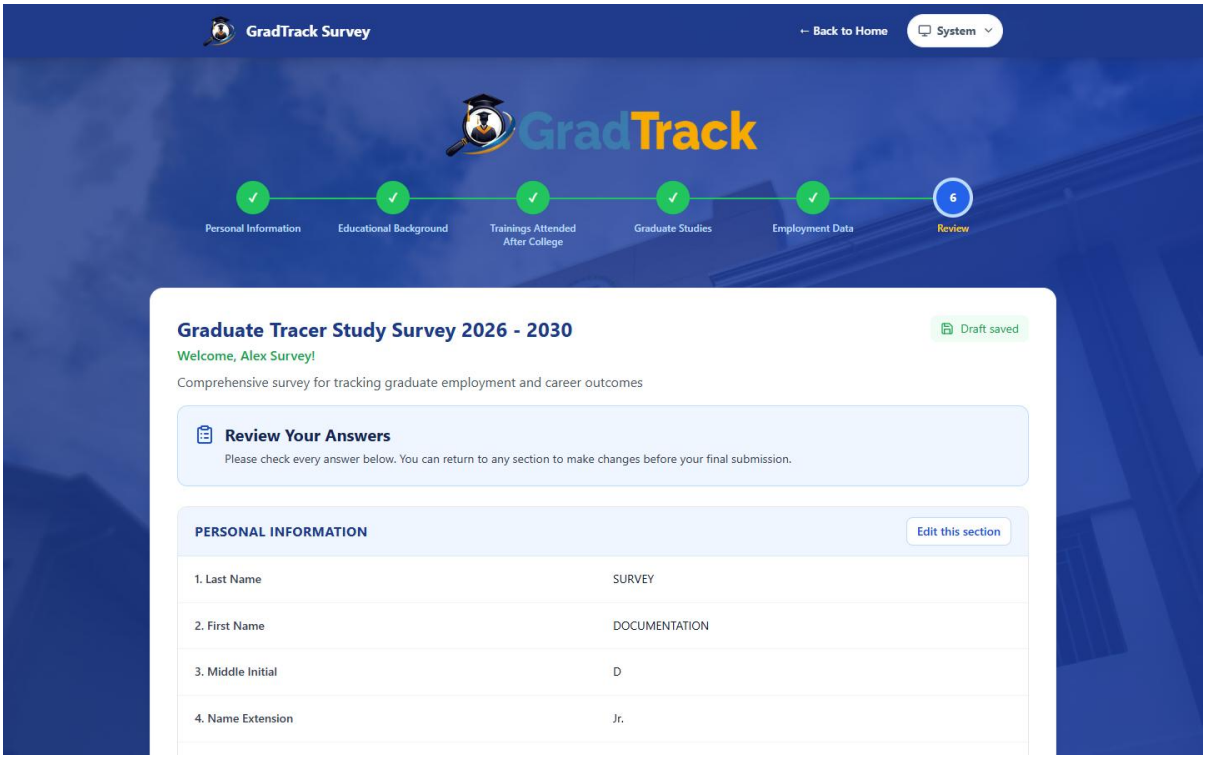

Figure 13. Survey Review Screen

Figure description: The review screen groups all answers and provides an edit link for each section.

4.14 Survey Submission Result

Purpose: Confirm successful submission and present the graduate's next available actions.

Procedure

Step 1. After reviewing the answers, select Confirm & Submit Survey.

Step 2. Wait for the Survey Completed confirmation.

Step 3. Choose Register as Alumni Member for association information, or Create My GradTrack Account for portal registration.

Expected Result: The final response is recorded and the post-survey choices are displayed.

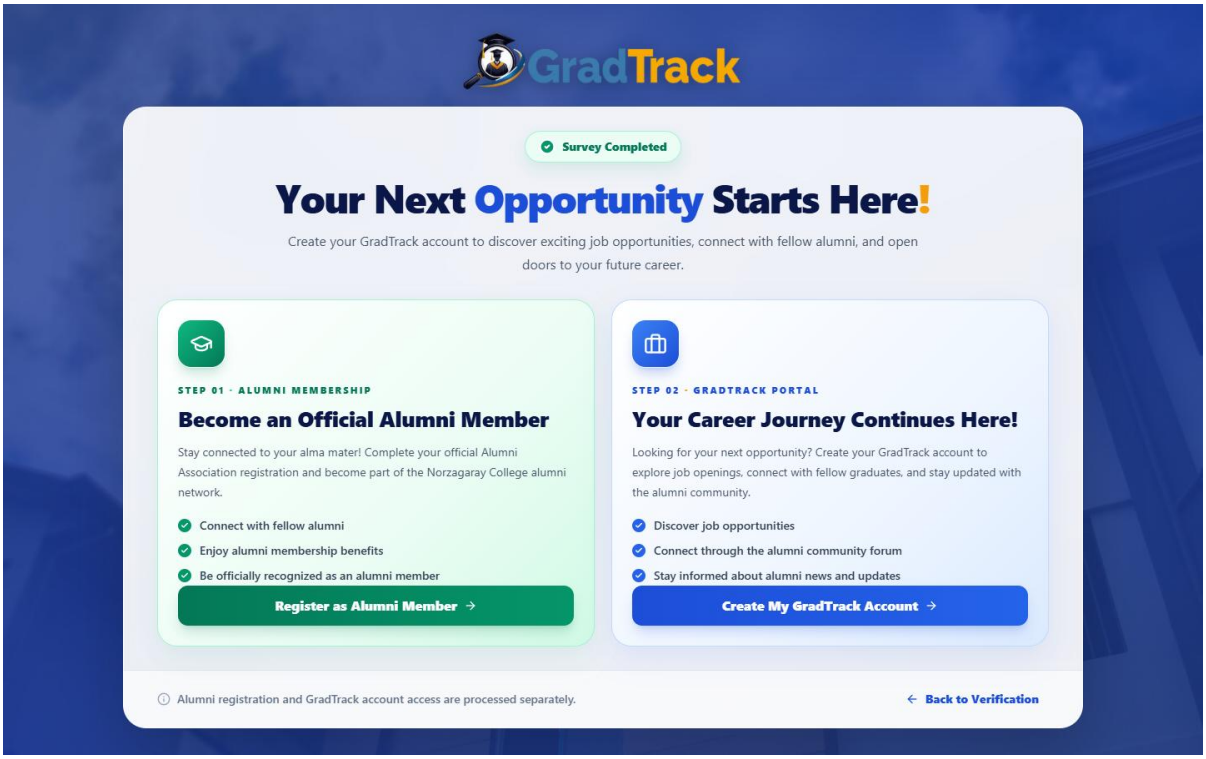

Figure 14. Survey Completion and Next Actions

Figure description: The completion screen separates Alumni Association membership from Graduate Portal account creation.

4.15 Create a Graduate Portal Account

Purpose: Create a portal account after a qualifying survey response has been submitted.

Procedure

Step 1. From the completion screen, select Create My GradTrack Account.

Step 2. Review the verified name, program, graduation year, and contact number.

Step 3. Enter a valid email address.

Step 4. Create and confirm a password containing uppercase, lowercase, number, and symbol characters.

Step 5. Select Create Account.

Expected Result: The account is submitted for Alumni President verification; access begins only after approval and activation.

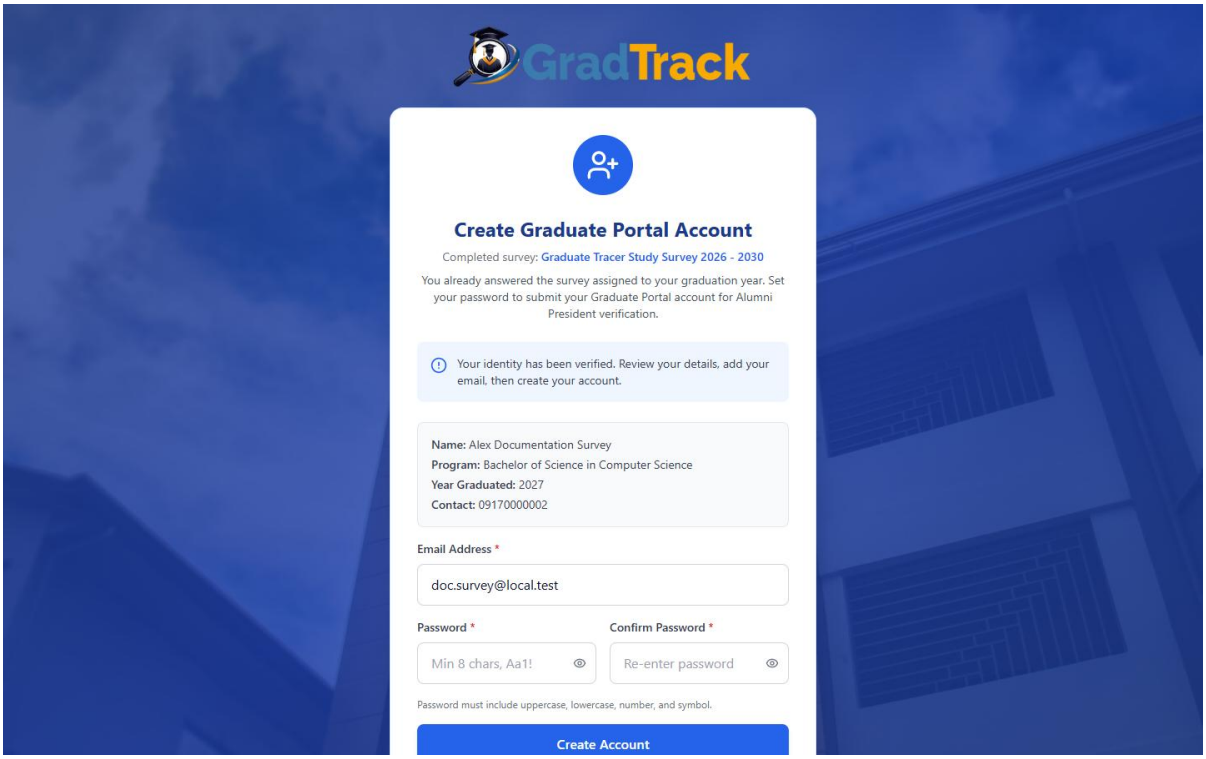

Figure 15. Graduate Portal Account Registration

Figure description: The account form uses verified survey details and explains the pending Alumni President approval step.

5 Graduate / Alumni Portal

5.1 Community Forum

Purpose: Enable approved graduates to share updates and interact with the alumni community.

Procedure

Step 1. Sign in to the Graduate Portal.
Step 2. Select the Home or Community Forum icon.
Step 3. Use search and category, program, or year filters to locate posts.
Step 4. Use Like, Comment, Report, or Message only as appropriate.
Expected Result: The forum displays posts allowed for the signed-in graduate.

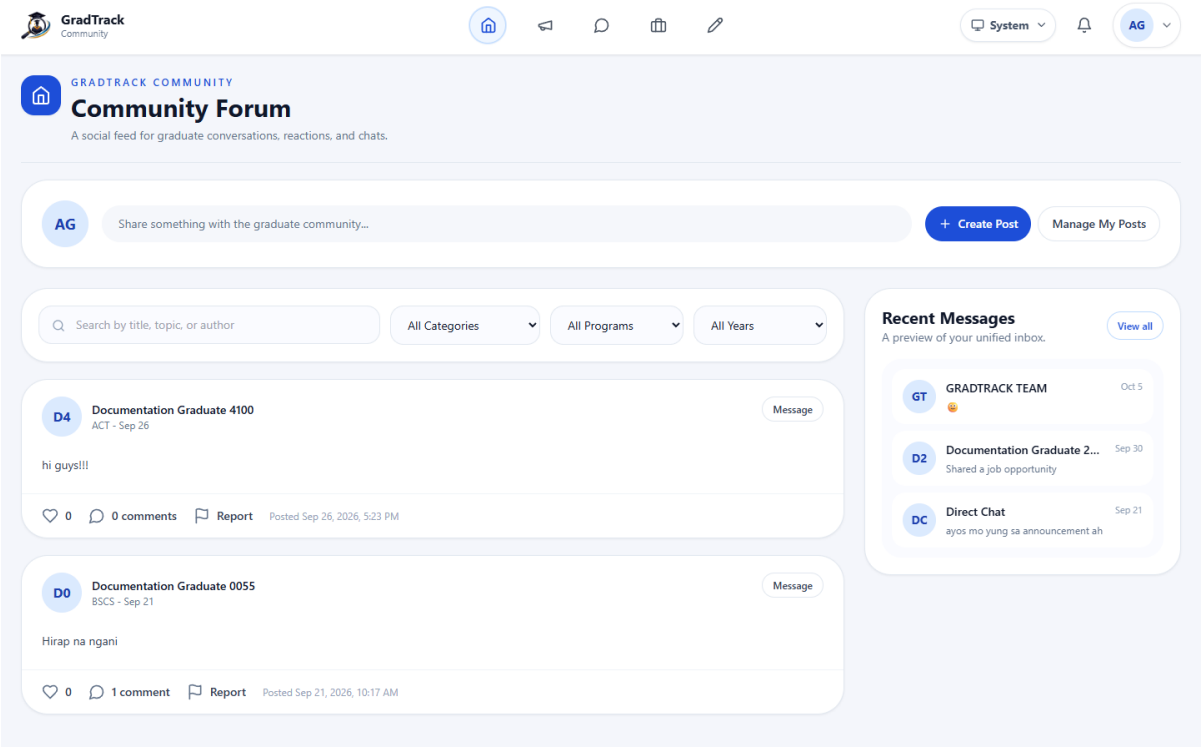

Figure 16. Graduate Community Forum

Figure description: The forum combines posts, filters, and recent-message shortcuts.

5.2 Create a Community Post

Purpose: Publish a text or media update to the graduate community.

Procedure

Step 1. On Community Forum, select Create Post.
Step 2. Enter the post text.
Step 3. Optionally select Add Media and choose a supported file.
Step 4. Select Post.
Expected Result: The post is submitted and appears according to the forum's current moderation rules.

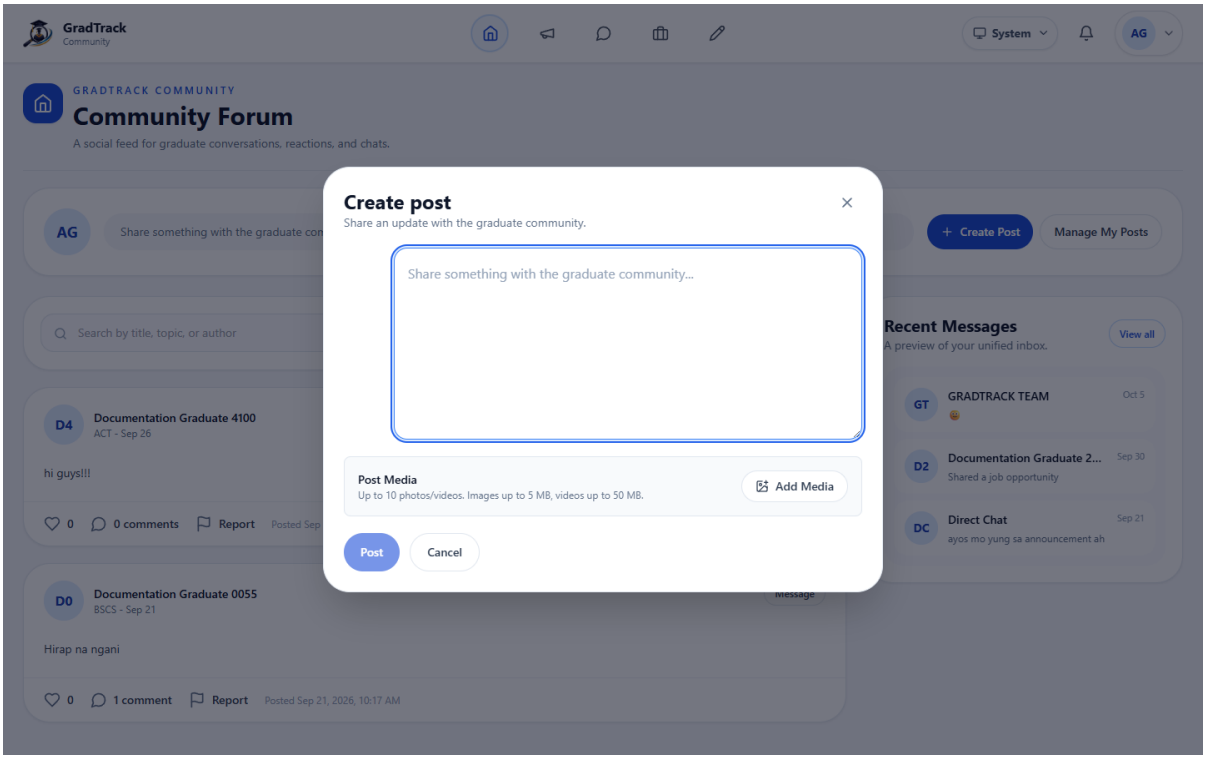

Figure 17. Community Post Composer

Figure description: The composer accepts post text and optional supported media.

5.3 Graduate Announcements

Purpose: Show published college and alumni notices inside the Graduate Portal.

Procedure

Step 1. Select the Announcements icon.

Step 2. Browse the published announcement cards.

Step 3. Select Read More to view a complete notice.

Expected Result: The graduate can read the current published notice.

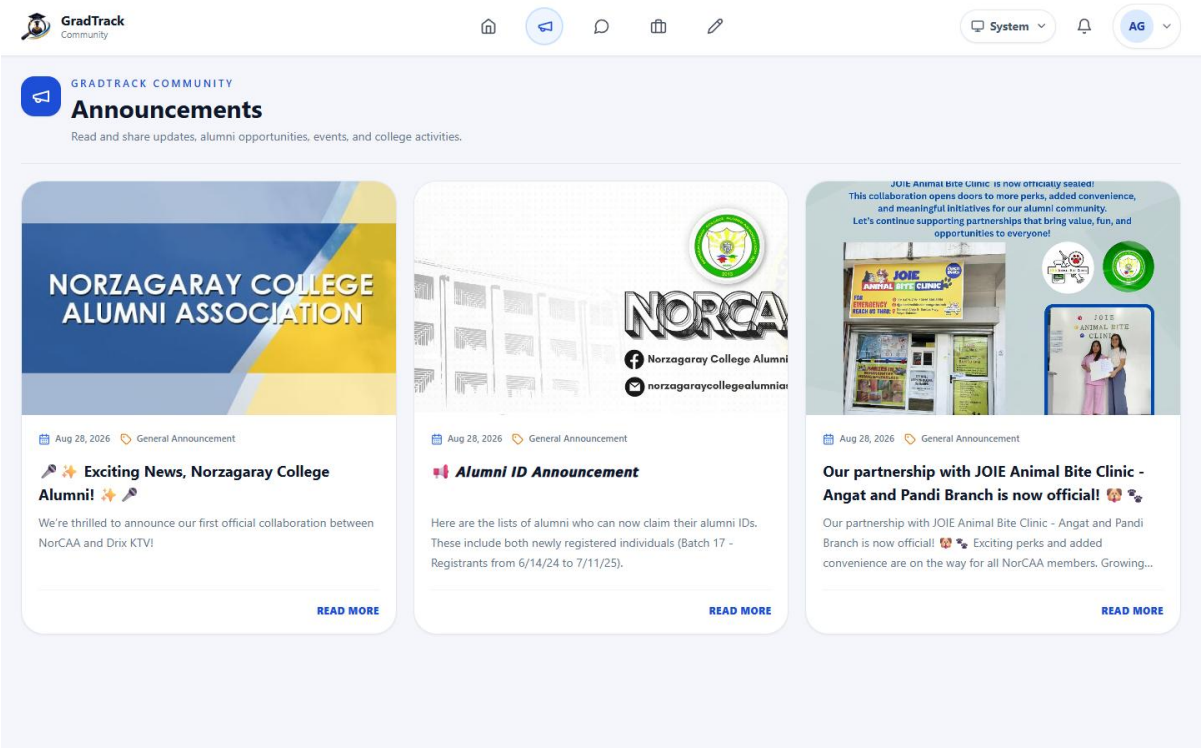

Figure 18. Graduate Announcements

Figure description: Portal announcements display current images, categories, summaries, and dates.

5.4 Direct and Group Messaging

Purpose: Support private and group communication among authorized graduates.

Procedure

Step 1. Select Messages.
Step 2. Choose an existing conversation or select New Message.
Step 3. Select a recipient or eligible group.
Step 4. Enter the message and send it.

Expected Result: The message appears in the selected conversation.

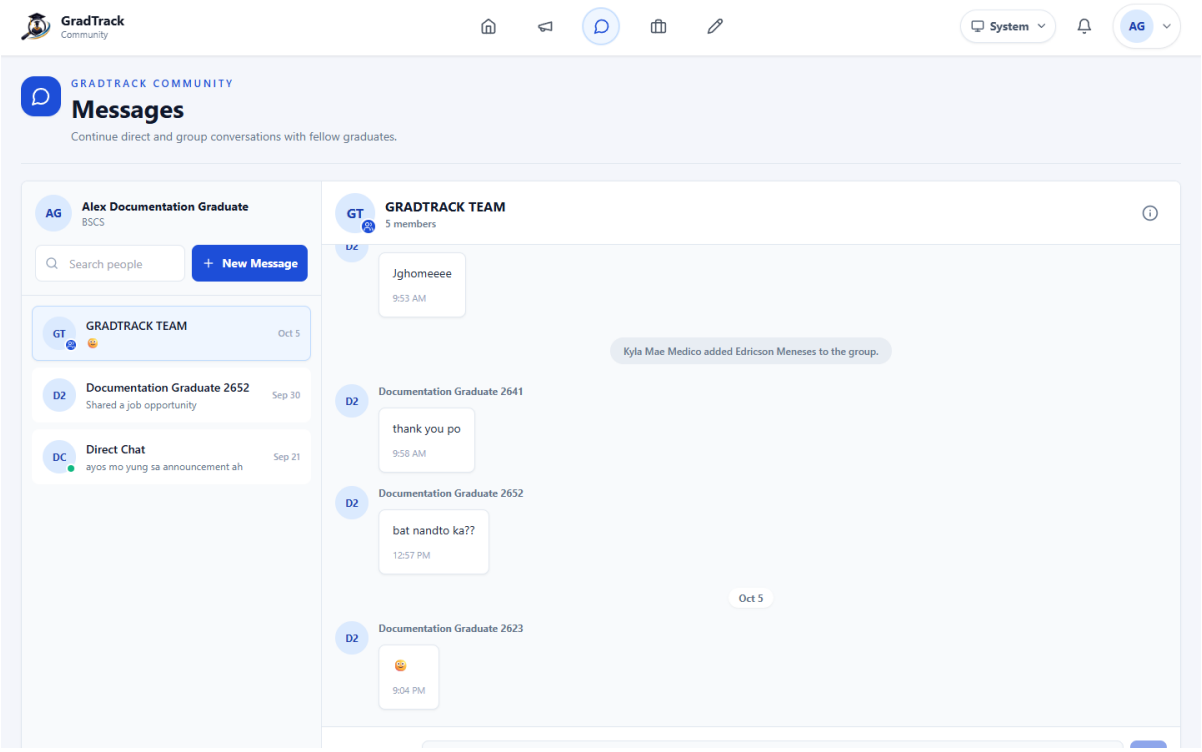

Figure 19. Direct and Group Messaging

Figure description: The messaging workspace lists conversations and the selected chat thread.

5.5 Browse Job Opportunities

Purpose: Help graduates find approved job opportunities relevant to their program and interests.

Procedure

Step 1. Select Browse Jobs.

Step 2. Use keyword, location, job-type, and program-fit filters.

Step 3. Use the sort list when needed.

Step 4. Select View Details on a job card.

Expected Result: The selected job opportunity opens with its full details.

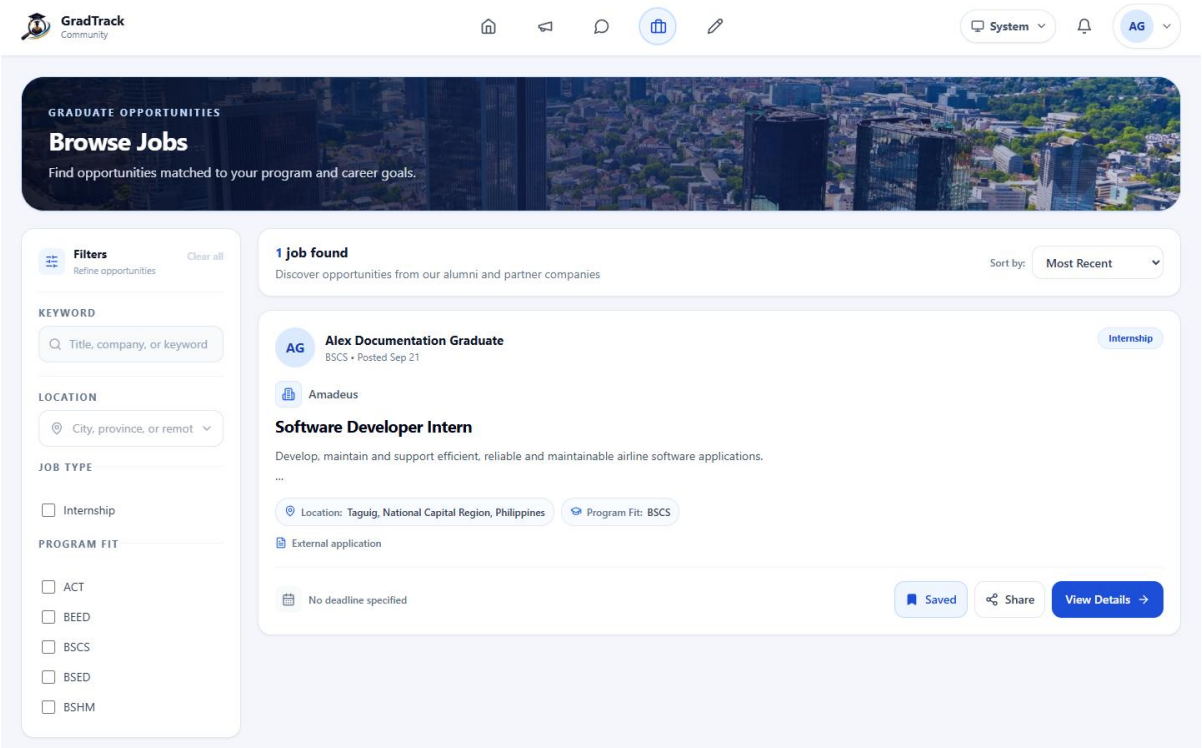

Figure 20. Browse Jobs

Figure description: The job browser presents filters, program fit, save, share, and View Details controls.

5.6 View and Apply for a Job

Purpose: Display the complete opportunity and direct the graduate to the employer's application method.

Procedure

Step 1. Open a job using View Details.

Step 2. Review the description, location, type, deadline, and program fit.

Step 3. Select Save or Share when needed.

Step 4. Follow Apply Now or the displayed employer instructions; external applications open outside GradTrack.

Expected Result: The graduate is directed to the configured application channel.

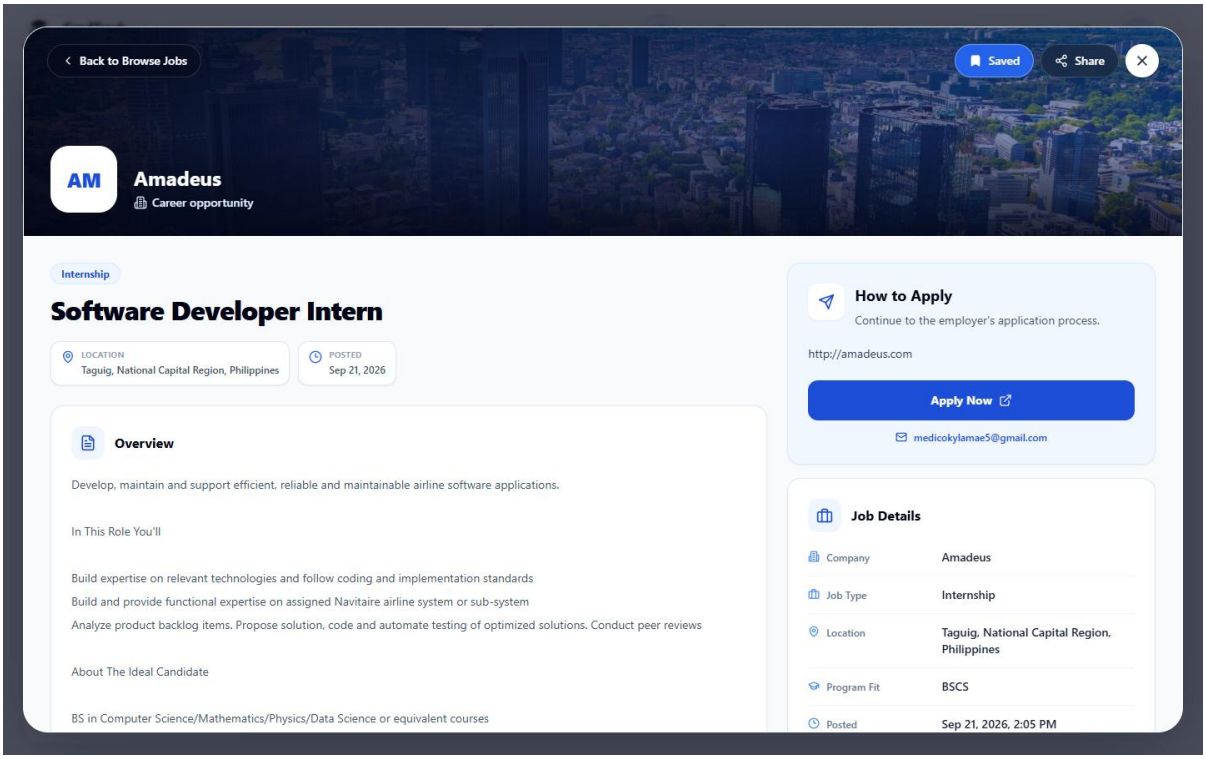

Figure 21. Job Opportunity Details

Figure description: The detail view separates the opportunity description, application guidance, and job metadata.

5.7 Saved Jobs

Purpose: Keep selected active opportunities for later review.

Procedure

Step 1. Select Saved on a job card or detail page.

Step 2. Open Saved Jobs from the job navigation.

Step 3. Select View Details to revisit an opportunity, or select Saved again to remove it.

Expected Result: The saved-jobs list reflects the graduate's current bookmarks.

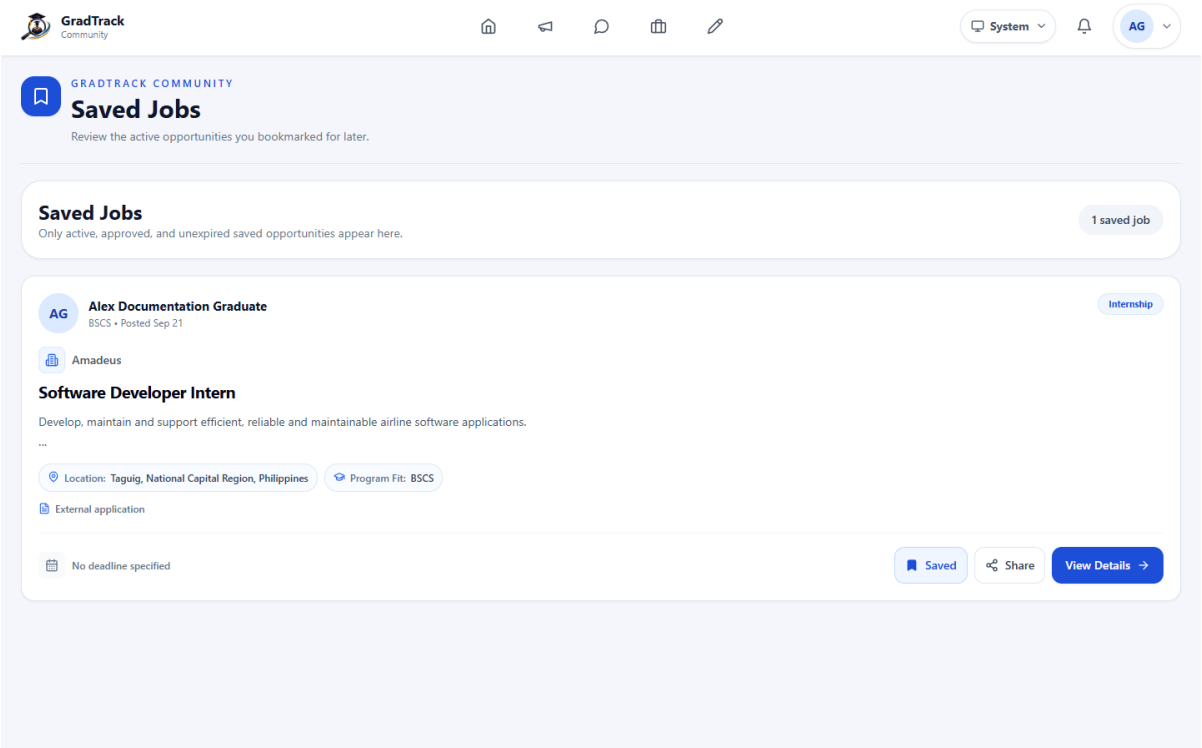

Figure 22. Saved Job Opportunities

Figure description: The Saved Jobs page lists bookmarked active opportunities.

5.8 Manage Graduate Job Posts

Purpose: Allow graduates to review job opportunities they submitted for approval.

Procedure

Step 1. Select Job Posting.
Step 2. Review each post and its status.
Step 3. Use Edit or Delete only on posts for which the buttons are available.
Step 4. Select Create Job Post to submit another opportunity.

Expected Result: The page shows the graduate's current job submissions and approval status.

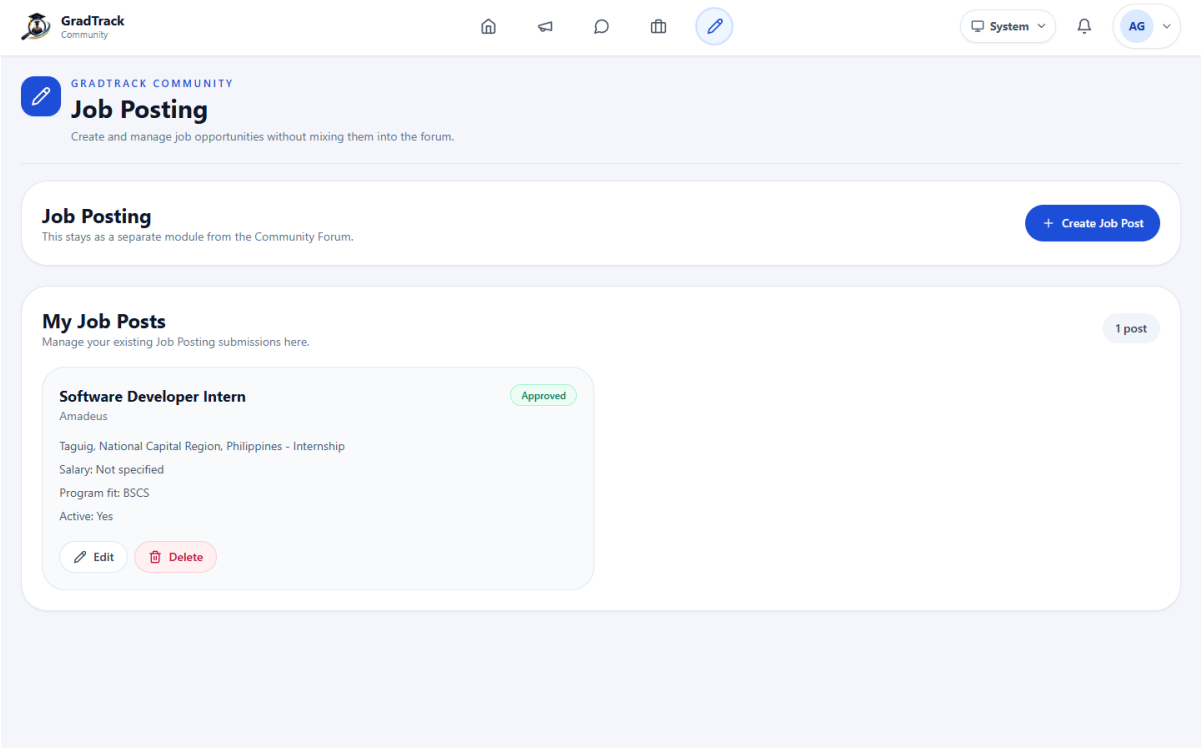

Figure 23. Graduate Job Posts

Figure description: My Job Posts separates graduate submissions from the community forum.

5.9 Create a Graduate Job Post

Purpose: Submit an employment opportunity for Alumni President review.

Procedure

Step 1. On Job Posting, select Create Job Post.

Step 2. Enter the job title, company, location, salary range, employment type, description, and required skills.

Step 3. Select the appropriate course or program fit.

Step 4. Submit the form for review.

Expected Result: The opportunity enters the job-approval workflow and is not public until approved.

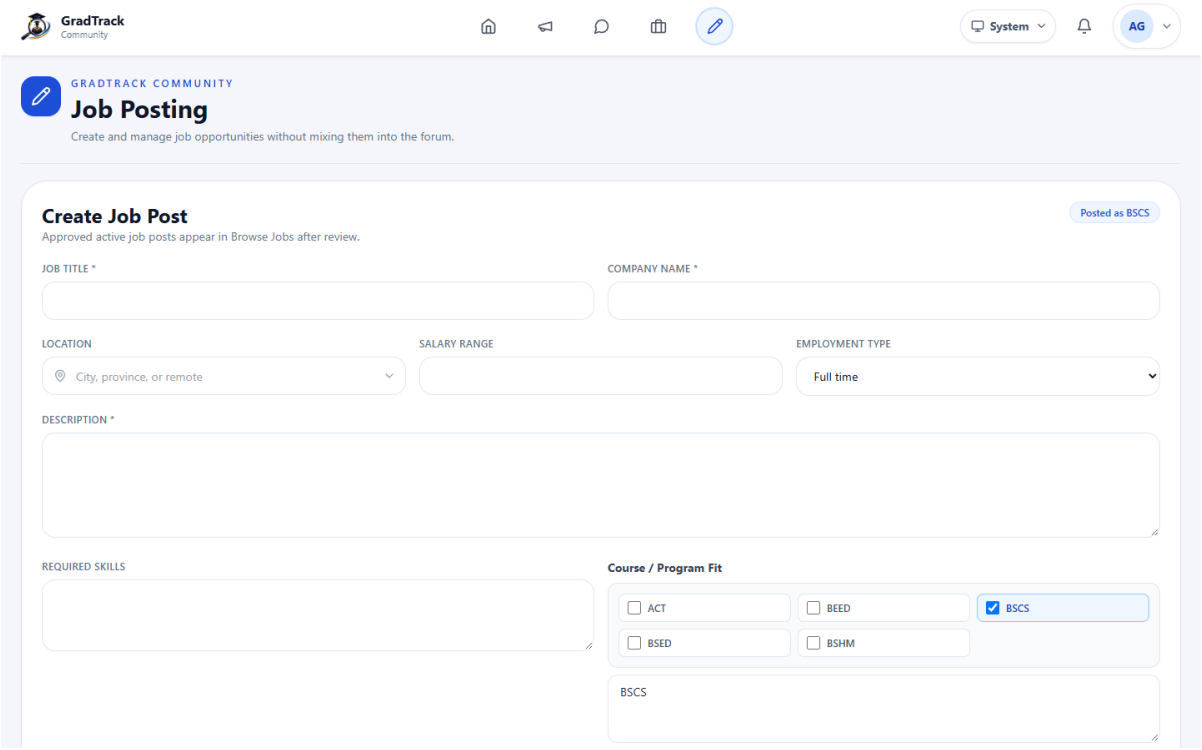

Figure 24. Create Job Post Form

Figure description: The form records employer details, job information, skills, and program fit.

5.10 Graduate Profile and Credentials

Purpose: Maintain the graduate's portal profile and professional credential records.

Procedure

Step 1. Open the profile menu and select My Profile.

Step 2. Review personal, education, employment, and credential information.

Step 3. Use the available profile controls to update portal information or add a credential.

Expected Result: The profile displays the latest portal information and credential list.

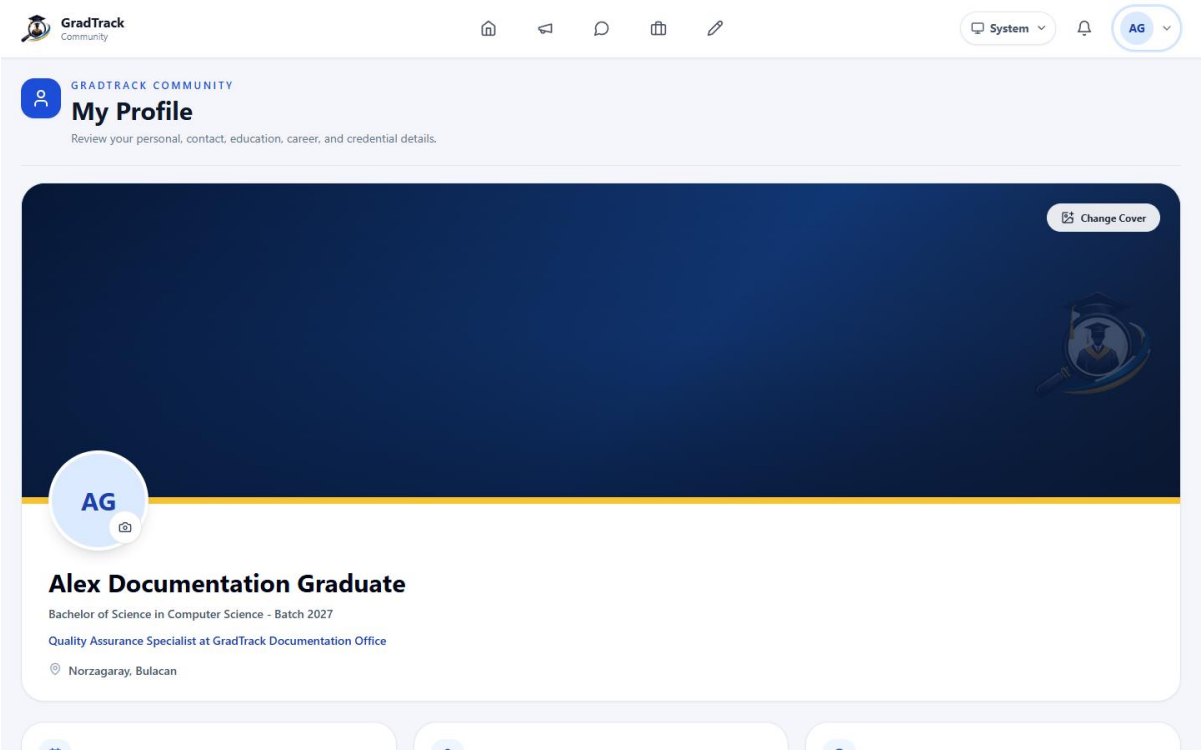

Figure 25. Graduate Profile and Credentials

Figure description: The current profile combines a cover, identity summary, career details, and professional credentials.

5.11 Add a Professional Credential

Purpose: Store a professional certificate with issuing and verification details.

Procedure

Step 1. In My Profile, select Add Credential.
Step 2. Upload a supported certificate file.
Step 3. Enter the credential name, issuing organization, dates, ID, and verification link when applicable.
Step 4. Select Save Credential.
Expected Result: The credential is added to the graduate profile.

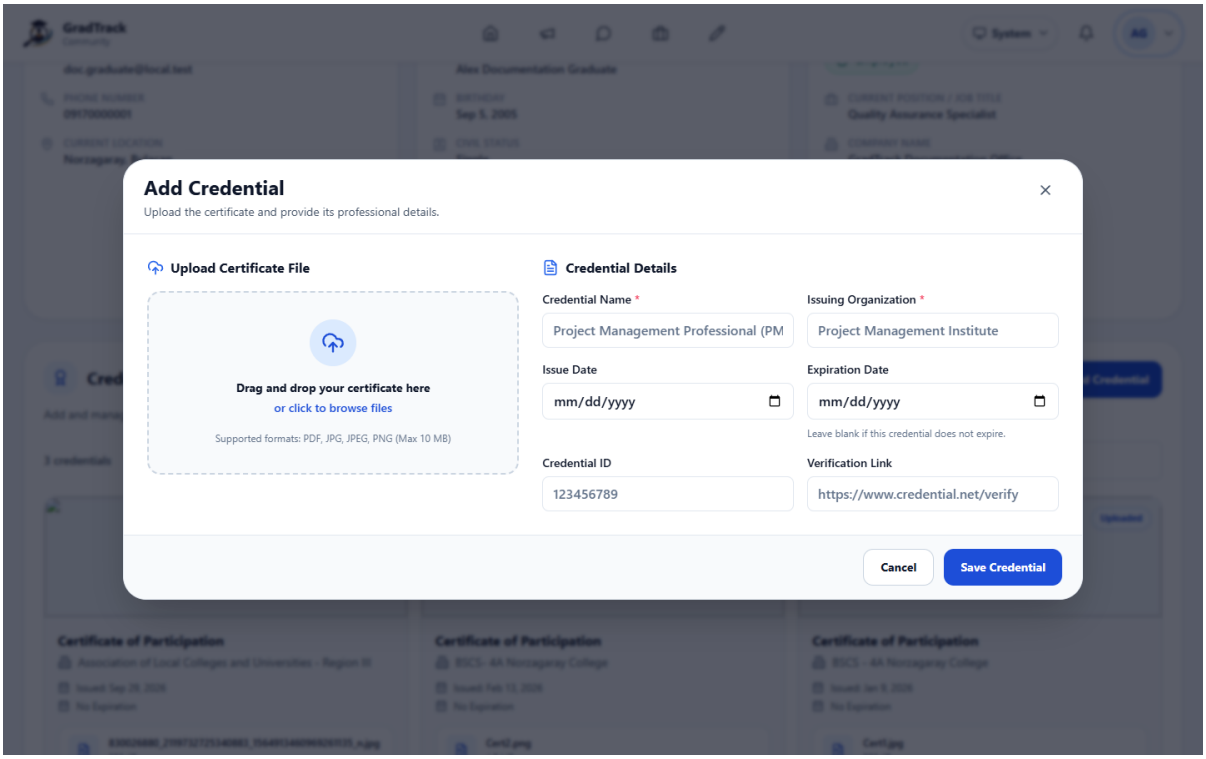

Figure 26. Add Professional Credential

Figure description: The credential dialog accepts a certificate file and structured professional details.

5.12 Graduate Profile Settings

Purpose: Update portal profile information, employment, education, photos, and password.

Procedure

Step 1. From My Profile, open Settings.

Step 2. Choose the relevant settings category.

Step 3. Update only the fields that have changed.

Step 4. Save the changes.

Expected Result: The Graduate Portal profile is updated; the submitted tracer-survey response remains unchanged.

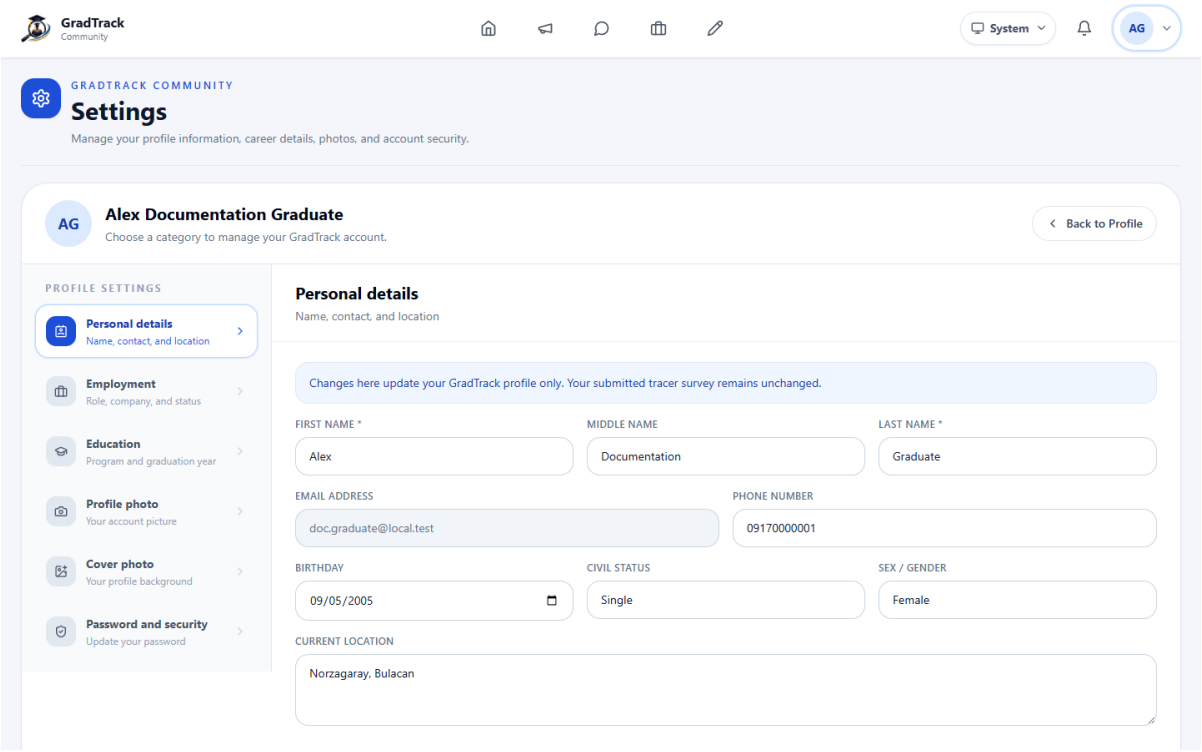

Figure 27. Graduate Profile Settings

Figure description: Settings explicitly separate portal profile edits from the submitted survey record.

5.13 Graduate Notifications

Purpose: Show job, announcement, message, and account activity alerts.

Procedure

Step 1. Select the notification bell.

Step 2. Review unread and recent notifications.

Step 3. Select a notification to open its related module when available.

Step 4. Use Mark read or Mark all read as needed.

Expected Result: Notification status is updated and the related content opens when selected.

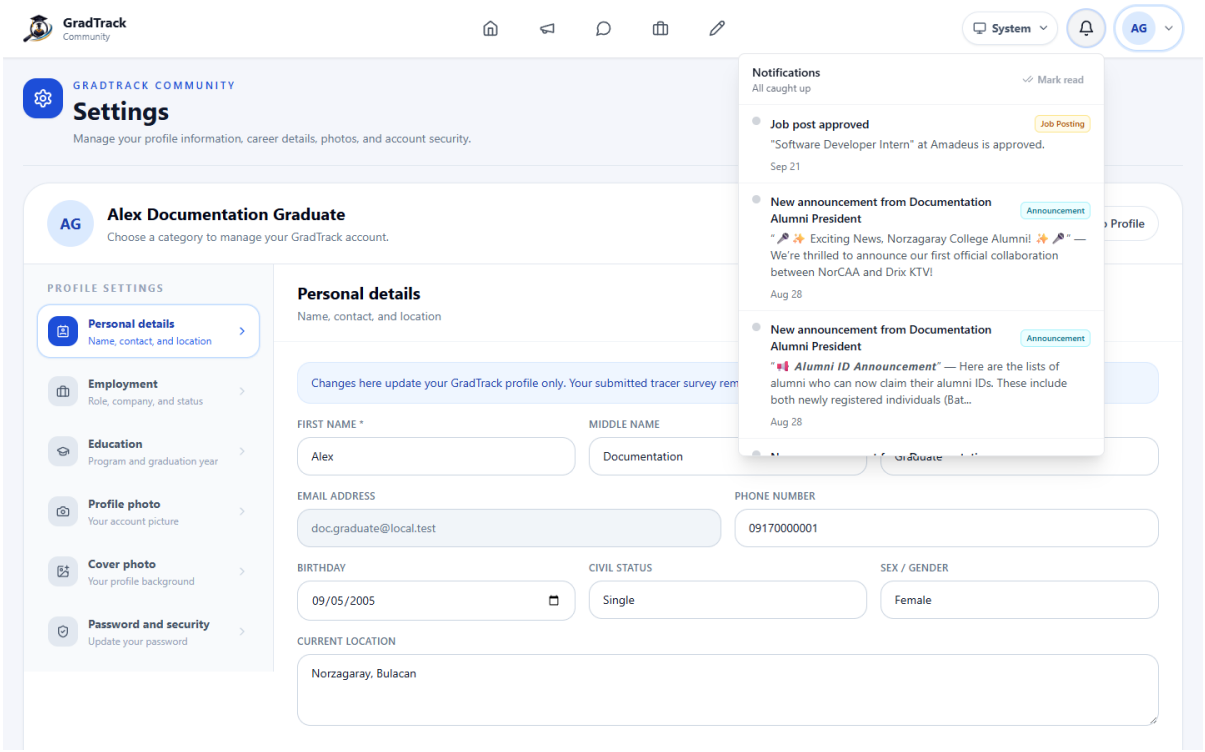

Figure 28. Graduate Notifications Panel

Figure description: The notification panel groups current portal alerts and their module labels.

6 Research Coordinator User Manual

6.1 Research Coordinator Dashboard

Purpose: Present institution-wide employment, alignment, survey-coverage, and trend indicators.

Procedure

Step 1. Sign in as Research Coordinator.
Step 2. Open Dashboard.
Step 3. Choose a survey from the Survey list.
Step 4. Review the summary cards and charts; use the program breakdown controls where provided.
Expected Result: The dashboard displays analytics for the selected survey and permitted scope.

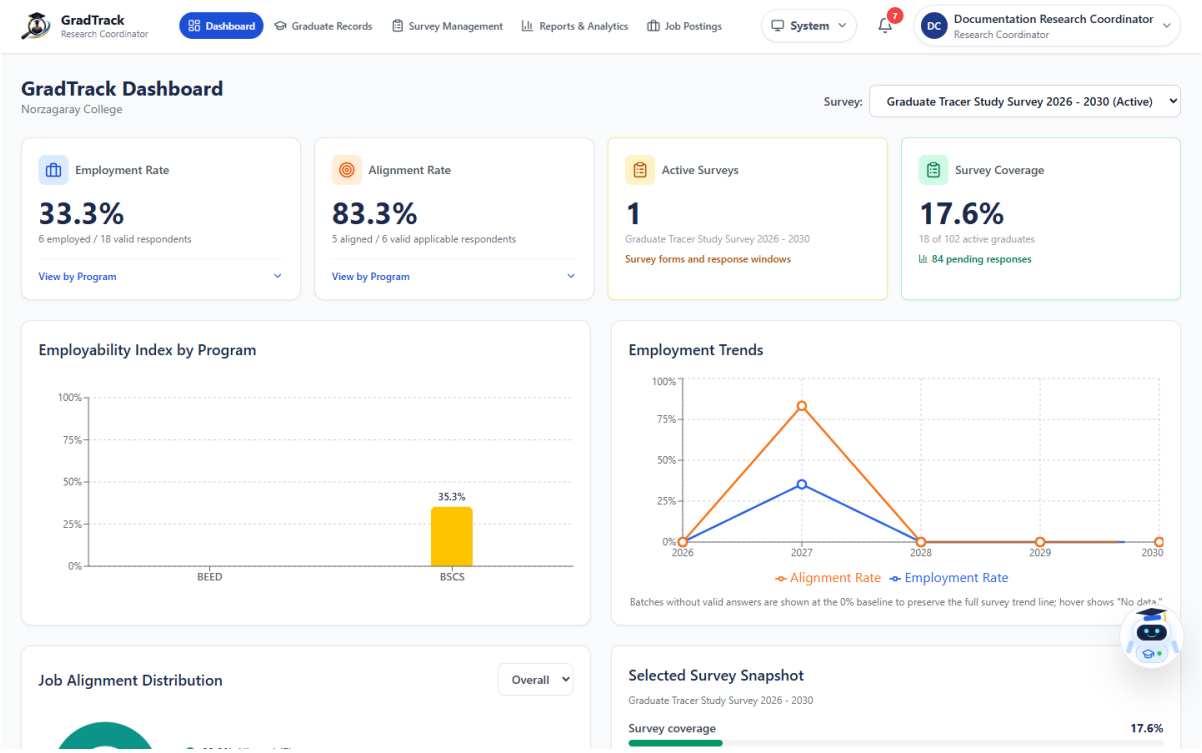

Figure 29. Research Coordinator Dashboard

Figure description: The dashboard shows employment rate, alignment, active survey, coverage, and program trends.

6.2 Graduate Records and Participation

Purpose: Monitor survey participation and prepare reminders for graduates who have not answered.

Procedure

Step 1. Open Graduate Records.
Step 2. Choose the survey and use status, program, year, and search filters.
Step 3. Select eligible non-respondents when a reminder is required.
Step 4. Review the message and select Notify Selected only after confirming the recipients.
Expected Result: The filtered participation list is displayed; approved reminder actions are logged.

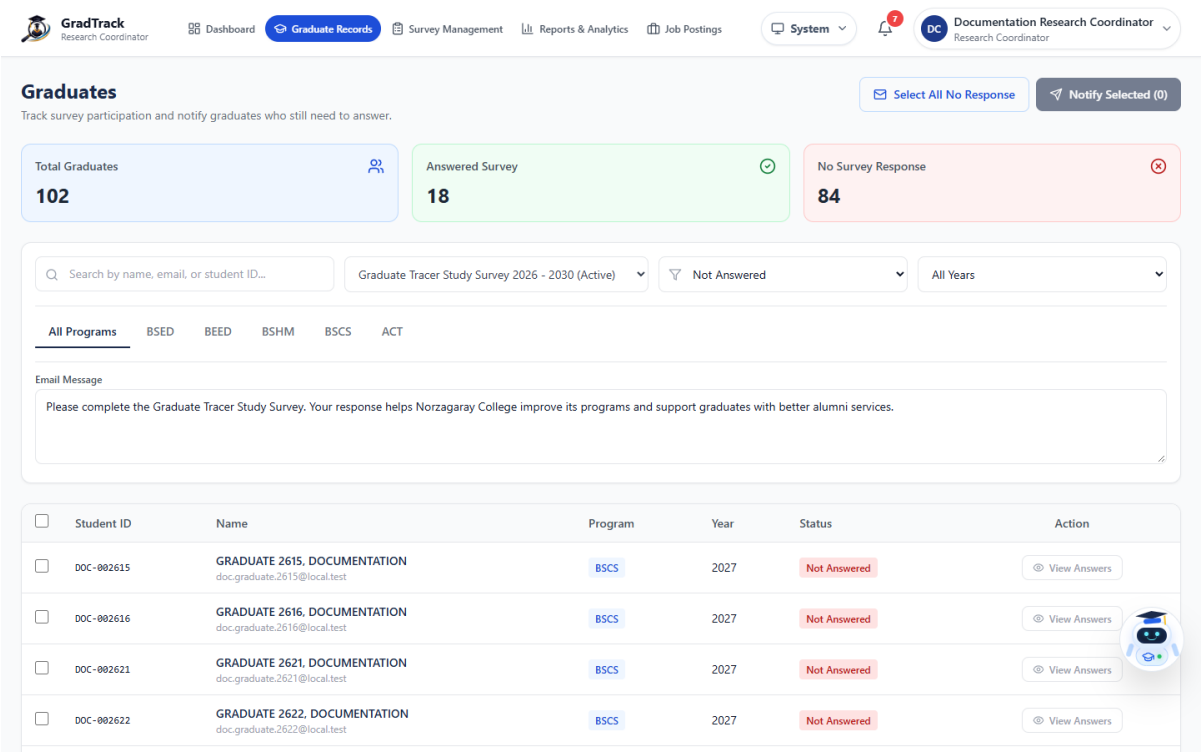

Figure 30. Graduate Survey Participation

Figure description: The page shows answered and unanswered totals, filters, selection controls, and reminder text.

6.3 Survey Management

Purpose: Create, review, activate, complete, and archive tracer surveys according to authorized workflow.

Procedure

Step 1. Open Survey Management.

Step 2. Review active and saved survey cards and response counts.

Step 3. Use the card icons to view details, analytics, edit, or archive when the action is available.

Step 4. Do not create another survey while the interface indicates that an active survey must first be completed or archived.

Expected Result: The survey list reflects the current lifecycle status and authorized actions.

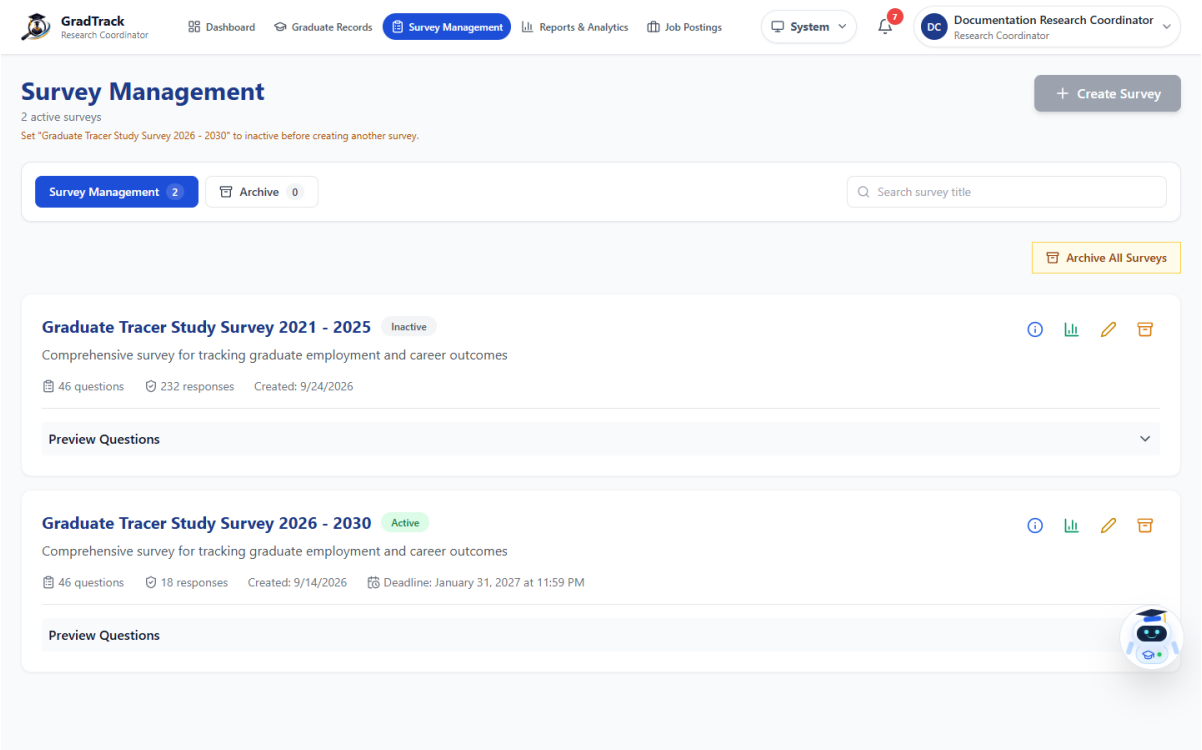

Figure 31. Survey Management

Figure description: Survey cards show status, questions, responses, dates, preview, and current actions.

6.4 Edit Survey Information

Purpose: Update the permitted survey information and respondent targets before use.

Procedure

Step 1. On Survey Management, select the Edit icon for an editable survey.
Step 2. Review the title, description, status, dates, and respondent targets.
Step 3. Make only authorized changes.
Step 4. Save the survey.

Expected Result: The survey information is updated and retained in Survey Management.

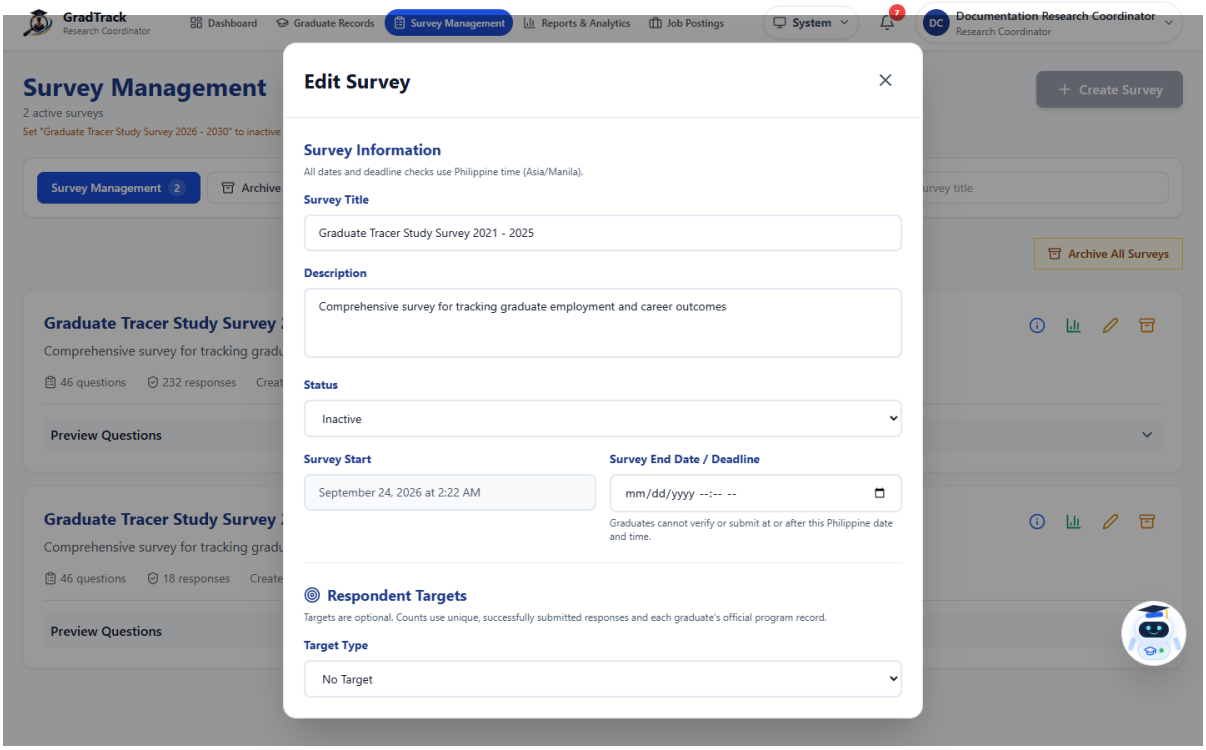

Figure 32. Edit Survey

Figure description: The current edit dialog includes survey information, status, schedule, and respondent targets.

6.5 Response Monitoring

Purpose: Review summarized, question-level, and individual survey responses.

Procedure

Step 1. Open Survey Management and select the response or details control for a survey.

Step 2. Use program, batch, employment-status, and date filters.

Step 3. Review Summary, Questions, or Individual tabs.

Step 4. Use the search controls to locate a specific response when authorized.

Expected Result: The selected response view displays the filtered survey data.

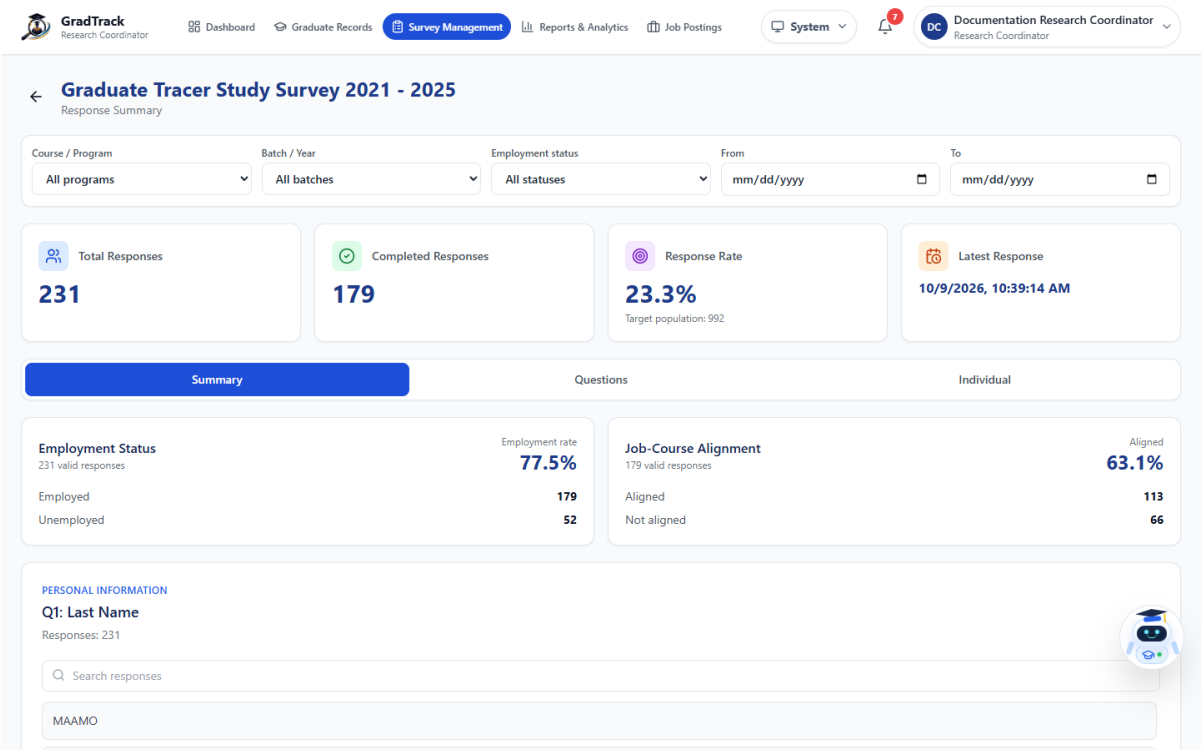

Figure 33. Survey Response Monitoring

Figure description: The response page presents totals, response rate, filters, and multiple analysis tabs.

6.6 Reports Overview

Purpose: Review and export aggregate graduate-tracer indicators.

Procedure

Step 1. Open Reports & Analytics.

Step 2. Choose the survey and set report filters.

Step 3. Select Apply Filters.

Step 4. Review the overview cards and charts; use Export PDF, Export Word, or Export Excel when an official output is required.

Expected Result: The report updates to the selected filters or downloads in the chosen format.

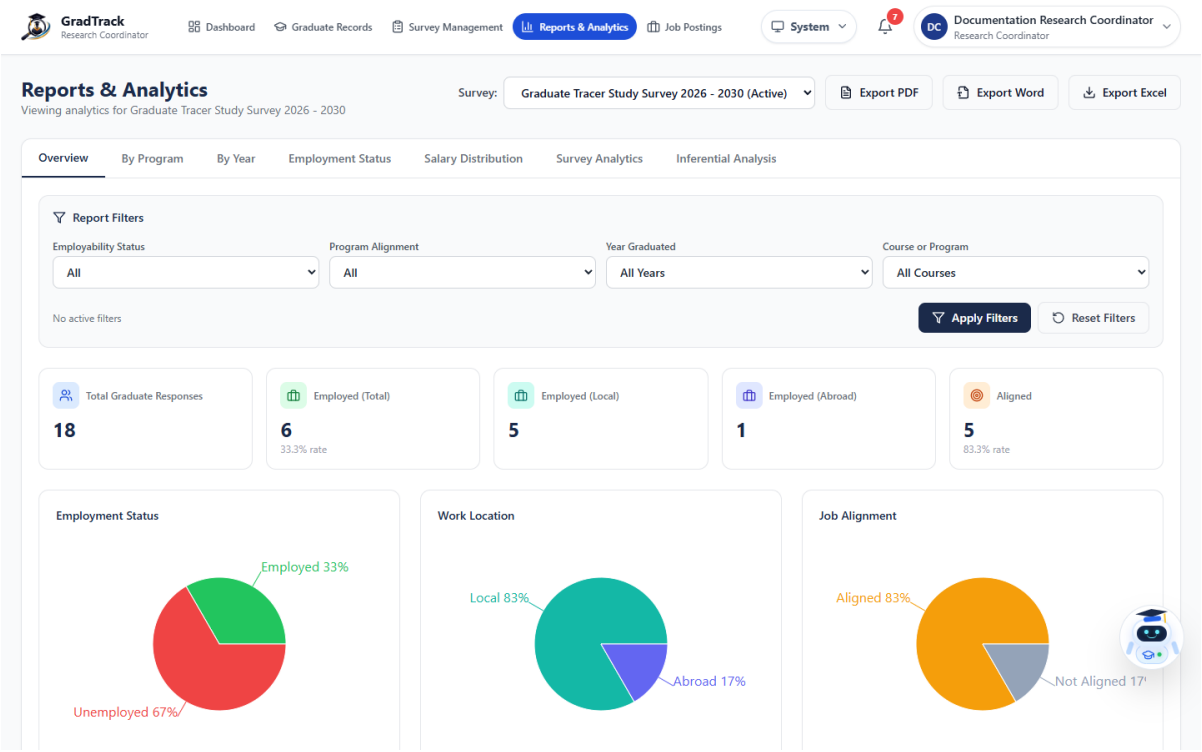

Figure 34. Reports and Analytics Overview

Figure description: The overview combines report filters, totals, and employment, location, and alignment charts.

6.7 Descriptive Survey Analytics

Purpose: View detailed tabular and graphical distributions of tracer-survey answers.

Procedure

Step 1. In Reports & Analytics, select Survey Analytics.

Step 2. Choose the survey.

Step 3. Choose the required table from the Table list.

Step 4. Select Show Graph when a chart is needed, or use the export controls.

Expected Result: The selected descriptive table and available visualization are displayed.

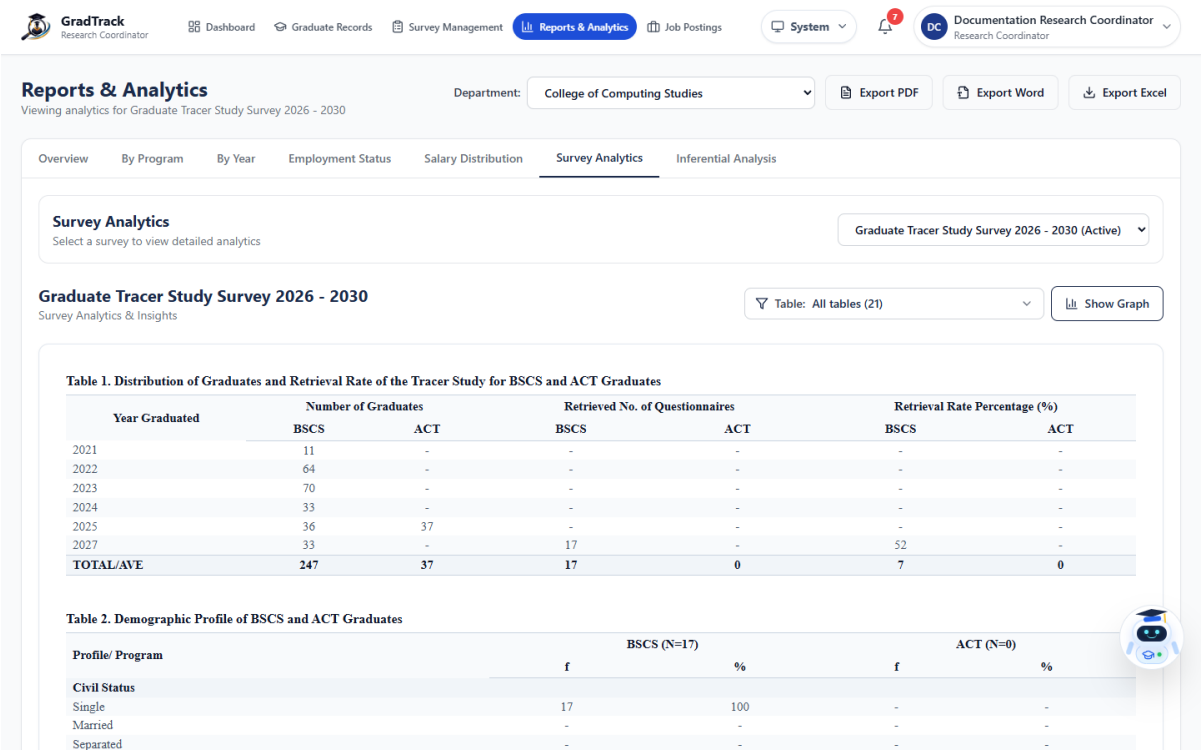

Figure 35. Descriptive Survey Analytics

Figure description: Survey Analytics provides thesis-ready demographic and response tables.

6.8 Inferential Analysis

Purpose: Test the statistical association between two supported tracer variables.

Procedure

Step 1. In Reports & Analytics, select Inferential Analysis.

Step 2. Choose Variable 1 and Variable 2.

Step 3. Set year and program filters when available.

Step 4. Select Run Analysis and review the chi-square output and interpretation.

Expected Result: GradTrack displays the computed association results for the chosen variables and filters.

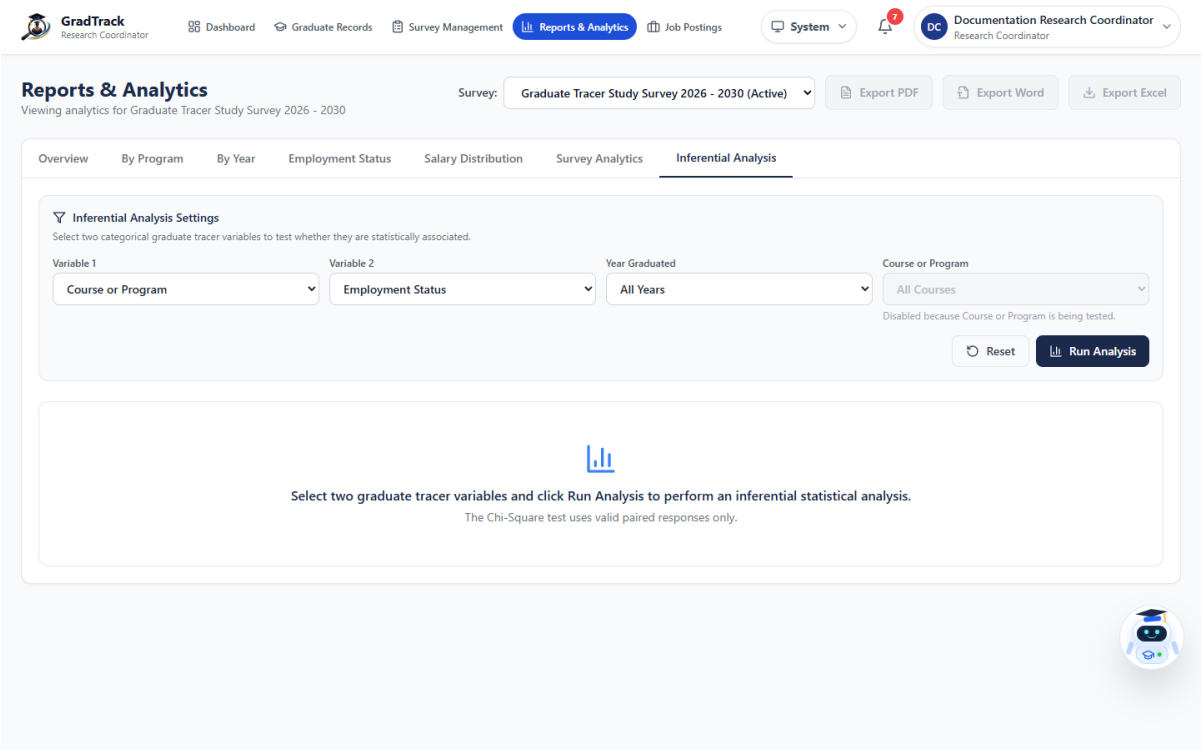

Figure 36. Inferential Analysis

Figure description: The inferential panel configures variables and filters before running a chi-square analysis.

6.9 Research Coordinator Job Postings

Purpose: Create and manage staff-originated opportunities for the Graduate Portal.

Procedure

Step 1. Open Job Postings.

Step 2. Use search to locate an existing managed post.

Step 3. Select Create Job to add an opportunity, or use Edit, Archive, or Delete only when appropriate.

Step 4. Confirm publication status before expecting the post to appear to graduates.

Expected Result: The managed job list reflects the completed action.

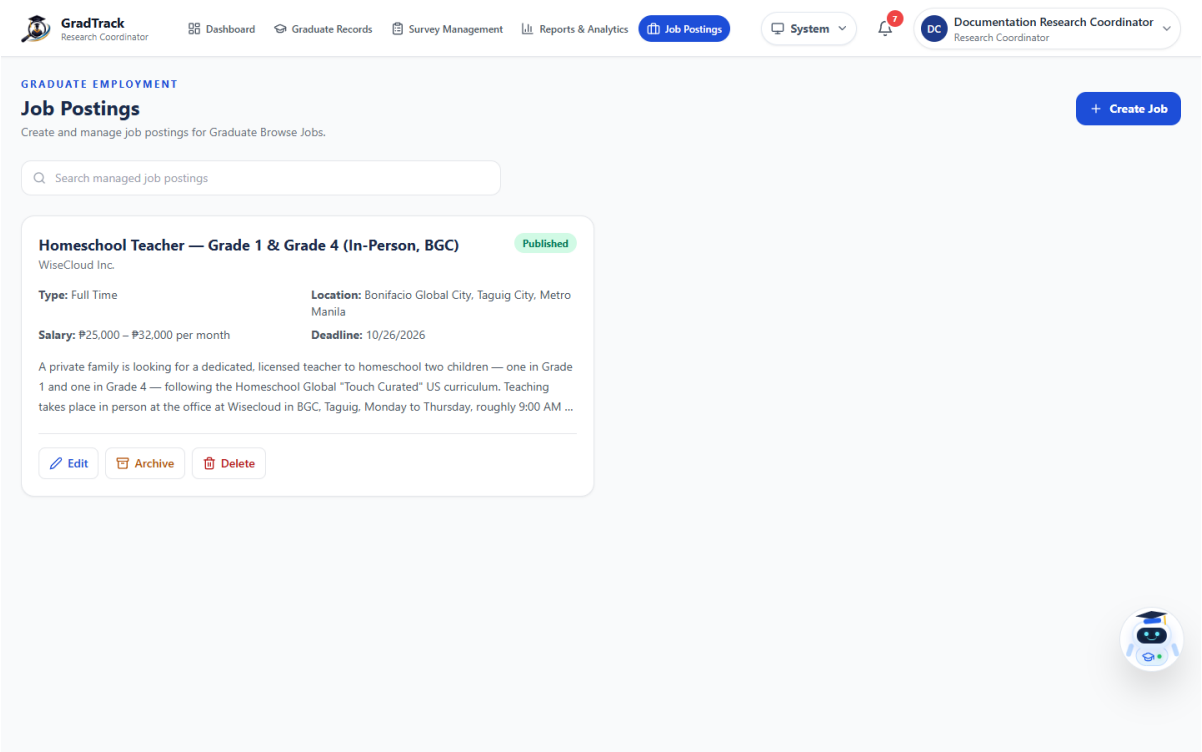

Figure 37. Research Coordinator Job Postings

Figure description: The job manager displays current staff posts and their publication status.

6.10 Research Coordinator AI Assistant

Purpose: Provide role-scoped assistance using GradTrack data and permitted modules.

Procedure

Step 1. Select Ask GradTrack AI Assistant.

Step 2. Open a previous conversation or select New conversation.

Step 3. Enter a clear question related to authorized GradTrack data.

Step 4. Verify important results against the corresponding module or report before use.

Expected Result: The assistant returns a role-scoped response and retains the conversation when supported.

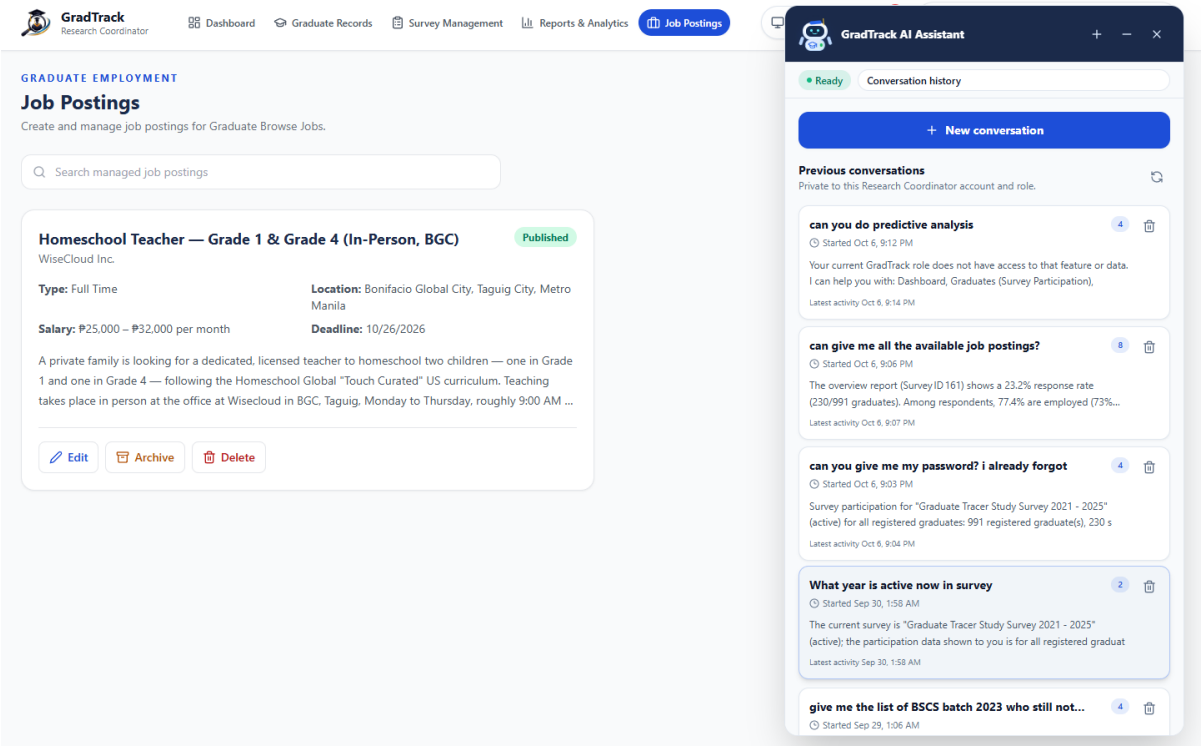

Figure 38. Research Coordinator AI Assistant

Figure description: The assistant panel shows conversation history and responses limited to the signed-in role.

7 Dean User Manual

7.1 Department-Scoped Dean Dashboard

Purpose: Show graduate outcomes only for the dean's assigned department and programs.

Procedure

Step 1. Sign in as Dean.
Step 2. Open Dashboard.
Step 3. Choose the relevant survey.
Step 4. Review department employment, alignment, coverage, and trend indicators.
Expected Result: The dashboard displays only the dean's authorized academic scope.

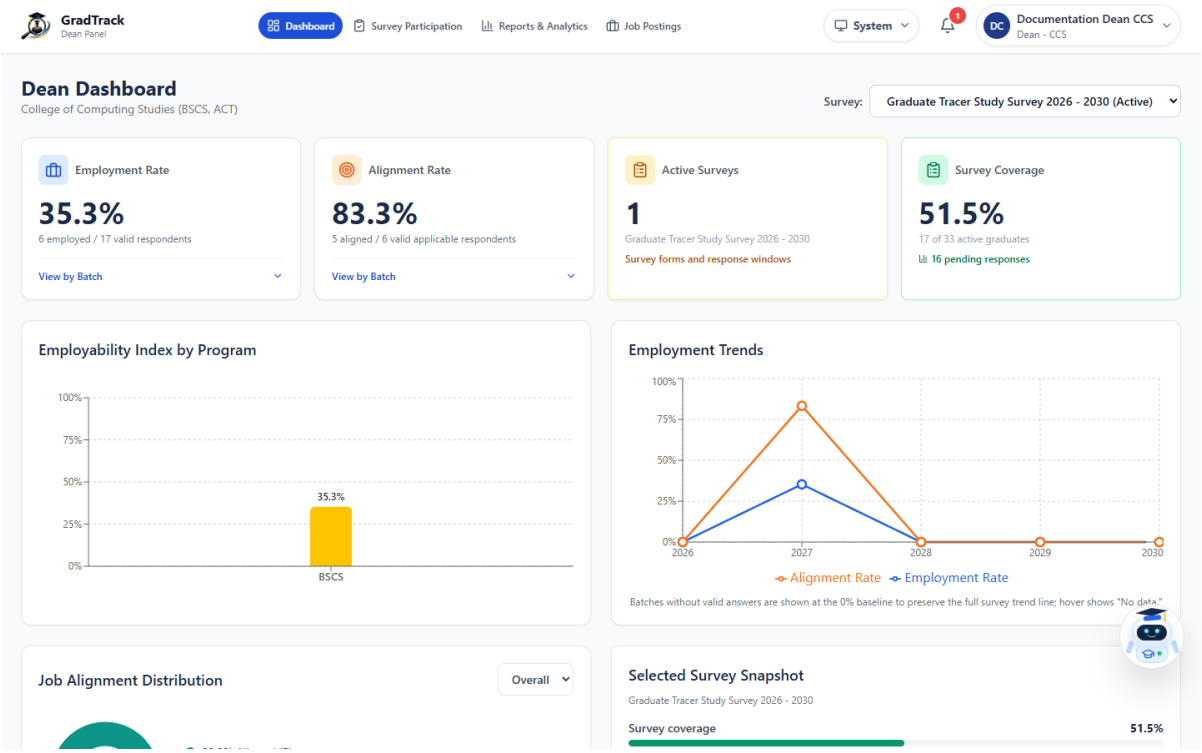

Figure 39. Dean Department Dashboard

Figure description: The Dean Dashboard identifies the assigned college and restricts metrics to its programs.

7.2 Dean Survey Participation

Purpose: Monitor survey completion for graduates in the dean's assigned programs.

Procedure

Step 1. Open Survey Participation.
Step 2. Choose the survey and apply search, status, and year filters.
Step 3. Review answered and unanswered totals.
Step 4. Use reminder controls only for eligible selected graduates.
Expected Result: The scoped participation list and totals are displayed.

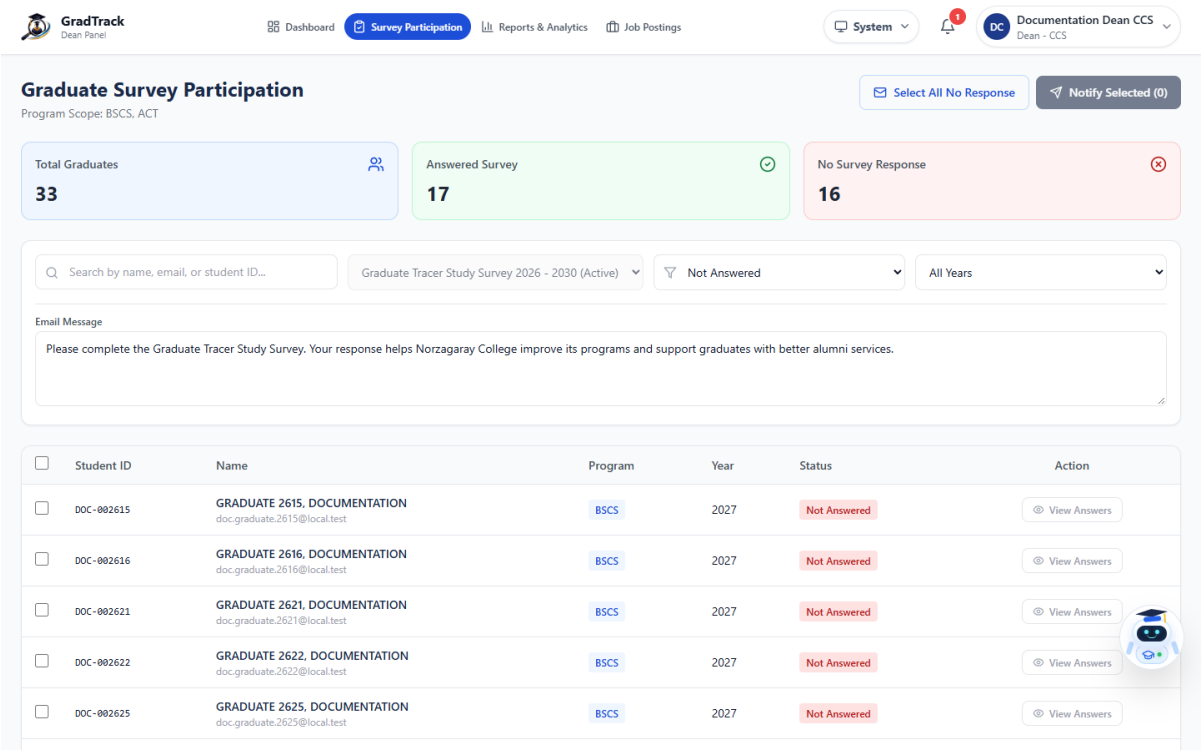

Figure 40. Dean Survey Participation

Figure description: The participation page identifies the dean's program scope and response status.

7.3 Dean Reports and Analytics

Purpose: Analyze department-specific graduate outcomes and export authorized reports.

Procedure

Step 1. Open Reports & Analytics.

Step 2. Choose a survey and batch or year.

Step 3. Apply the available employment and program-alignment filters.

Step 4. Review the charts or select an export format.

Expected Result: The report displays or exports data within the dean's department scope.

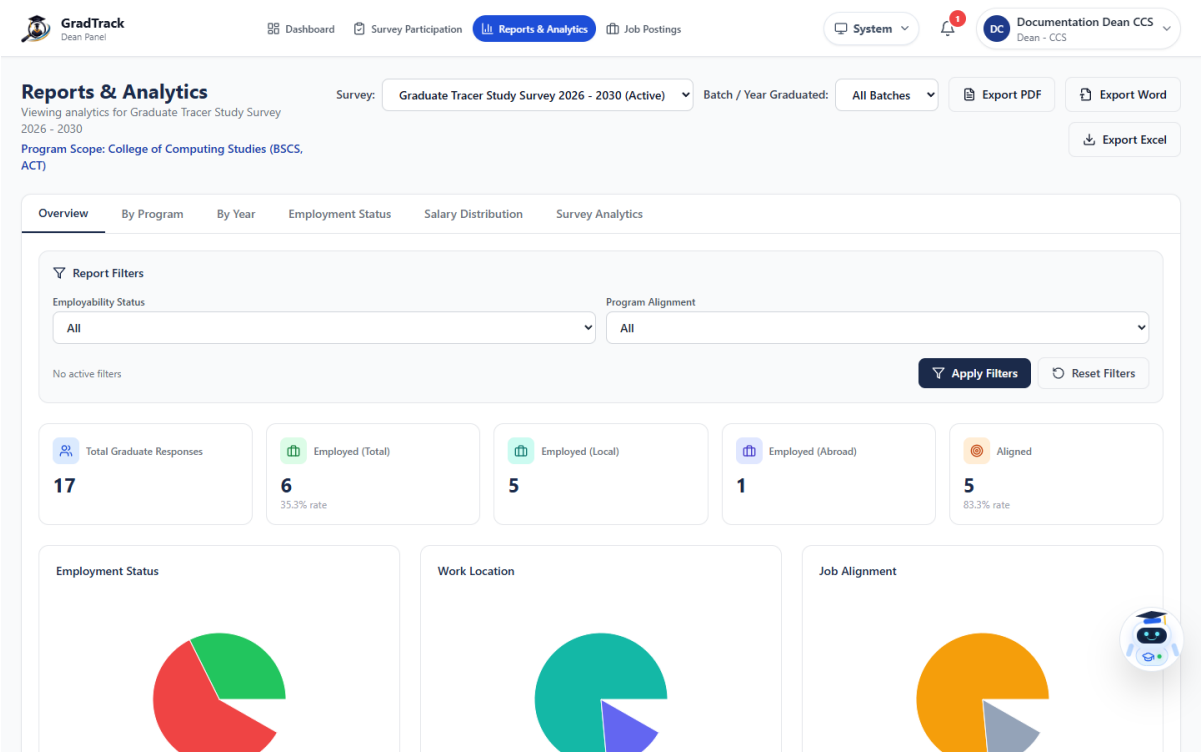

Figure 41. Dean Reports and Analytics

Figure description: The Dean report displays the restricted program scope above the analytic tabs.

7.4 Dean Job Postings

Purpose: Create and manage job opportunities for Graduate Portal publication.

Procedure

Step 1. Open Job Postings.

Step 2. Select Create Job to add an opportunity.

Step 3. Complete the current job form and publish or save it as allowed.

Step 4. Use search and available management actions for existing posts.

Expected Result: The opportunity appears in the dean's managed job list with its current status.

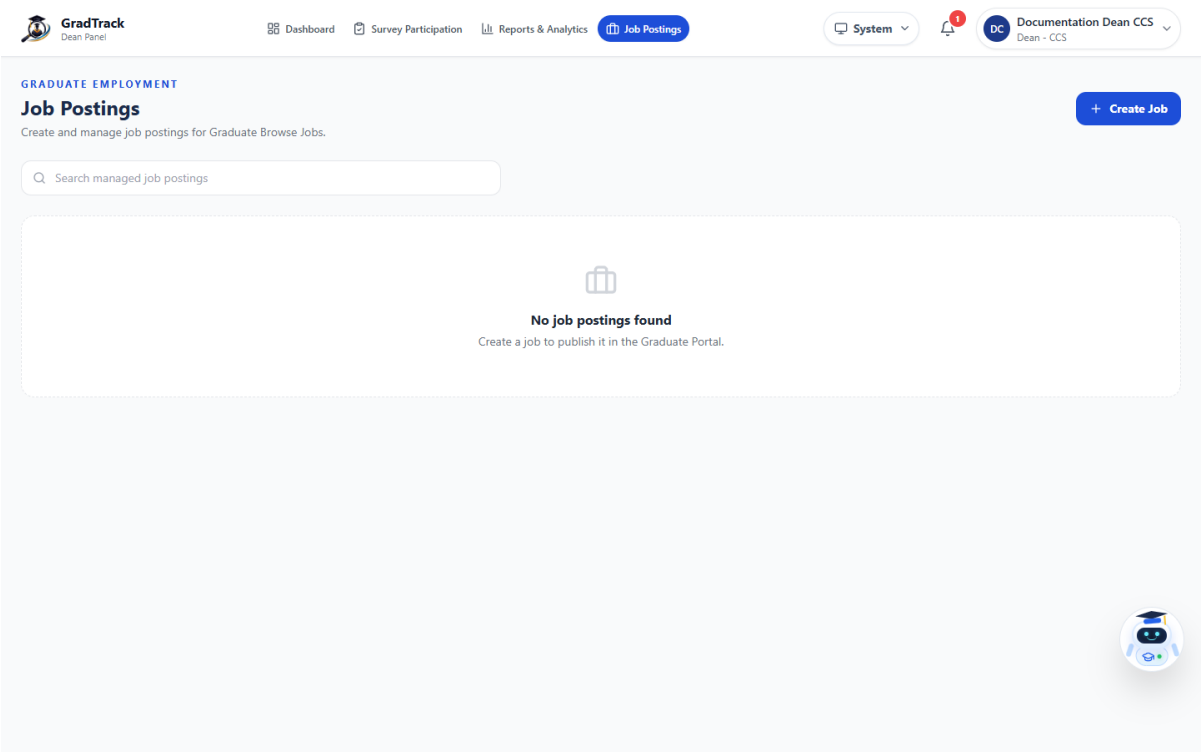

Figure 42. Dean Job Postings

Figure description: The Dean job page provides a scoped managed-post list and Create Job action.

7.5 Dean Profile

Purpose: Maintain the dean's personnel name, profile image, and password.

Procedure

Step 1. Open the account menu and select My Profile.
Step 2. Select Edit Profile when a profile change is required.
Step 3. Update permitted account details or password fields.
Step 4. Select Save Changes.
Expected Result: The personnel profile is updated.

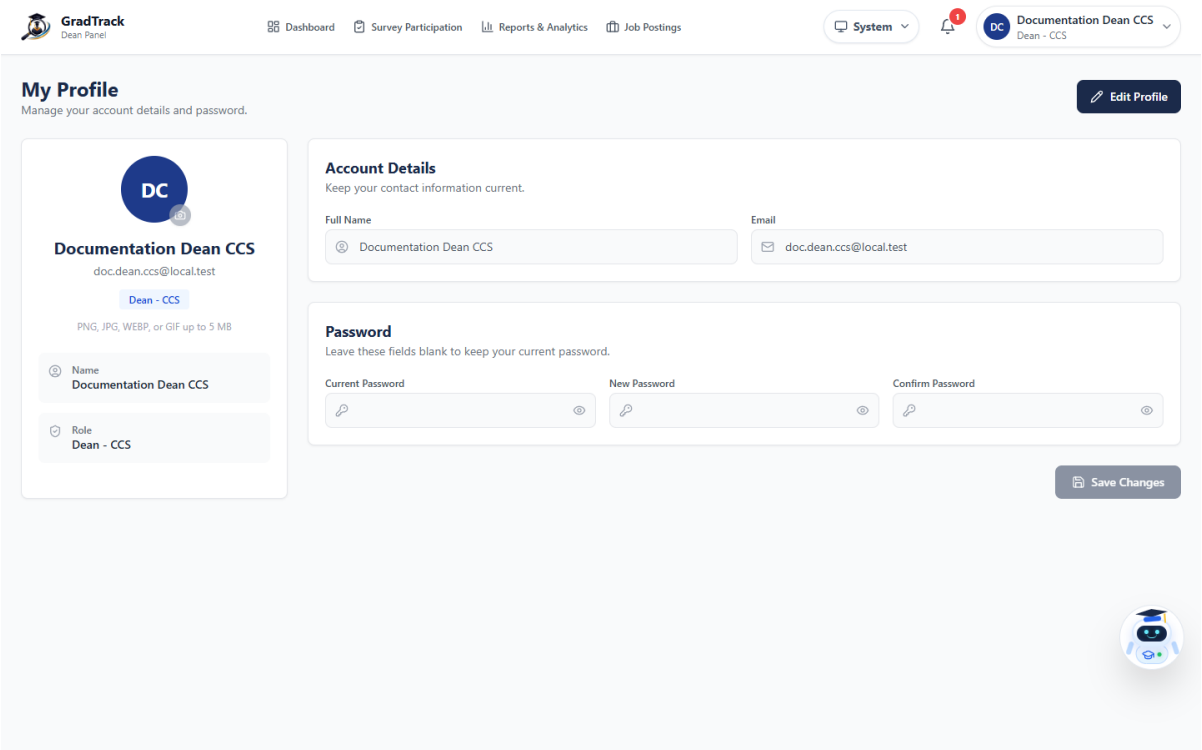

Figure 43. Dean Personnel Profile

Figure description: The profile page separates account details from password changes.

7.6 Dean AI Assistant

Purpose: Answer questions using only data and functions available to the signed-in dean.

Procedure

Step 1. Select Ask GradTrack AI Assistant.

Step 2. Start or reopen a conversation.

Step 3. Ask a question about the assigned department, survey participation, reports, or permitted job data.

Step 4. Confirm critical results using the corresponding GradTrack page.

Expected Result: The assistant responds within the dean's role and department scope.

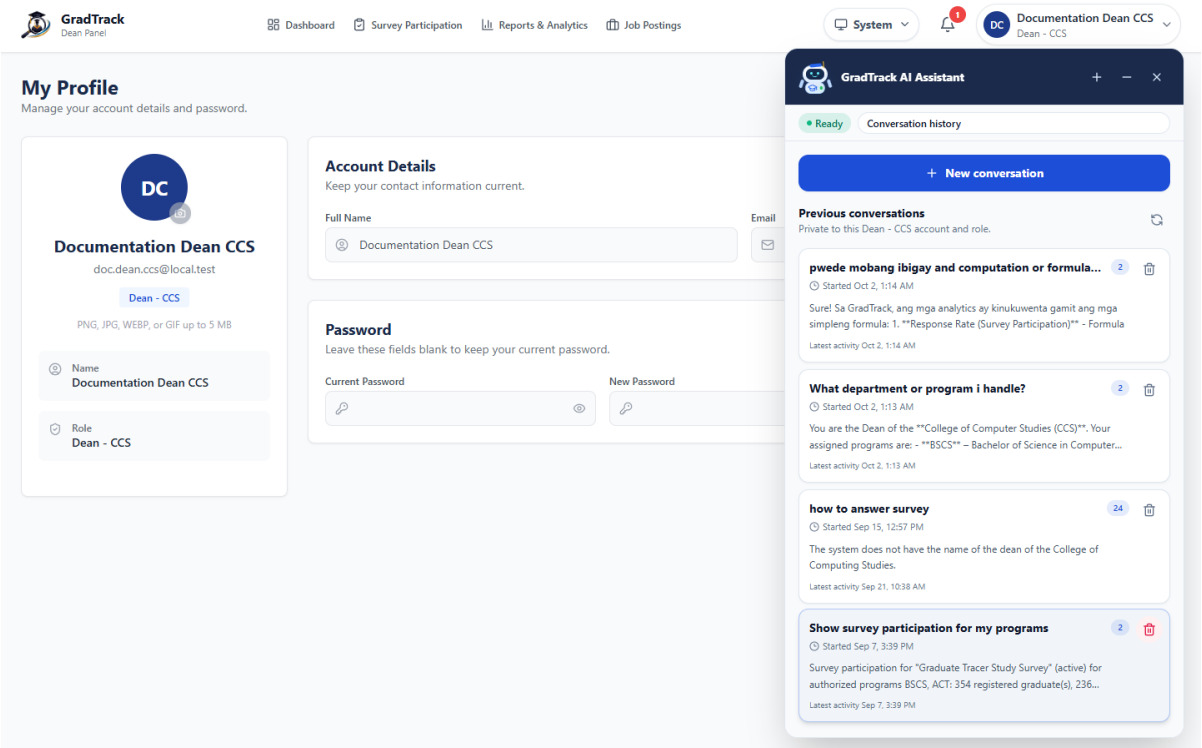

Figure 44. Dean AI Assistant

Figure description: The Dean assistant panel shows role-scoped conversation history.

8 Registrar User Manual

8.1 Manage Graduate Records

Purpose: View, select, add, import, filter, and archive registrar graduate records.

Procedure

Step 1. Sign in as Registrar.

Step 2. Review the Manage Graduates table.

Step 3. Use the checkboxes only when a bulk archive operation is required.

Step 4. Use Add Graduate or Import Excel for authorized new records.

Expected Result: The current graduate list is displayed without row-level Edit or View Details actions.

> **Important:** Current-version rule: Registrar users cannot edit existing graduate information from this page. The former row-level Edit and View Details actions were removed.

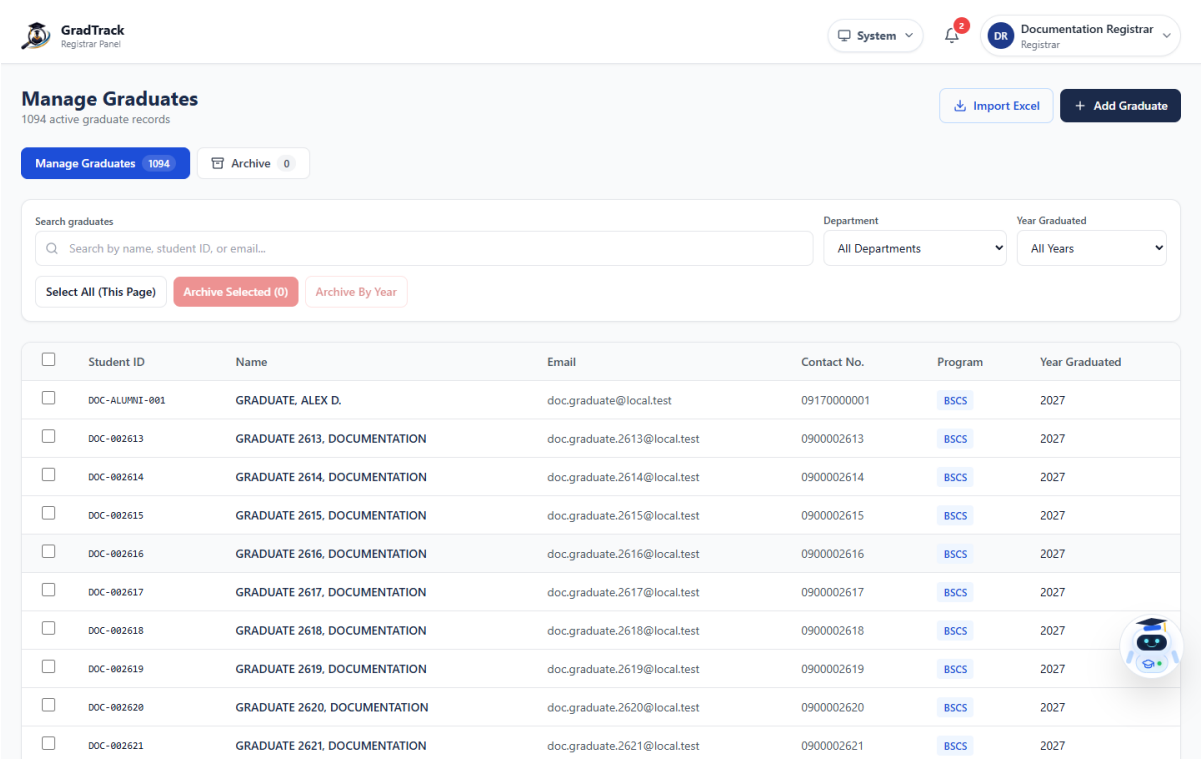

Figure 45. Registrar Manage Graduates

Figure description: The current table ends at Year Graduated and intentionally has no Actions column.

8.2 Search and Filter Graduate Records

Purpose: Locate graduate records by identifier, name, email, department, and graduation year.

Procedure

Step 1. Open Manage Graduates.

Step 2. Enter a name, student ID, or email in Search graduates.

Step 3. Choose a Department.

Step 4. Choose a Year Graduated when required.

Expected Result: The table updates to matching records; it remains a read-only row display.

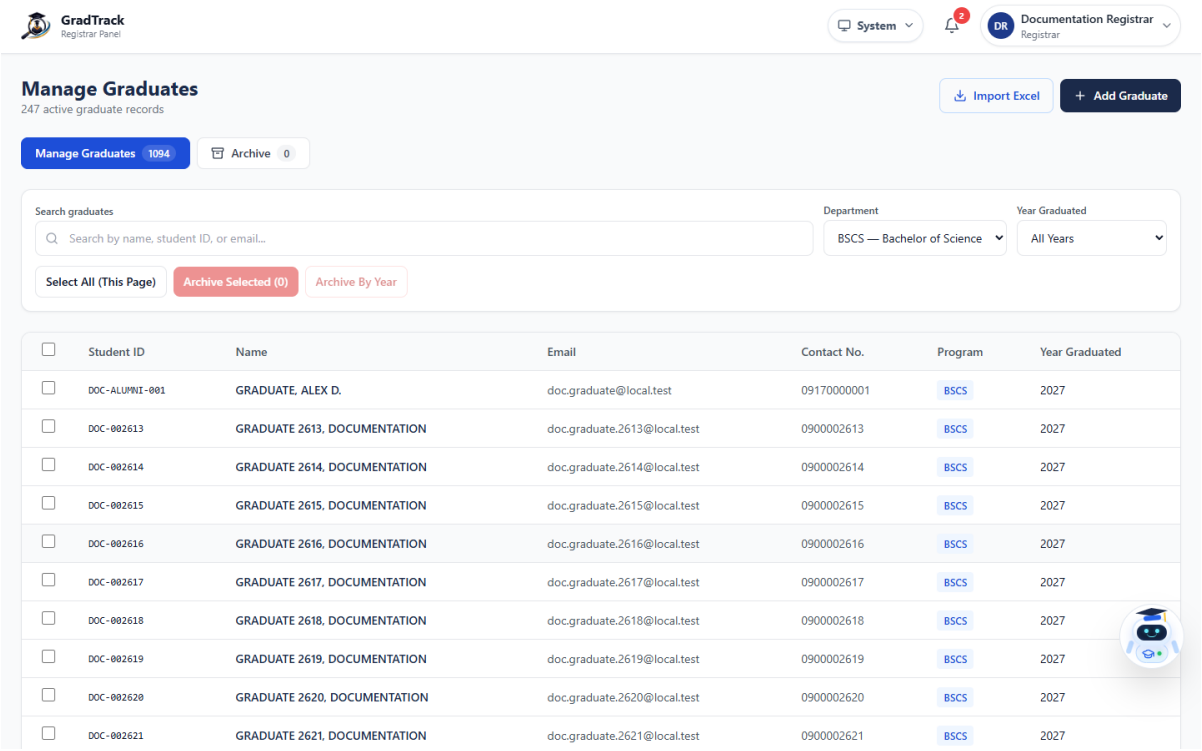

Figure 46. Registrar Search and Filters

Figure description: Department and graduation-year filters narrow the read-only graduate table.

8.3 Add a Graduate Record

Purpose: Create a new official graduate record for later identity verification and survey assignment.

Procedure

Step 1. Select Add Graduate.

Step 2. Enter the student number, first name, optional middle name, last name, and name extension.

Step 3. Enter optional email and contact number when available.

Step 4. Select the program and enter the year graduated.

Step 5. Select Add Graduate.

Expected Result: A valid new graduate record is added to Manage Graduates.

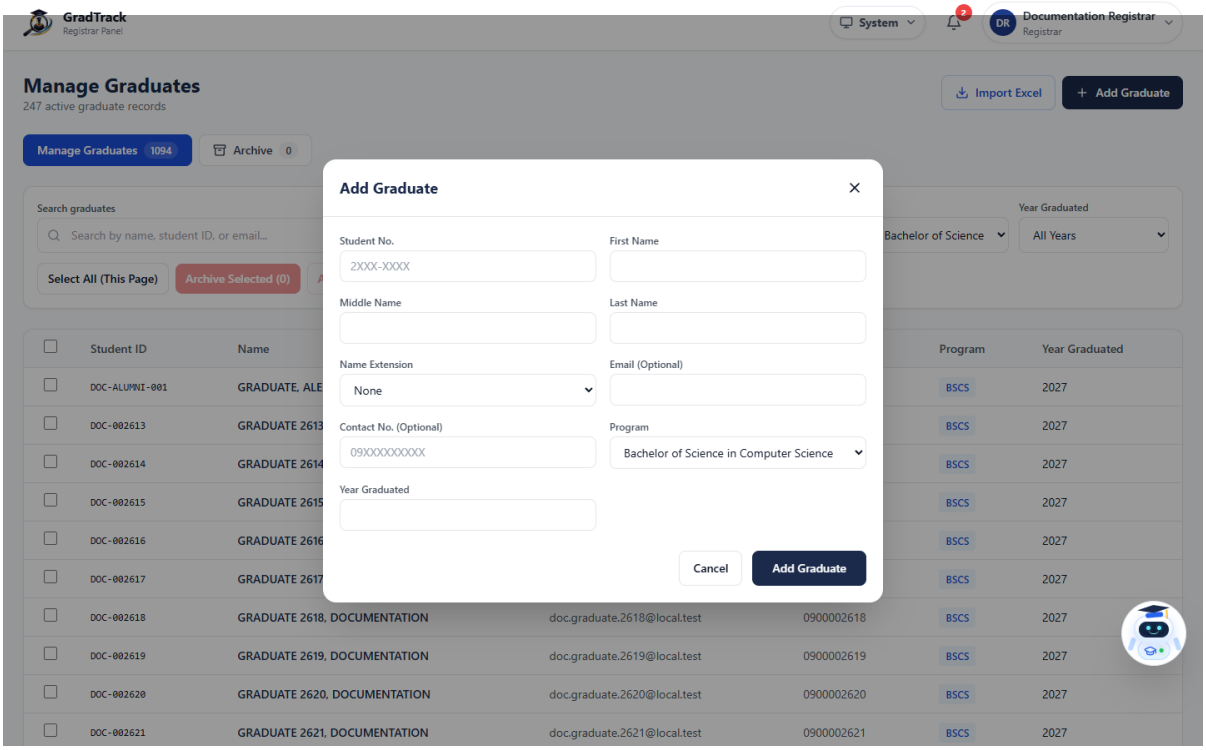

Figure 47. Registrar Add Graduate Form

Figure description: The add form contains identity, contact, program, and graduation-year fields.

8.4 Import Graduate Records from Excel

Purpose: Add multiple graduate records using the current spreadsheet-import workflow.

Procedure

Step 1. Prepare the spreadsheet using the expected registrar columns.

Step 2. Select Import Excel.

Step 3. Choose the authorized Excel or CSV file.

Step 4. Review validation results and correct invalid or duplicate rows before confirming the import.

Step 5. Return to Manage Graduates and verify the imported records.

Expected Result: Valid rows are added and the table refreshes; invalid rows are reported for correction.

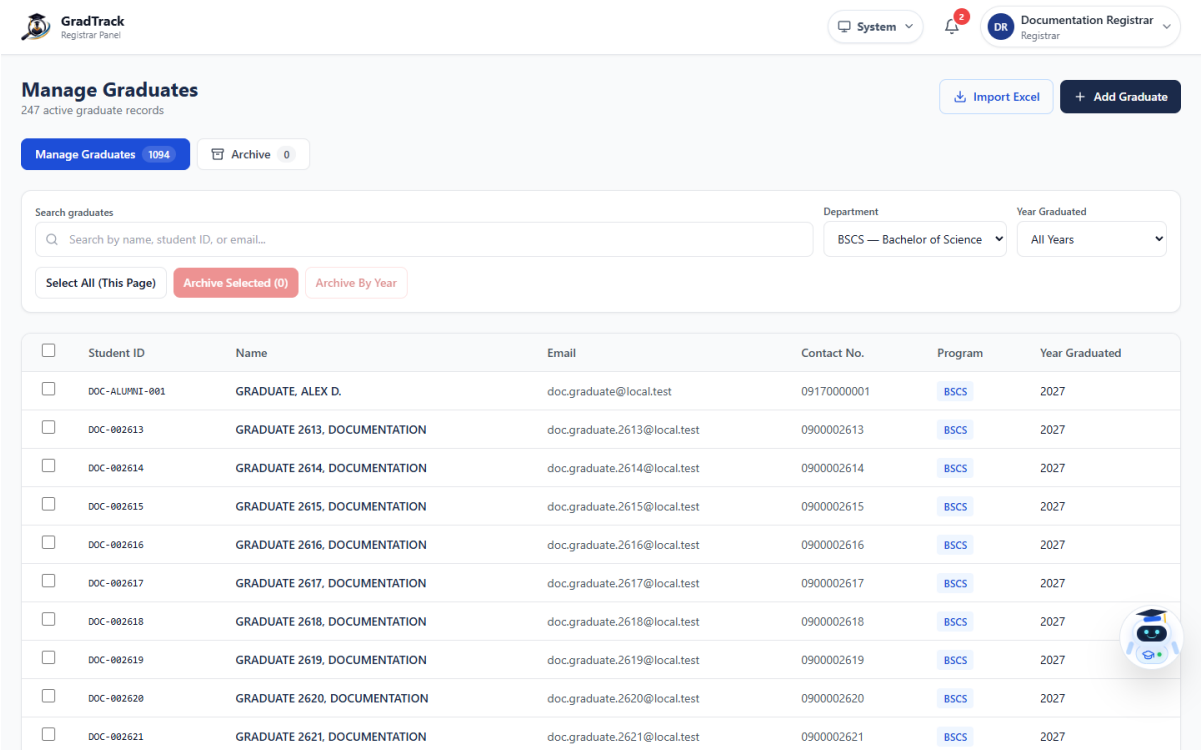

Figure 48. Registrar Excel Import Control

Figure description: The Import Excel control is available above the current read-only record table.

8.5 Archive Graduate Records

Purpose: Move selected active records out of Manage Graduates while preserving related historical data, or permanently remove archived records when explicitly authorized.

Procedure

Step 1. On Manage Graduates, select records and choose Archive Selected, or select a department and year before Archive By Year.

Step 2. Confirm the archive operation after reviewing its scope.

Step 3. Select Archive to review archived records.

Step 4. Use permanent-delete controls only when explicitly authorized and after confirming that the action cannot be undone.

Expected Result: Archived records appear in Registrar Archive; the current interface does not provide Edit, View Details, or Restore actions.

> **Important:** There is no Restore procedure in the current Registrar interface. Do not follow restore steps from an older manual.

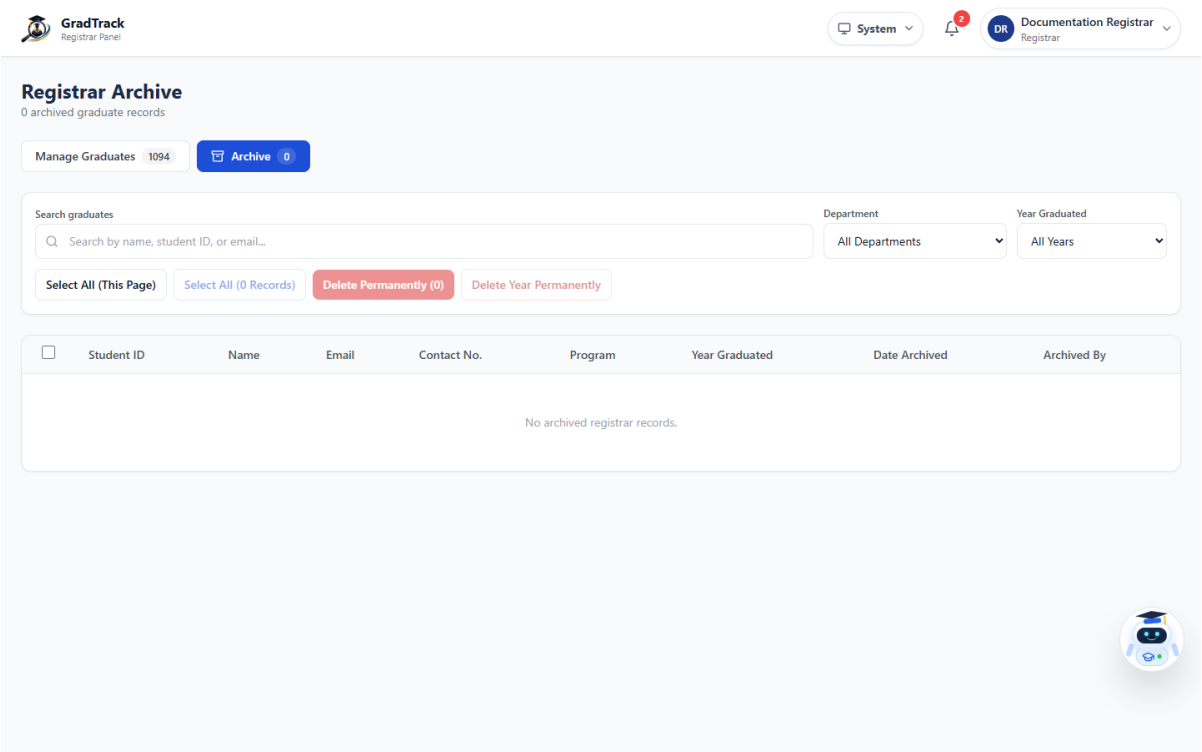

Figure 49. Registrar Archive

Figure description: Registrar Archive provides selection and permanent-deletion controls but no row-level actions or restore command.

8.6 Registrar Profile

Purpose: Maintain the Registrar's personnel profile and password.

Procedure

Step 1. Open the account menu and select My Profile.

Step 2. Select Edit Profile when required.

Step 3. Update permitted details or password fields.

Step 4. Select Save Changes.

Expected Result: The Registrar personnel profile is updated; graduate records are unaffected.

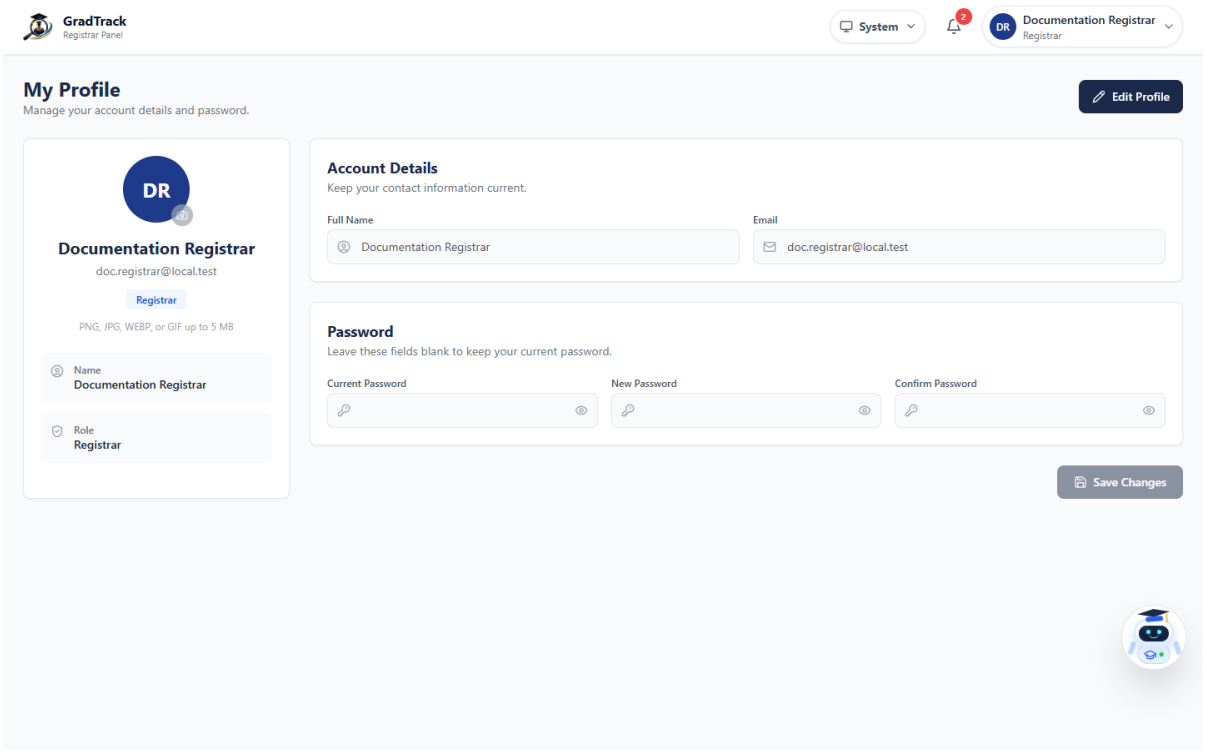

Figure 50. Registrar Personnel Profile

Figure description: The Registrar profile page is separate from graduate-record management.

9 Alumni President User Manual

9.1 Review Graduate Portal Account Requests

Purpose: Approve or reject Graduate Portal accounts after reviewing the submitted graduate information.

Procedure

Step 1. Sign in as Alumni President and open Alumni Verification.

Step 2. Use Pending, Approved, or Rejected to select the review queue.

Step 3. Select the blue eye View button in the Actions column.

Step 4. After review, select Approve or Reject; provide a reason when rejecting.

Expected Result: The verification status changes and controls the graduate's portal eligibility.

> **Important:** This figure documents the latest View Details icon requested for the updated manual.

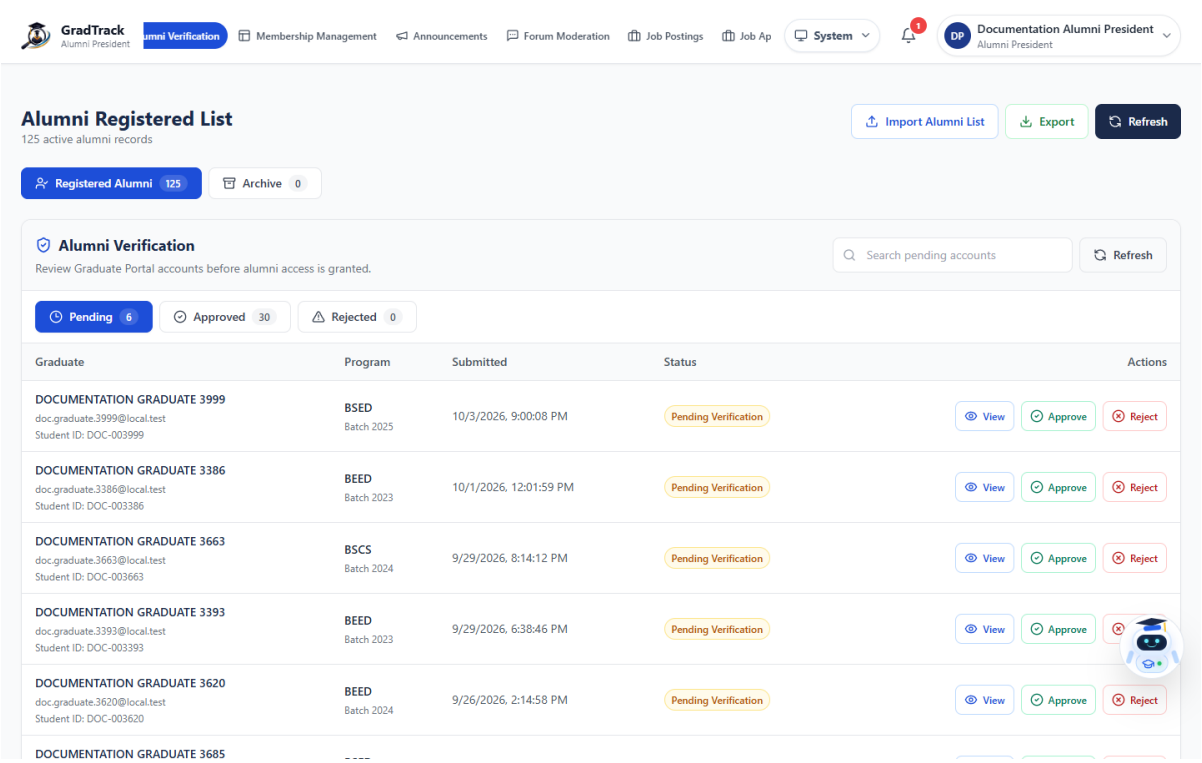

Figure 51. Alumni Verification with Updated View Details Action

Figure description: The current Actions column uses the updated blue eye icon with the View label beside Approve and Reject.

9.2 View Graduate Account Details

Purpose: Inspect verified survey and account information before deciding an account request.

Procedure

Step 1. Select View on a graduate request.

Step 2. Review verification status, portal status, email, student ID, program, year, phone, address, and submission timestamps.

Step 3. Select Approve or Reject from the dialog when ready, or select Close without changing status.

Expected Result: The selected approval action is recorded, or the dialog closes without a change.

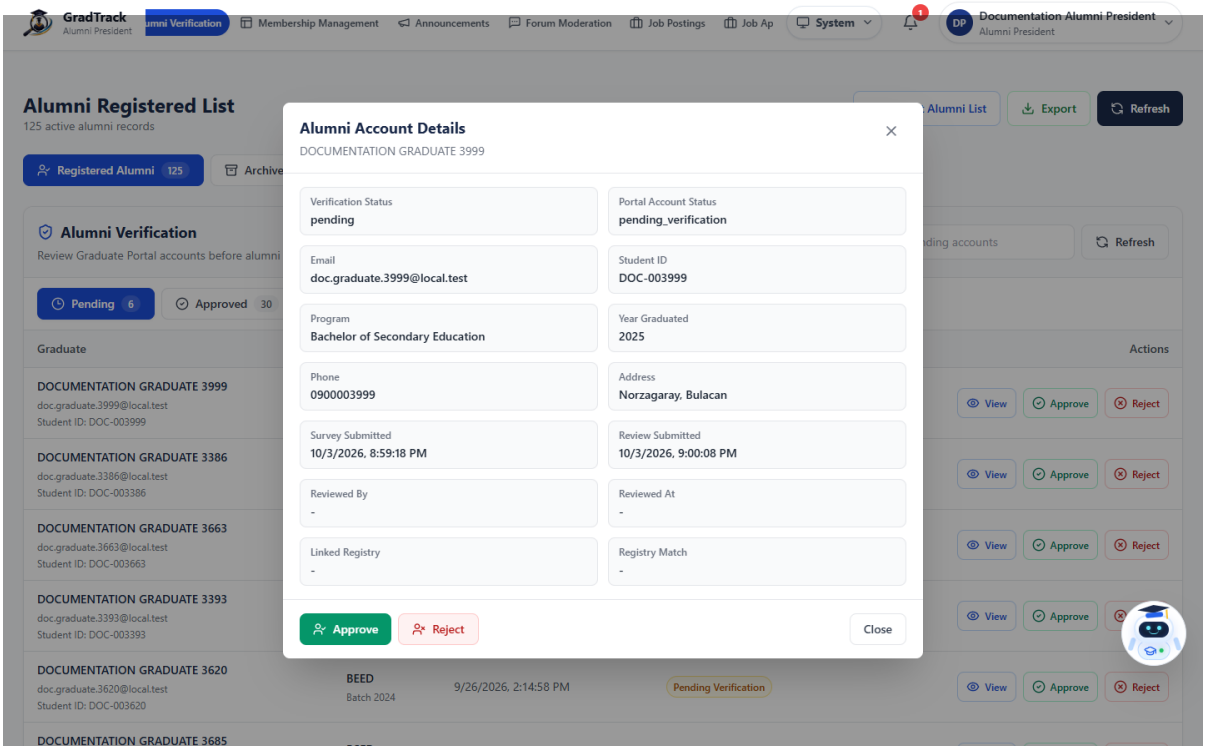

Figure 52. Alumni Account Details

Figure description: The details dialog presents the information required for Alumni President account review.

9.3 Manage Alumni Membership Information

Purpose: Maintain the public membership branding, page copy, benefits, fees, ID previews, instructions, and publication state.

Procedure

Step 1. Open Membership Management.

Step 2. Review the branding and page-copy fields.

Step 3. Update only confirmed Alumni Association information and assets.

Step 4. Use Preview draft before Save draft or Publish.

Step 5. Select Publish only after the content has been verified.

Expected Result: The draft is saved or the approved membership content becomes public.

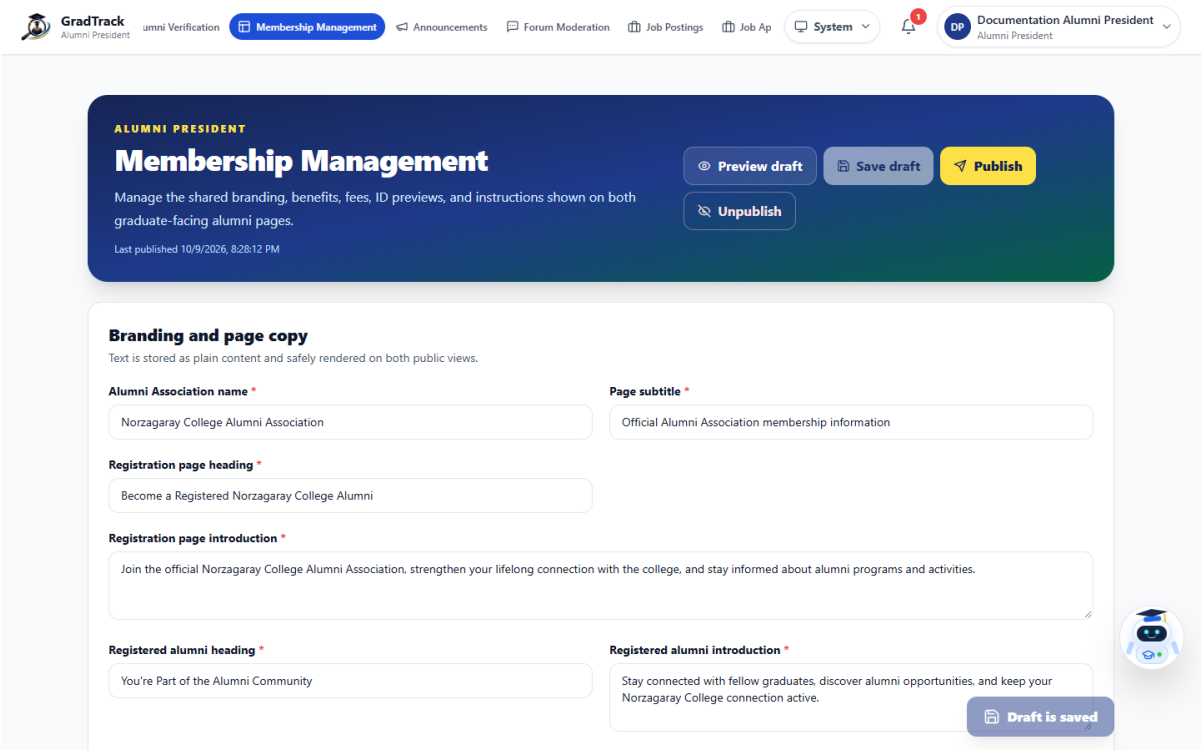

Figure 53. Alumni Membership Management

Figure description: The management page controls the two public membership views and their current branding.

9.4 Manage Announcements

Purpose: Create and maintain notices shown on public and Graduate Portal announcement pages.

Procedure

Step 1. Open Announcements.

Step 2. Use All, Published, Draft, or Archived to filter the list.

Step 3. Select Edit or Delete only for the intended announcement.

Step 4. Select New Announcement to create a notice.

Expected Result: The announcement list reflects the completed action and current status.

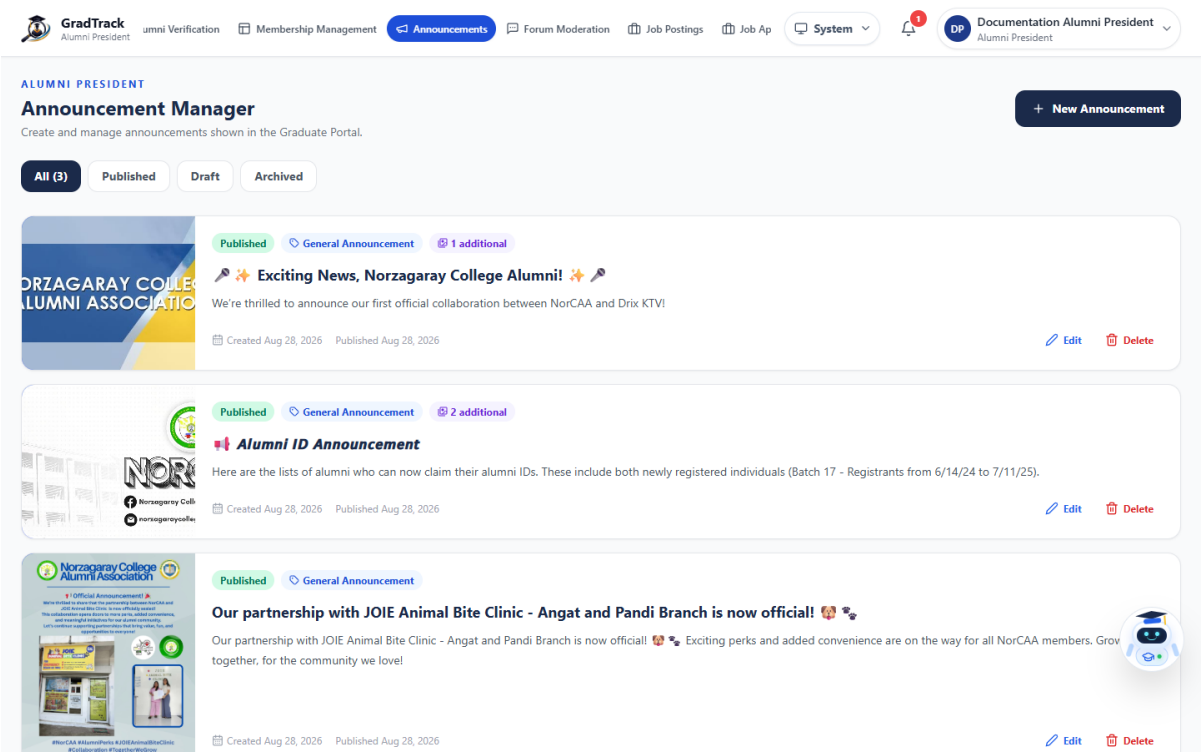

Figure 54. Alumni President Announcement Manager

Figure description: The Announcement Manager lists published content and available management actions.

9.5 Create an Announcement

Purpose: Publish or save an official notice with complete content and optional media.

Procedure

Step 1. Select New Announcement.

Step 2. Enter the title, category, event date when applicable, status, short description, and full content.

Step 3. Add supported media using the available controls.

Step 4. Select Create Announcement.

Expected Result: The announcement is created with the selected publication status.

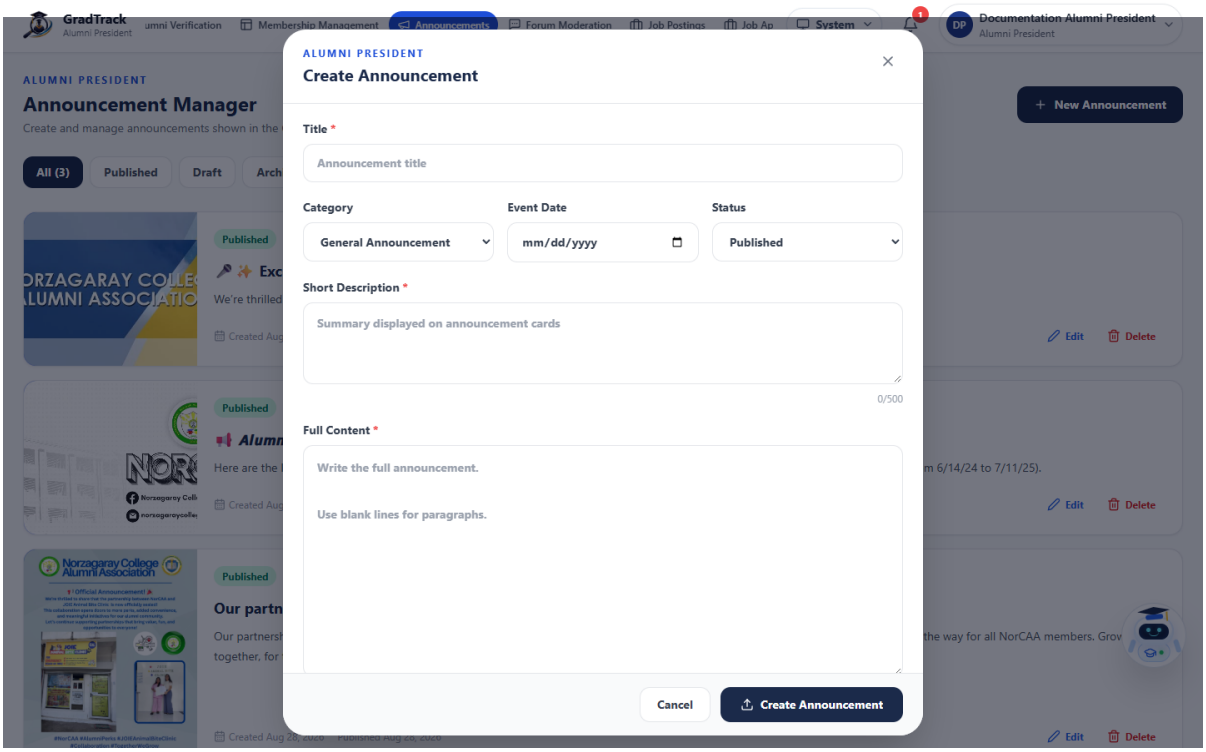

Figure 55. Create Announcement Form

Figure description: The current form includes title, category, event date, status, summary, and full content.

9.6 Moderate Reported Forum Content

Purpose: Review and resolve graduate reports without altering unrelated community content.

Procedure

Step 1. Open Forum Moderation.

Step 2. Use report type, reason, status, and search filters.

Step 3. Select View Content before deciding.

Step 4. Choose Hide Content, Resolve Report, or Dismiss Report according to the verified case.

Expected Result: The report and content status update according to the selected moderation decision.

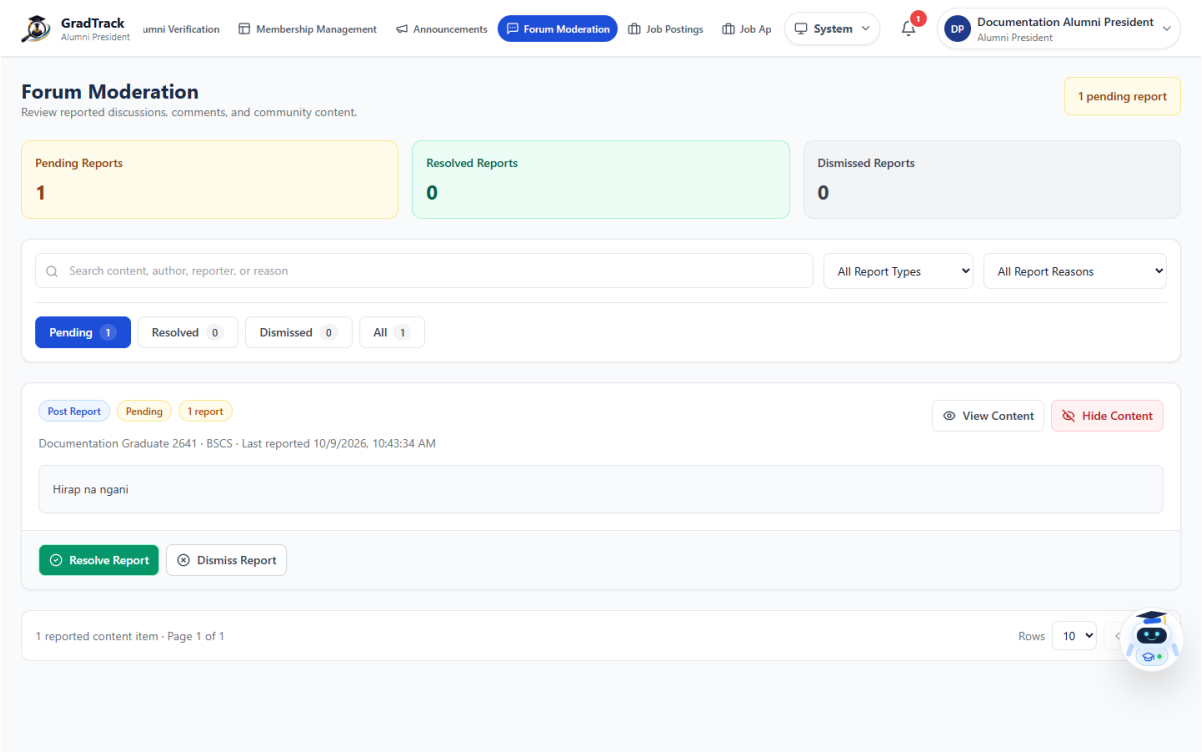

Figure 56. Forum Moderation

Figure description: The moderation queue displays report counts, filters, content preview, and resolution controls.

9.7 Alumni President Job Postings

Purpose: Create and manage staff-originated opportunities displayed to graduates.

Procedure

Step 1. Open Job Postings.

Step 2. Select Create Job to add an official opportunity.

Step 3. Use search to locate an existing post.

Step 4. Use Edit, Archive, or Delete only after confirming the intended job and status.

Expected Result: The staff job list reflects the completed action.

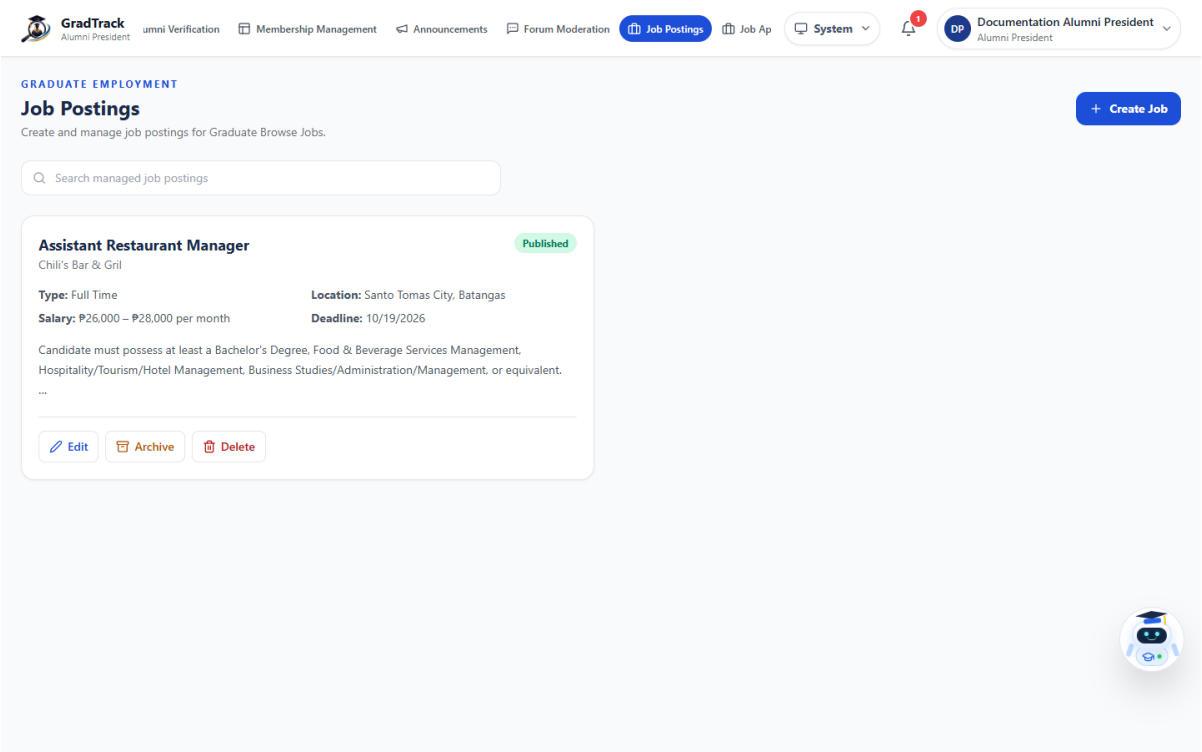

Figure 57. Alumni President Job Postings

Figure description: The staff job manager shows publication status and authorized management controls.

9.8 Approve Graduate Job Posts

Purpose: Review job opportunities submitted by graduates before publication.

Procedure

Step 1. Open Job Approval.

Step 2. Use status tabs and search to locate a submission.

Step 3. Review the job information and program scope.

Step 4. Approve, decline, or archive the submission using the available control and provide a reason when required.

Expected Result: The job submission moves to the selected approval status; only approved active posts appear in Browse Jobs.

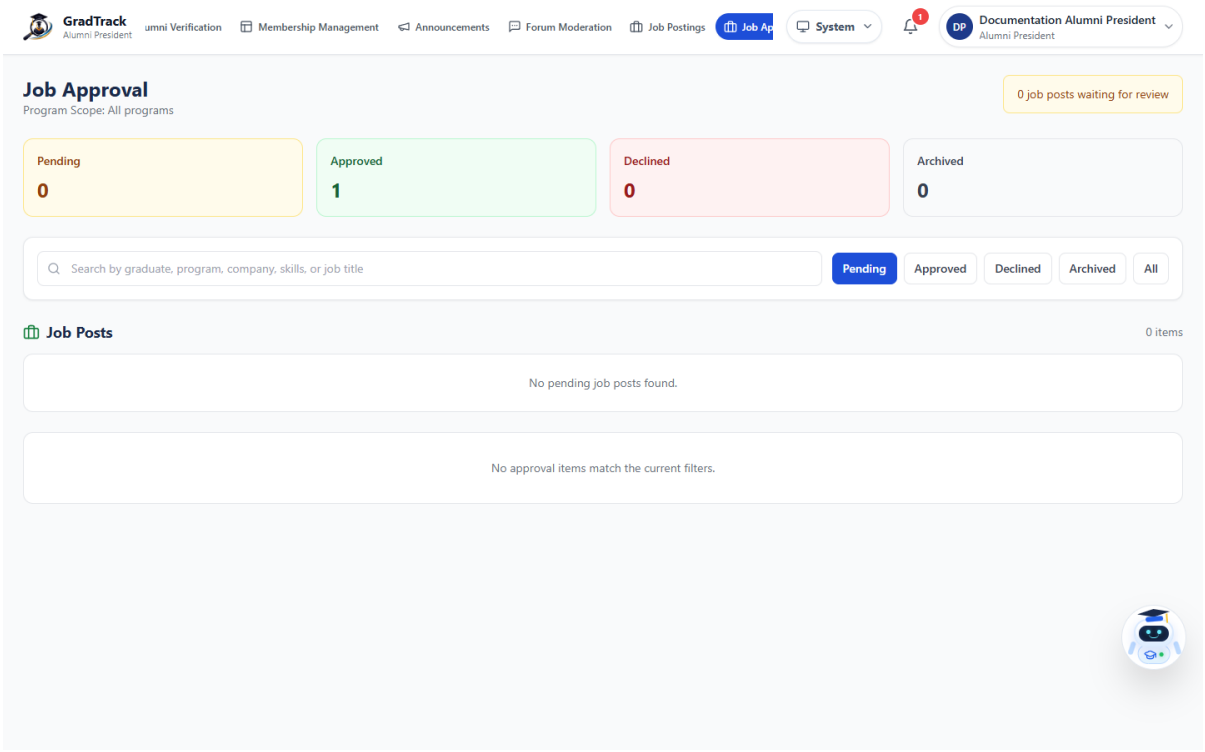

Figure 58. Graduate Job Approval Queue

Figure description: The approval page summarizes pending, approved, declined, and archived graduate job posts.

10 Administrator User Manual

10.1 User Management

Purpose: Maintain authorized personnel accounts, roles, and active status.

Procedure

Step 1. Sign in as Administrator and open User Management.
Step 2. Use search, role, and status filters.
Step 3. Select the edit or account-status action for the intended personnel record.
Step 4. Confirm role and status changes before saving.
Expected Result: The personnel account list reflects the authorized update.

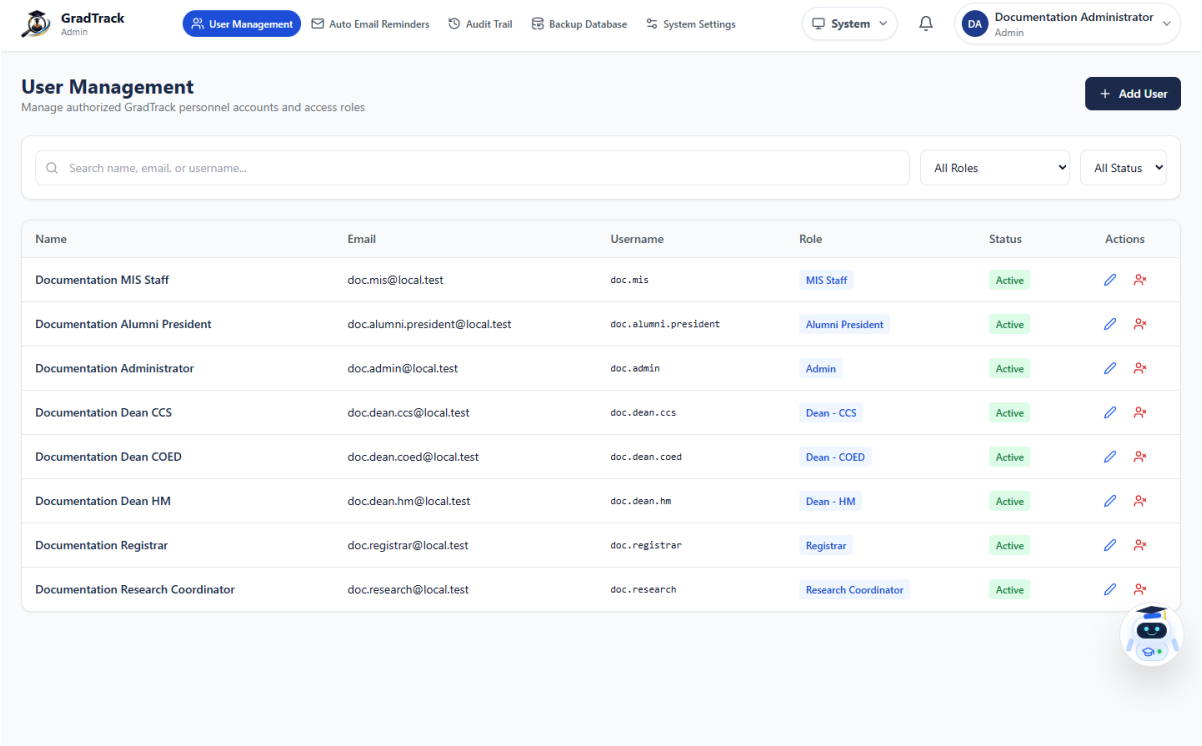

Figure 59. Administrator User Management

Figure description: User Management lists distinct Admin, MIS Staff, Research Coordinator, Registrar, Alumni President, and Dean roles.

10.2 Add a Personnel User

Purpose: Create a new authorized personnel account with a specific system role.

Procedure

Step 1. In User Management, select Add User.
Step 2. Enter the full name, username, email, and temporary password.
Step 3. Select the exact role and account status.
Step 4. Select Create User and communicate credentials through an approved channel.
Expected Result: The new personnel account appears in User Management.

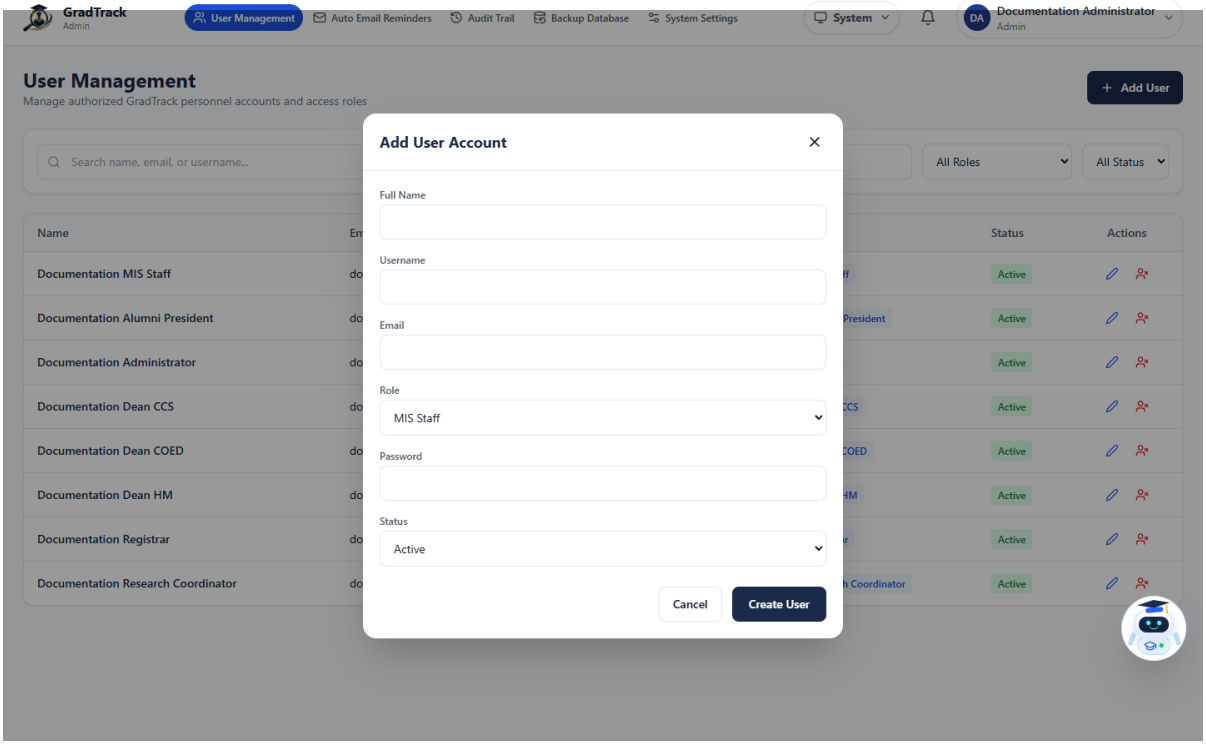

Figure 60. Add Personnel User

Figure description: The Add User form includes identity, login, role, password, and status fields.

10.3 Automated Email Reminders

Purpose: Configure and monitor survey reminders for eligible graduates who have not answered.

Procedure

Step 1. Open Auto Email Reminders.

Step 2. Review the active survey, eligible graduate count, frequency, and delivery totals.

Step 3. Use the Frequency, Send Reminders, or History tabs for the required task.

Step 4. Confirm recipients and settings before any manual send.

Expected Result: The reminder configuration or delivery history is displayed and authorized sends are logged.

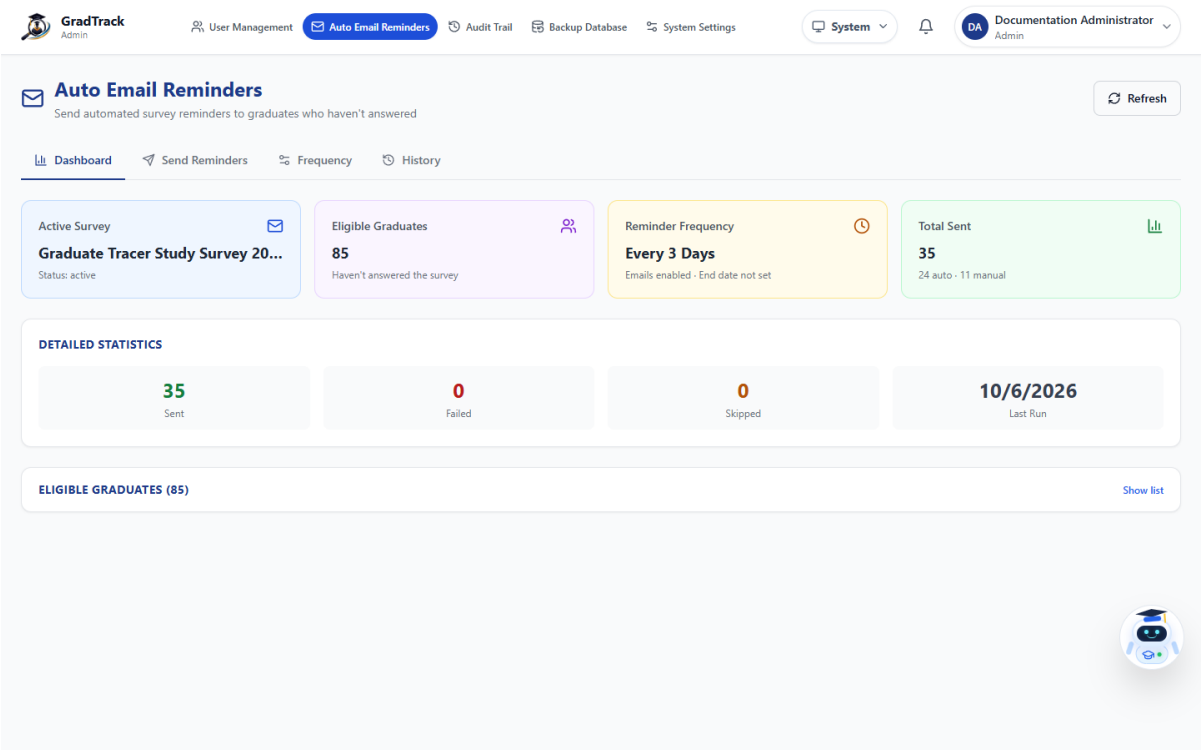

Figure 61. Automated Email Reminders

Figure description: The reminder dashboard summarizes eligible graduates, frequency, totals, and recent run data.

10.4 Audit Trail

Purpose: Review read-only records of personnel authentication and administrative actions.

Procedure

Step 1. Open Audit Trail.

Step 2. Use search, role, department, action, module, and date filters.

Step 3. Select View Details for an event when needed.

Step 4. Select Export only when an authorized audit copy is required.

Expected Result: The filtered audit events or selected event details are displayed.

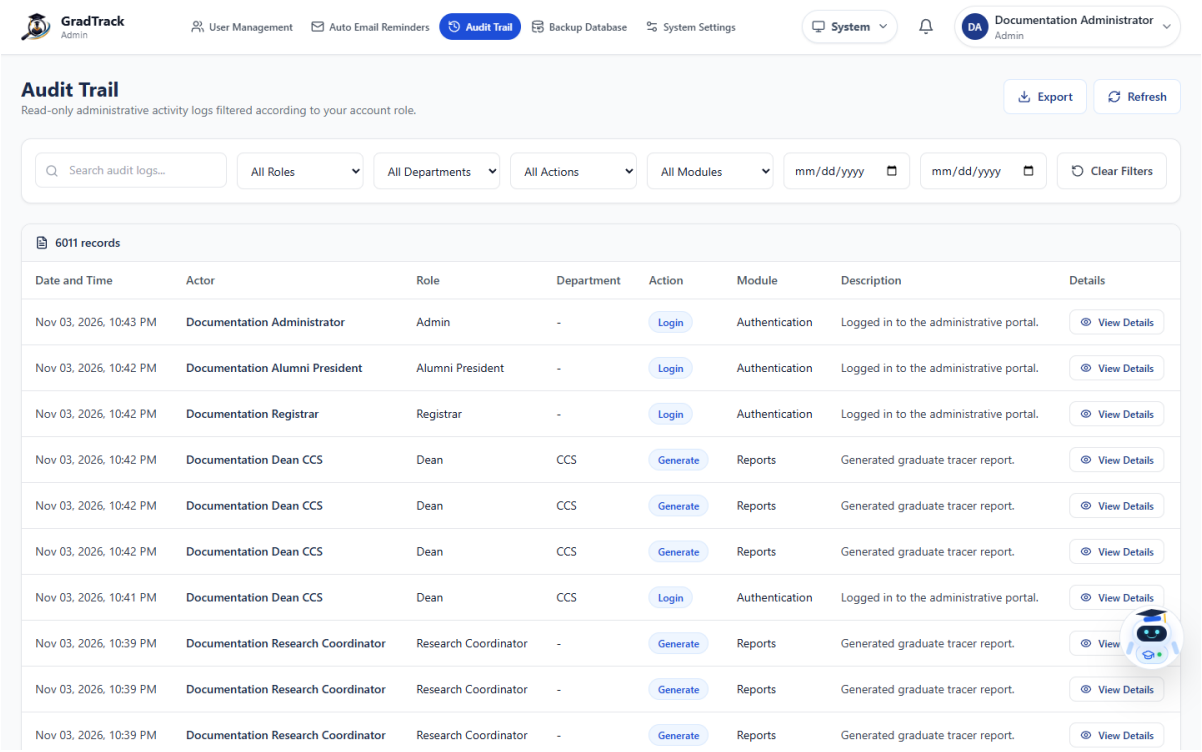

Figure 62. Administrator Audit Trail

Figure description: The audit trail records actor, role, department, action, module, description, and time.

10.5 Database Backup

Purpose: Download a restorable SQL backup of the current GradTrack database.

Procedure

Step 1. Open Backup Database.

Step 2. Review the database name, table count, record count, estimated size, and checklist.

Step 3. Select Download Backup.

Step 4. Store the downloaded SQL file in a secure, access-controlled location and verify it using the institution's recovery procedure.

Expected Result: A database backup file downloads without changing current records.

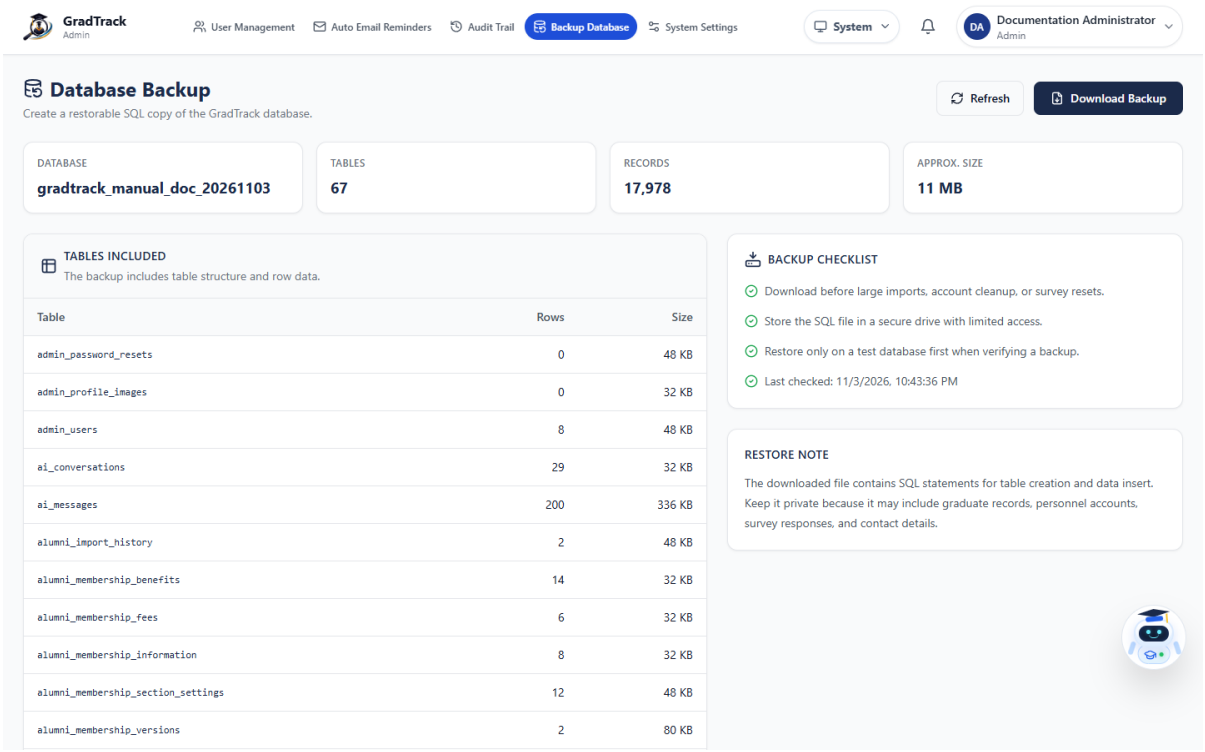

Figure 63. Database Backup

Figure description: The backup page identifies included tables, counts, size, checklist, and restore note.

10.6 General System Settings

Purpose: Maintain approved system identity, contact, feature, survey, community, maintenance, and public-content configuration.

Procedure

Step 1. Open System Settings.

Step 2. Choose the relevant settings tab.

Step 3. Review the current values before editing.

Step 4. Select Save Changes only after confirming the full effect; use Cancel to discard unsaved changes.

Expected Result: The approved configuration is saved and applied to its affected interface.

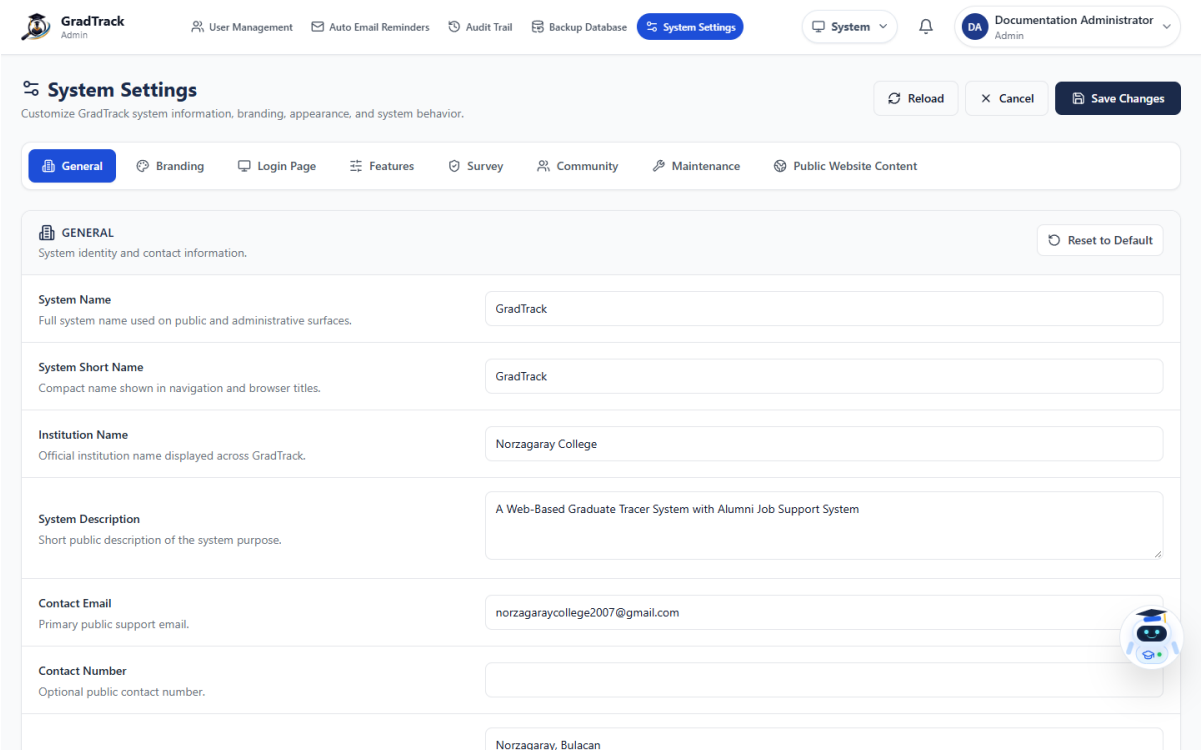

Figure 64. General System Settings

Figure description: System Settings groups general, branding, login, feature, survey, community, maintenance, and public-content options.

10.7 Branding Settings

Purpose: Use the official current logos, favicon, and theme colors throughout GradTrack.

Procedure

Step 1. In System Settings, select Branding.

Step 2. Review the current System Logo, Login Logo, Favicon, and theme colors.

Step 3. Select Upload only for an approved official asset.

Step 4. Preview the interface and select Save Changes.

Expected Result: The approved branding is applied to the configured system surfaces.

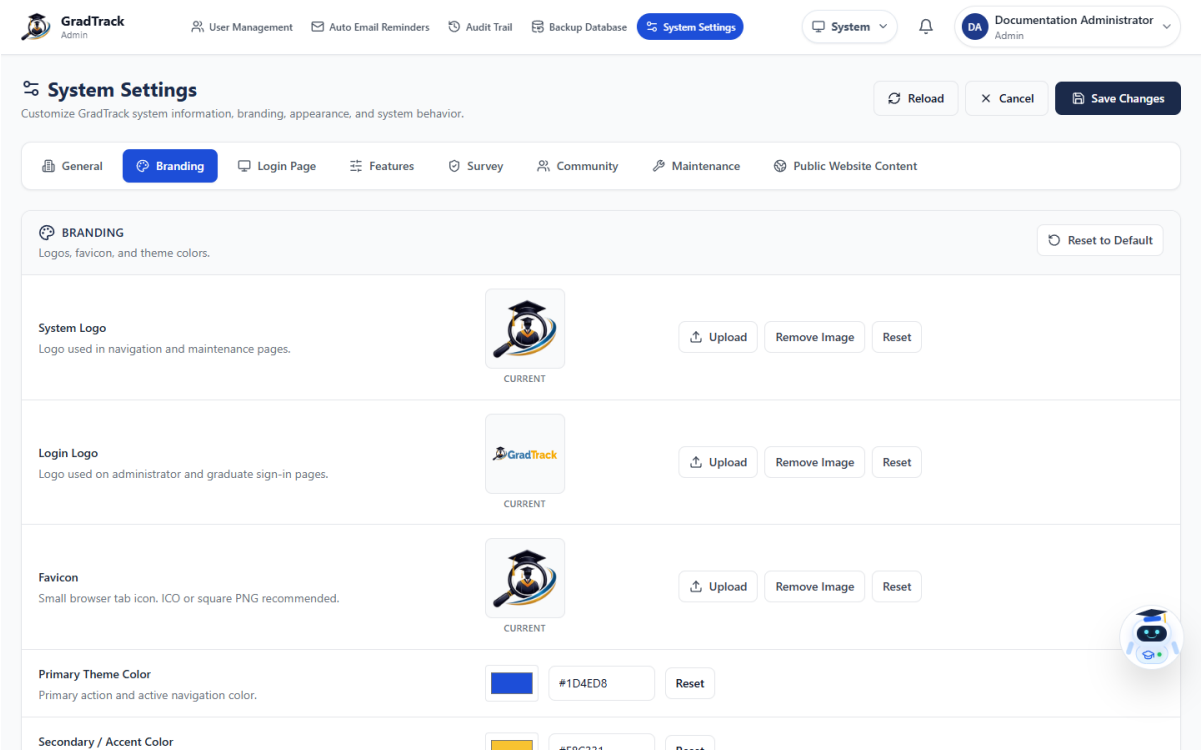

Figure 65. GradTrack Branding Settings

Figure description: The branding tab displays the current official GradTrack assets and theme colors.

10.8 Administrator Profile

Purpose: Maintain the Administrator's own personnel information, profile image, and password.

Procedure

Step 1. Open the account menu and select My Profile.

Step 2. Select Edit Profile.

Step 3. Update permitted details or password fields.

Step 4. Select Save Changes.

Expected Result: The Administrator's personnel profile is updated.

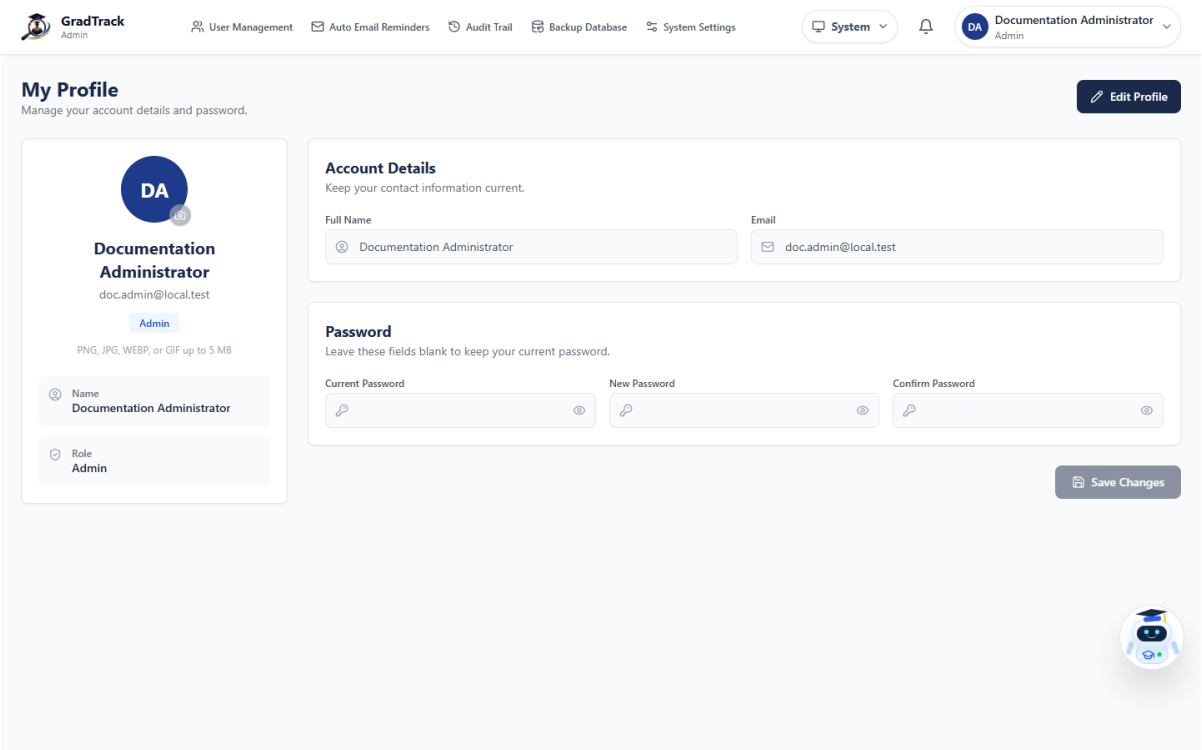

Figure 66. Administrator Profile

Figure description: The profile page separates account details from password changes.

10.9 Administrator AI Assistant

Purpose: Provide assistance using data and modules permitted to the Administrator role.

Procedure

Step 1. Select Ask GradTrack AI Assistant.

Step 2. Start a new conversation or open an existing one.

Step 3. Enter a clear system-related question.

Step 4. Verify operational or security-sensitive information using the relevant administrative module.

Expected Result: The assistant returns a role-scoped response without performing unconfirmed destructive actions.

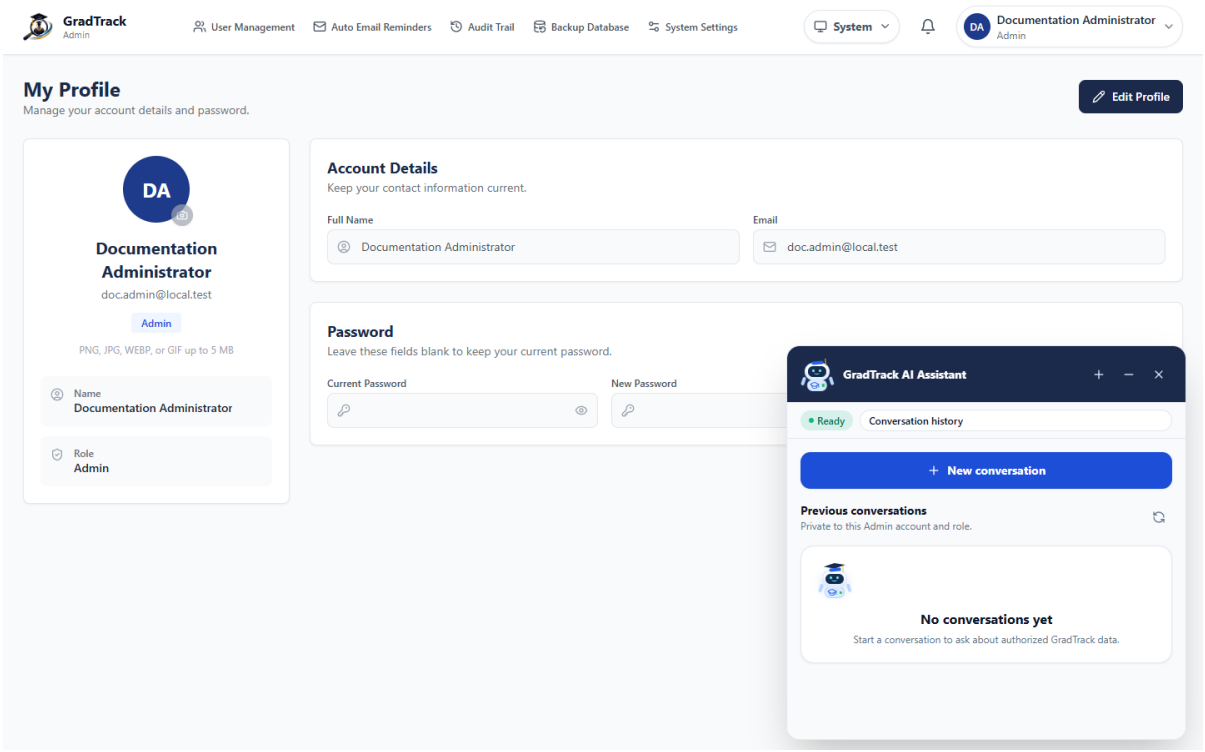

Figure 67. Administrator AI Assistant

Figure description: The Administrator assistant panel is available from personnel pages and maintains conversation history.

11 MIS Staff User Manual

11.1 MIS Staff Dashboard

Purpose: Provide MIS Staff with the current institution-wide graduate-outcome dashboard.

Procedure

Step 1. Sign in as MIS Staff.
Step 2. Open Dashboard.
Step 3. Choose the relevant survey.
Step 4. Review employment, alignment, coverage, and trend indicators.
Expected Result: The selected survey's institution-wide dashboard is displayed.

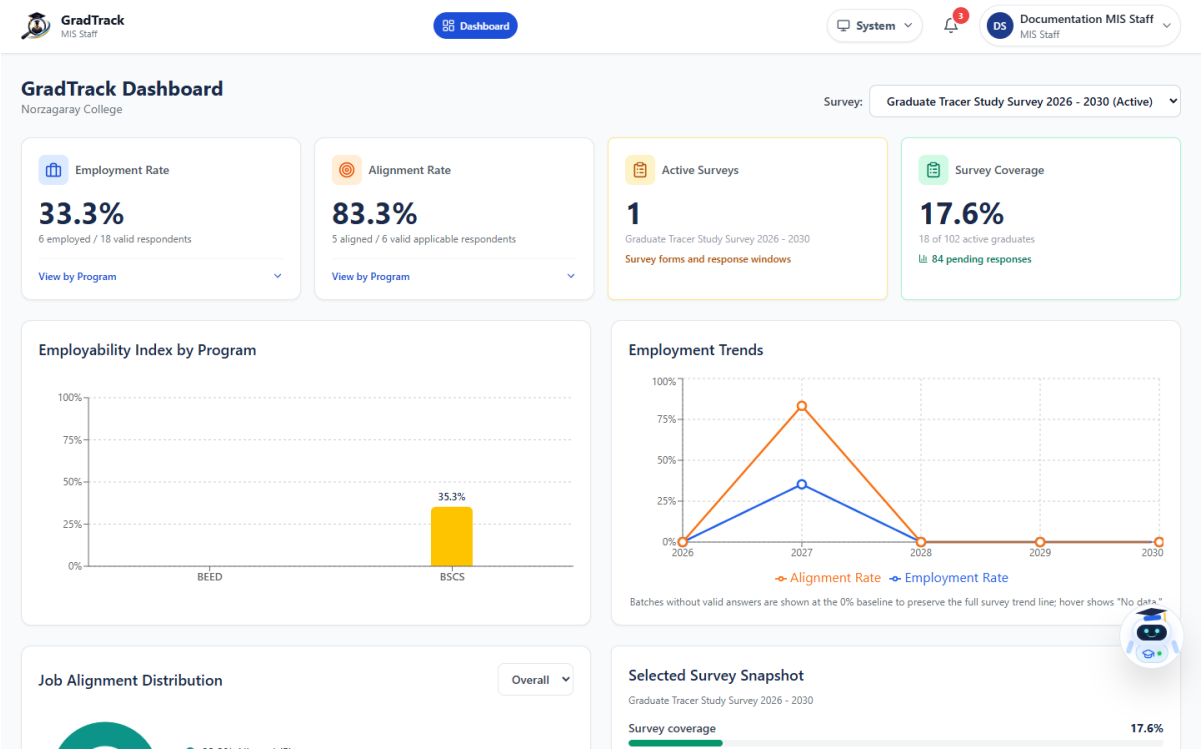

Figure 68. MIS Staff Dashboard

Figure description: The current MIS Staff role has dashboard access without the Administrator's management modules.

11.2 MIS Staff Profile

Purpose: Maintain the MIS Staff user's own profile and password.

Procedure

Step 1. Open the account menu and select My Profile.
Step 2. Select Edit Profile.
Step 3. Update permitted details or password fields.
Step 4. Select Save Changes.
Expected Result: The MIS Staff profile is updated.

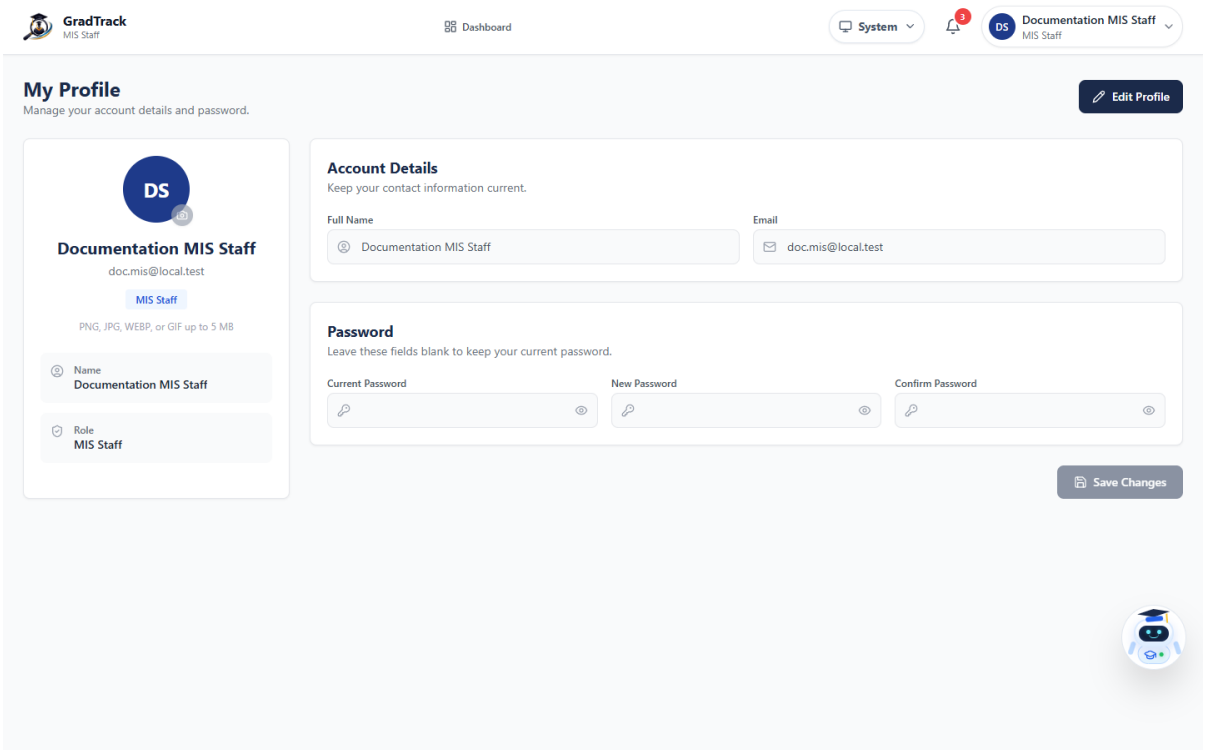

Figure 69. MIS Staff Profile

Figure description: MIS Staff is a separate current role with profile access and no Admin configuration menu.

12 Job Support Features

GradTrack uses a controlled job-posting lifecycle so graduates see approved opportunities and can follow the employer's configured application method.

Stage	Responsible User	Current Action	Related Figures
Create	Graduate	Submit a complete job post for review	Figures 23–24
Review	Alumni President	Approve, decline, or archive graduate submissions	Figure 58
Publish and maintain	Research Coordinator, Dean, or Alumni President	Create and manage authorized staff posts	Figures 37, 42, and 57
Discover	Graduate	Filter, open, save, and share active jobs	Figures 20–22
Apply	Graduate	Follow Apply Now or the employer's displayed instructions	Figure 21

12.1 Job-Posting Rules

- Graduate-submitted jobs are not public until approved.
- External application links and employer contact methods open or operate outside GradTrack.
- Saved Jobs are personal bookmarks and do not constitute an application.
- Archive or delete actions must be used only on the intended post and with authorization.

13 Common Account, Security, and Troubleshooting Guidance

13.1 Sign Out

Open the account menu and select Sign Out. Confirm that the sign-in page appears before leaving a shared computer.

13.2 Password Safety

- Use a unique password and never send it through an unsecured channel.
- Graduate Portal registration requires uppercase, lowercase, number, and symbol characters.
- Use the appropriate Forgot Password link instead of creating a duplicate account.

13.3 Common Problems

Problem	Current Guidance
A page keeps loading	Wait for the active request to finish, refresh once, and verify the authorized environment and network connection.
A menu is missing	Confirm the signed-in role. Menus are intentionally role-based.
A graduate cannot verify identity	Check that student number or email, last name, program, and registrar record match exactly.
A graduate cannot sign in	Confirm that the account was created, approved by the Alumni President, and remains active.
A job is not visible	Confirm that it is approved, published, active, and not past its availability rules.
A Registrar edit action is missing	This is expected in the current version. Existing graduate rows have no Edit or View Details action.

Appendix A — Verification and Screenshot Notes

- All figures were captured at 1440 × 900 from the latest running application.
- The screenshot environment used an isolated local clone and anonymized names, emails, student identifiers, phone numbers, and addresses.
- No production record was edited, archived, approved, deleted, or emailed during documentation work.
- The local survey was temporarily placed in an active documentation state so consent, completion, review, submission, and account-registration screens could be verified.
- The original 61-page PDF and existing editable Word file were references only; current source code and working interfaces were treated as authoritative.
